## Instructions for Filing

### CERTIFICATION OF POLLUTION CONTROL FACILITY

#### For the certification of all pollution control facilities:

1. Complete the form with original signatures and original notary.
2. Please attach an itemized list of property to be certified, its description, its use and whether the purpose of the property is considered reducing air pollution, reducing water pollution, or treating, recycling, or disposing of hazardous waste. Please do not itemize as a system or method instead of by item. One item in a system or method may qualify as a pollution control facility whereas another item may not. If an appropriate determination cannot be made due to inexact itemization, the application will be denied. Value of property is not certified by this department.
3. For the following types of pollution control facility, please include the following in your description:

**Reducing water pollution:** Provide a detailed narrative describing how the facility or equipment for which certification is being requested reduces water pollution and provide a schematic diagram and/or photos of the facility and its operation. If TDEC or a local program has assigned a permit or tracking number for the facility, please be sure to include this number in both the form and the narrative description.

**Reducing air pollution:** Provide a detailed narrative describing how the facility or equipment for which certification is being requested reduces air pollution and provide a schematic diagram and/or photos of the facility and its operation. . If TDEC or a local program has assigned a permit or tracking number for the facility, please be sure to include this number in both the form and the narrative description.

**Treating, recycling or disposing of hazardous waste:** Provide a detailed narrative describing how the facility or equipment for which certification is being requested treats, recycles, or disposes of hazardous waste and a schematic diagram and/or photos of the facility.

**For all divisions, the facility must be in use or intended for use, at the site on the date of submittal of the application.**

**For all counties, except the counties listed below, applications should be emailed to Heather Weldon, Tennessee Department of Environment & Conservation, Office of Policy & Sustainable Practices, at [Heather.Weldon@tn.gov](mailto:Heather.Weldon@tn.gov).**

**The Division of Water Resources, the Division of Solid Waste Management, and Division of Air Pollution Control (other than in the counties noted below) will review and recommend certification, and the Tennessee Department of Environment and Conservation (TDEC) will certify this to the appropriate county tax assessor.**
