Within the History dashboard, you will see a historical list of all form submissions that were created and/or submitted through the portal. 2.2 Actions with the History Dashboard

The History Dashboard contains 7 different headers that you can use to refine and sort your forms. By clicking on one of the headers, for example on created, you can sort the forms by the date on which they were created. Additionally, under the “Actions” column, you will find the available actions for each form. The magnifying glass icon allows you to view the summary of the form. If the form is still in the draft stage or an administrator has requested changes, then the pencil icon will be present to allow you to edit the form. The garbage can icon will prompt you to remove the form.
