1. Purpose

a. Authority to Investigate

The Tennessee Petroleum Underground Storage Tank Act (UST Act) provides authority to the Commissioner in § 68-215-107(a) through (e) to investigate complaints and the enforce rules of the Underground Storage Tanks and Solid Waste Disposal Control Board adopted pursuant to § 68-215-107(f)(1) through (11) in Chapter 0400-18-01. This document establishes a policy for receiving and responding to complaints, responding to complainants, tracking results, and periodically analyzing the data collected by the Division of Underground Storage Tanks (UST Division).

b. Definition of Complaint for this Policy

Since the UST Act or rules do not contain a definition for the term complaint, for the purposes of this Policy, valid complaints for the UST Division only include petroleum USTs regulated by the UST Act and rules adopted by the Board.

c. Clarification that Complaints may be Anonymous

There is no requirement in the UST Act for complainants to identify themselves or to submit a complaint in writing. Consequently, UST Division staff will accept complaints in any format, written or unwritten, and there is no requirement for a complainant to identify themselves or to provide a mailing or email address or telephone number unless they chose to for post complaint follow-up by the staff member.

2. Definitions

A petroleum underground storage tank or petroleum UST is defined in § 68-215-103(14).

"Petroleum underground storage tank" means any one (1) or combination of tanks (including the underground lines connected thereto) which are used or have been used to contain an accumulation of petroleum substances, and the volume of which (including the volume of the underground pipes connected thereto) is ten percent (10%) or more beneath the surface of the ground. "Petroleum underground storage tank" does not include any tank exempted from this chapter pursuant to § 68-215-124;"

Exempted tanks under § 68-215-124 are:

- “(1) Septic tanks;
- (2) Farm or residential tanks of one thousand one hundred gallons (1,100 gal.) or less used for storing motor fuel for noncommercial purposes;
- (3) Tanks used for storing heating oil for consumption on the premises where stored;
- (4) Pipeline facilities (including gathering lines) regulated under:
  - (A) The Natural Gas Pipeline Safety Act of 1968, compiled in 49 U.S.C. Appx. § 60101 et seq.;
  - (B) The Hazardous Liquid Pipeline Safety Act of 1979, compiled in 49 U.S.C. Appx. § 60101 et seq.;
  - or
  - (C) State laws comparable to the law referred to in subdivision (4)(A) or (4)(B), if it is an intrastate pipeline;
- (5) Surface impoundments, pits, ponds, or lagoons;
- (6) Storm water or waste water collection systems;
- (7) Flow-through process tanks;
- (8) Liquid traps or associated gathering lines directly related to oil or gas production and gathering operations;
- (9) Petroleum storage tanks situated in an underground area (such as a basement, cellar, mine working, drift, shaft, or tunnel) if the storage tank is situated upon or above the surface of the floor; and
- (10) Pipes or connections connected to exempted tanks.”

### 3. Common Complaints Received

The UST Division only has oversight of petroleum USTs, associated piping and ancillary equipment regulated by the UST Act and rules adopted by the Board. The situations listed below are the most commonly received complaints<sup>1</sup>.

#### Unregistered Tanks

UST Act	Unlawful Actions	§ 68-215-104(2)
UST Act	Notification as to tanks in use and tanks taken out of operation	§ 68-215-106(a)(1) and (a)(4)
UST Act	Notification as to tanks in use and tanks taken out of operation	§ 68-215-106(f)(9)
UST rules	Notification, Reporting, and Record Keeping	0400-18-01-.03(1)(a)1 and 2

#### Release Prevention

UST Act	Unlawful Actions	§ 68-215-104(2) and (6)
UST Act	Supervision, inspection, and enforcement responsibilities	§ 68-215-107(f)(6) and (7)
UST rules	Spill and overfill prevention	0400-18-01-.02(3)(a) through (d)

#### Corrosion Protection

<sup>1</sup> The list of commonly received complaints is not an exhaustive list of all violations that could occur under the UST Act and rules adopted by the Board.

UST Act	Unlawful Actions	§ 68-215-104(2) and (6)
UST Act	Supervision, inspection, and enforcement responsibilities	§ 68-215-107(f)(6) and (7)
UST rules	Corrosion protection	0400-18-01-.02(4)(a) through (c)6.ii.IV)

Release Detection

UST Act	Unlawful Actions	§ 68-215-104(2) and (6)
UST Act	Supervision, inspection, and enforcement responsibilities	§ 68-215-107(f)(1)
UST rules	Release detection	0400-18-01-.04(1)(a) through (5)(c)

Released petroleum discovered at the petroleum site or in the surrounding area by persons other than the responsible party or their service companies and corrective action contractors

UST Act	Unlawful Actions	§ 68-215-104(1)
UST Act	Supervision, inspection, and enforcement responsibilities	§ 68-215-107(f)(3) and (4)
UST rules	Release reporting, investigation and confirmation	0400-18-01-.05(1) through (4)(b)
UST rules	Petroleum release response, remediation, and risk management - General requirements	0400-18-01-.06(1)(a)
UST rules	Petroleum release response, remediation, and risk management - Initial Response	0400-18-01-.06(3)(a)

Illegal Tank Closures

UST Act	Unlawful Actions	§ 68-215-104(2)
UST Act	Supervision, inspection, and enforcement responsibilities	§ 68-215-107(f)(5)
UST rules	Release detection	0400-18-01-.07

Deliveries to unregistered or red tagged tanks

UST Act	Unlawful Actions	§ 68-215-104(2) and (3)
UST Act	Unlawful use of tanks identified or not identified by notice or tag	§ 68-215-106(c) through (f)
UST rules	Petroleum product delivery	0400-18-01-.15

Tampering with release detection or release prevention equipment

UST Act	Unlawful Actions	§ 68-215-104(2) and (6)
---------	------------------	-------------------------

UST Act	Unlawful use of tanks identified or not identified by notice or tag	§ 68-215-106(c) through (f)
UST rules	Petroleum product delivery	0400-18-01-.15

4. Invalid Complaints

The definition of valid complaint for this Policy does not include:

- a. Reporting of a suspected or confirmed release by a regulated party or their representative;
- b. Inquiries for copies of public records from inspections and cleanup projects;
- c. Requests for technical assistance with day-to-day compliance from the public, potential purchasers, real estate agents, tank owners, tank operators, service providers and corrective action contractors on topics like;
  - i Release detection release prevention questions;
  - ii Release response and corrective action questions;
  - iii Fund eligibility and coverage questions;
  - iv Construction or permitting questions;
  - v Notification and fees questions; and
  - vi Liability questions.
- d. Types of tanks that must be referred to another entity:
  - i Exempt tanks listed in 68-215-124(1) through (10);
  - ii Hazardous substance tanks regulated by the Environmental Protection Agency; and
  - iii All other tanks not defined as a petroleum underground storage tank in 68-215-103(14).

5. Database Tracking – *GasLog*<sup>2</sup>

Tracking of all valid and invalid complaints will be performed in the GasLog database where the start date for the complaint will be the date the UST Division is contacted by:

- a. The public through an in person conversation, telephone call, email, letter, news report or by any other means; or
- b. A referral by other TDEC Division, state or local agency, EPA or legislative contact.

---

<sup>2</sup> See Appendix F: Database Tracking and Entry – GasLog Complaint Tracking Module

## 6. Initial Complaint Response

The complaint response begins when the complaint is received by the UST Division.

- a. Employees will follow the work outcomes and action steps in their assigned Individual Performance Plan statements<sup>3</sup>, established UST Guidance<sup>4</sup>, and use established checklists<sup>5</sup> for the site conditions, and arrive with the specified equipment<sup>6</sup>. See Appendices A, B and C.
- b. A trip report will be written and included in GasLog unless already determined to be non-jurisdictional
- c. Follow-up correspondence<sup>7</sup> will be sent to or a conversation held with the complainant whenever possible unless already determined to be non-jurisdictional
  - i Letter – use appropriate Division form letter
  - ii Email – use appropriate email content copied from the Division’s form letter
  - iii Always provide results in a trip report showing findings
  - iv Telephone – place telephone conversation report in GasLog

## 7. Complaint Response Complete

The complaint response is complete and will be closed when the UST Division determines that the complaint:

- a. Is valid for regulation under UST Act and enters process for compliance inspections or the process for suspected and confirmed releases of petroleum;
- b. Is not valid for regulation under the UST Act and is referred to other TDEC entity, state or local agency, or EPA; or
- c. No regulated tank or other environmental condition is found after a trip to the site.

## 8. Tracking and Data Analysis

- a. Tracking will be performed in the GasLog database and periodic analysis of complaints will be performed by the Field Office Deputy Director to correspond with the mid-year (October 1 through March 31) and end-of-year (April 1 through September 30) Semiannual Reports of UST Performance Measures issued by the Environmental Protection Agency showing at a minimum:
  - i The number and percentage of:

---

<sup>3</sup> See Appendix A – IPP work outcomes and action steps

<sup>4</sup> See Appendix B - Technical Guidance Documents 19 and 20

<sup>5</sup> See Appendix C - Drinking Water Complaints, Surface Water Complaints, Vapor Complaints

<sup>6</sup> See Appendix D - Field Equipment Checklist

<sup>7</sup> See Appendix E – Complaint follow-up correspondence

- A. Valid versus invalid complaints; and
  - B. The number and percentage of anonymous versus known complainants.
- ii Valid for all regulated USTs under the UST Act § 68-215-101 et seq.
- A. Valid no violations found
  - B. Valid violations found and type of violations
    - I. Release detection
    - II. Release prevention
    - III. Suspected release
    - IV. Confirmed release
    - V. Unregistered petroleum UST
- iii Invalid for all other tanks and structures not regulated under the UST Act § 68-215-101 et seq.
- A. Referred yes or no
  - B. Referred where and date
  - C. Complaint types
    - I. Types of invalid complaints for the UST Act
    - II. Age limited pre-1974 and pre-1988 – § 68-215-106(a)(2)
      - (i) All USTs out of service on or before January 1, 1974; and
      - (ii) All USTs out of service after January 1, 1974 and removed from the ground before July 1, 1988
- “For each petroleum underground storage tank taken out of operation after January 1, 1974, the owner of such tank shall within one (1) year after July 1, 1988, notify the commissioner of the existence of such tanks, unless the owner knows such tanks were removed from the ground. The owner of petroleum underground storage tanks taken out of operation on or before January 1, 1974, shall not be required to notify the commissioner. The commissioner shall accept as formal notification the EPA underground storage tank notification form filed with the department by the owner of the petroleum underground storage tank before July 1, 1988.”
- III. Exempt tanks under § 68-215-124 and other tanks

- IV. Hazardous substance tanks will be referred to the Region IV office of the Environmental Protection Agency in Atlanta, Georgia.
- V. Complaints about the following tanks will be referred to the Division of Solid Waste or Division of Remediation
  - (i) Petroleum ASTs;
  - (ii) Farm and residential tanks of  $\leq 1,000$  gallons that are exempt by § 68-215-124(2);
  - (iii) Tanks used for storing heating oil for consumption on the premises where stored that are exempt by § 68-215-124(3);
  - (iv) Flow-through process tanks that are exempt by § 68-215-124(7);
  - (v) Petroleum storage tanks situated in an underground area (such as a basement, cellar, mine working, drift, shaft, or tunnel) if the storage tank is situated upon or above the surface of the floor that are exempt by § 68-215-124(9); and
  - (vi) Pipes or connections connected to exempted tanks that are exempt by § 68-215-124(10).
- VI. Complaints about the following tanks and structures will be referred to the Division of Water Resources
  - (i) Septic tanks that are exempt by § 68-215-124(1);
  - (ii) Surface impoundment and lagoons that are exempt by § 68-215-124(5);
  - (iii) Storm water and waste water collection systems that are exempt by § 68-215-124(6); and
  - (iv) Pipes or connections connected to exempted tanks that are exempt by § 68-215-124(10).
- VII. Complaints about the following tanks and structures exempted by § 68-215-124(9) and (10) will be referred to the Tennessee Public Utility Commission, Gas Pipeline Safety Division
  - (i) Pipeline facilities (including gathering lines) regulated under:
    - (1) The Natural Gas Pipeline Safety Act of 1968, compiled in 49 U.S.C. Appx. § 60101 et seq.;
    - (2) The Hazardous Liquid Pipeline Safety Act of 1979, compiled in 49 U.S.C. Appx. § 60101 et seq.; or
    - (3) State laws comparable to the law referred to in subdivision (4)(A) or (4)(B), if it is an intrastate pipeline; and

## Appendix E: Complaint Follow-up Correspondence

Correspondence content and requirements may vary depending upon many factors. The following is an example of an *Unapproved Underground Storage Tank Closure* referenced on page 3 above.

---

(\*1 Date)

(Company)  
(Address)

Re: Enforcement Action Notice-Unapproved Underground Storage Tank Closure  
(\*3 Facility Name)  
(\*4 Facility Address)  
Facility ID # (\*5), (\*6) County

Dear (\*7):

The Division of Underground Storage Tanks has discovered that petroleum (\*8 tanks, lines, compartments or system) at the above referenced facility have been closed without our approval. This is a violation of Rule 0400-18-01-.07(4)(a) which states, in part:

“(a) At least thirty (30) days before beginning either permanent closure of any portion of an underground storage tank system or a change-in-service under subparagraphs (b) and (c) of this paragraph, owners, operators and/or other responsible parties shall apply for permanent closure, unless such action is in response to corrective action. Application for permanent closure or change in service shall meet the following requirements:

1. An Application for Permanent Closure of Underground Storage Tank Systems shall be submitted in a format established by the division. The application shall be completed according to the instructions provided by the division.
2. The tank owner, operator and/or other responsible party shall obtain division approval of the Application for Permanent Closure prior to permanently closing the UST system or any portion thereof or effecting a change in service of the UST system, unless tank compartment closure is conducted in accordance with paragraphs (3) and (5) of this rule.
3. The application shall constitute a plan for closure or change in service of the UST system, or any portion thereof.”

## **Appendix F: Database Tracking and Entry – GasLog Complaint Tracking Module**

This complaint policy process is paraphrased below for staff convenience and use while using the Division's Complaint Tracking Module. Staff responding to complaints must:

- 1) Thoroughly collect and document complainant allegations and contact information (if not anonymous),
- 2) For environmental impacts, investigate and respond within **2** calendar days and for all others within **10** calendar days of complaint intake,
- 3) Determine if the allegations made can be independently confirmed which will predominantly involve on-site observations, photographic documentation, etc.
- 4) Determine if the allegation falls under the Division of Underground Storage Tanks' jurisdiction (UST Act and subsequent adopted Rules),
- 5) If not the Division of Underground Storage Tanks' jurisdiction, make proper referrals to other TDEC regulatory Divisions, external agencies, and/or local government, if applicable,
- 6) Communicate results of the complaint investigation to complainant upon request,
- 7) Enter complaint investigation and upload documentation into the Division's *GasLog* Complaint Tracking Module completing information in each region of the module in its entirety,
- 8) Complete the above steps and close the complaint within **one business week** of completing the initial complaint response, and
- 9) For continuing UST jurisdictional requirements, track subsequent actions in other *GasLog* modules (compliance, remediation, etc.) per standard protocols.

The following shows each module of the *GasLog* Complaints Tracking Module and brief notes where needed. Selecting the "Apply Changes" button at any point saves the data entered. Selecting the "Cancel" button refreshes the record to the last saved version and does not save any updates currently entered. A printed version of the complaint data can be generated by selecting the "Printed Version" and following the printer dialogue prompts thereafter.

Appendix F (cont'd)

### GasLog Complaint Tracking Module

To access GasLog, login to the secured state network application using active directory user id and password.

To start a complaint module database entry, select the complaint module tab on the upper screen right (large red arrow) and then select the "Create New Complaint" gray button on the upper screen left (small red arrow).

Concerning (Other)

Enter or select items beginning with "Date Received" and continue entering/selecting items down the page completing the entire region.

The complaint can be assigned/delegated to other staff members for response and follow-through or by the original staff recipient as needed.

All registered UST facility ID's can be selected.

**Important note: A TDEC Site ID must be selected for the Documents with this Complaint and location based on SITE\_ID regions to display.** Documents, photos, etc. cannot be uploaded without a TDEC Site ID selected. The source of TDEC Site IDs incorporate sites from all TDEC (water, air, solid waste, etc.) so most of the time a TDEC site ID exists. If a TDEC site ID cannot be matched, please contact [Jo McCrary](#) or [David Brewer](#) for assistance.

Check box(es) "Yes" for allegations made by the complainant.

Check box(es), "Yes", "No, or "N/A" for staff verified. Staff verified means that staff themselves directly confirmed the allegation. Any "N/A" box checked should be further detailed in the "Concerning Other" memo box at the bottom of this region.
