This list includes most vendors which have provided compliance services in the State of Tennessee. The list does not represent all vendors which may provide such services. This list has been provided only as a convenience for assisting tank owner/operators in achieving compliance.

The Division of Underground Storage Tanks (Division) cannot recommend one service provider over another. The Division does not guarantee nor make claims regarding the quality of services provided by any particular vendor.

It is the responsibility of the owner/operator of the facility to procure services from the vendor of their choice. The owner/operator, not the service provider, is responsible for all compliance requirements of the Division as well as meeting all compliance deadlines.

It is the responsibility of the owner/operator to procure another vendor or multiple vendors to meet compliance deadlines if services cannot be provided on time or are delayed.
