Kick-Off Meeting

- What is a Drought Management Plan?
- What are Key Components of a Drought Management Plan?
- Action Item
 - Future Webinar with North Carolina to learn more about their Drought Management Advisory Council and Drought Assessment and Response Plan
 - Scheduled for May 15th via Webinar

Drought Management Plan - Key Components

1. Monitoring and Early Warning Systems
2. Risk Assessments and Vulnerability Analysis
3. Water Conservation and Efficiency Measures
4. Sustainable Agriculture Strategies
5. Emergency Response and Contingency Planning
6. Long-Term Water Resource Planning
 - Final recommendations should come from the Regionalization team.
7. Public Awareness and Community Engagement
 - Final recommendations should come from the Public Engagement team.

Feedback to the DRWPP

- Can we work together on PR for the DRWPP?
 - What are we doing? Why are we doing this? Why is this important to Gov. Lee?
- Can the DRWPP develop an overarching goal and vision?
 - What do we want a future state of the Duck River and surrounding communities to look like?
 - We need a vision and line of sight to determine the direction of where we are heading.
- Who is responsible for recommendations on an interim plan before the HCP can be developed?
- Needs for members to be more productive with discussions:
 - History of the Duck River
 - Hear from Stakeholders
 - Compile all the ongoing initiatives
 - Compile all the previous studies
