**APPLICATION FOR CERTIFICATION OF GREEN ENERGY PRODUCTION FACILITY /
PRODUCTION OF ELECTRICITY**

1. Application Submitted By: _____
Contact Name and Phone Number: _____
Contact Email Address: _____
2. Mailing Address: _____
3. Name of Company/Purchaser: _____
4. Project Address of Company/Purchaser: _____
5. Property is in _____ County, and located at City/State _____
6. What energy source will be used to produce electricity? Geothermal Hydrogen Nuclear Solar Wind
7. Project Start Date: _____ Project End Date: _____
8. Does the project include stationary storage? Yes No
If yes, describe. _____
9. Describe the appliances, equipment, machinery, or structure to be included in this certification and how the electricity will be used. If additional space is needed, use separate page.

10. Agreement from the Green Energy Production Facility that all "green energy" produced or stored at this facility is generated with clean energy technology? Yes No
11. Name and Address of Utility Receiving Green Energy from this applicant:
Utility Name: _____ Utility Phone Number: _____
Address: _____ Utility E-Mail Address: _____
City/Zip _____ Utility Contact Person: _____
12. Copy of contract between the Green Energy Producer and the Utility or contract between the installer and the Green Energy producer attached? There has to be documentation supporting the project information. Yes No

I hereby certify that the above information is true and complete.

Signed: _____ Title: _____
OWNER OR OFFICIAL

FOR TDEC USE ONLY - DO NOT WRITE BELOW THIS LINE

Allowed: _____	Date Received: _____
Disallowed: _____	Review and Recommendation by: _____
Copy to Owner: _____	Date: _____
Copy to Department of Revenue: _____	Date: _____
This is to certify that in accordance with Section 67-4-2004 the above described facility meets the criteria for a green energy production facility.	
_____ NAME	
_____ TITLE	

**APPLICATION FOR CERTIFICATION OF GREEN ENERGY PRODUCTION FACILITY /
PRODUCTION OF ELECTRICITY**

Filing Instructions

Certification of: Green Energy Production Facility

Complete and email application and supporting documentation to: TDECGreen.Energy@tn.gov

If additional space is needed for form completion, please attach a separate page and clearly indicate which form field is being referenced. All project information has to be supported with documentation.

If you are an individual and have no supporting documentation (installation contract or interconnection agreement) because you are also the installer and will not be connected to the grid, please submit the application along with receipts for the purchase of the equipment. Once certified and Department of Revenue issues the exemption, you will then need to notify the supplier to receive a refund on the sales tax.

The Department of Revenue's Supplemental Green Energy Production Facility Tax Form has to be completed before an exemption will be issued by Revenue. To reduce processing time, please submit the supplemental application along with TDEC's. Once certified, TDEC will send both applications to Revenue.

This form is intended for certification of a Green Energy Production Facility - Production of Electricity via renewable energy sources including hydrogen, solar, geothermal, and wind resources. If certification for a Green Energy Production Facility - Alternative Motor Fueling Station or a Green Energy Production Facility - Combined Heat and Power are sought, please complete appropriate forms dedicated to those facility types located at the following link:

<https://www.tn.gov/environment/sustainability/funding.html>

If this application is submitted for purposes of T.C.A. § 67-6-346, then the Department of Environment & Conservation will review and certify its findings to the Commissioner of the Department of Revenue as prescribed in that section.
