

How to Search for DMR Data on EPA ECHO

Overview of EPA's Enforcement and Compliance History Online (ECHO)

Public records for National Pollutant Discharge Elimination System (NPDES) permits are available on EPA's public-facing Enforcement and Compliance History Online (ECHO) website at [ECHO.epa.gov](https://echo.epa.gov).

ECHO is populated with data from Discharge Monitoring Reports (DMRs) submitted by NPDES permit holders in EPA's NetDMR website, in addition to compliance and enforcement information reported by regulatory agencies in EPA's internal Integrated Compliance Information System (ICIS).

Keep in mind that this search only allows you to search for DMR data from the last 5 years.

To search for DMR data older than 5 years, use the [NPDES Monitoring Data Download](#) tool. To search for only DMR violations and exceedances, use the [DMR Exceedances Search](#) tool.

6. The DMR data will automatically download in a .csv format. To view the DMR data, open the file using Microsoft Excel, Google Sheets, or another spreadsheet program.
