Basic Math for All Certifications
Course #1014 or 1014-V

Who should attend?
This course is intended for water treatment and wastewater treatment personnel as well as those working in collection or distribution systems.

There is no prerequisite for the course. However, there is a diagnostic test available. If you are unsure whether this class would benefit you please take the diagnostic test. If you are unable to score a grade of 70 or higher, we recommend attending the Basic Math course.

Course Description
The course is a review of arithmetical skills and includes some basic algebra and geometry.

Topics include:
- Fractions, Decimals, Percent
- Ratio and Proportion
- Conversions and Dimensional Analysis
- Solving for the Unknown
- Area, Volume, and Flow

Course Materials
Please bring a scientific calculator, scratch paper, highlighter, and pens or pencils to class.

If attending at the Training Center, the class booklet will be provided at the beginning of class.

For virtual attendance, a camera and microphone are required. If attending the class virtually, the class booklet will be emailed to you prior to the class start date.

For a complete list of exam reference textbooks, please visit our website.

Course Length
The course is four (4) class days.

Experience Credit
Three (3) months toward any certification. (except BNS and SWS)

Continuing Education
Approved for six (6) hours of CE credit for certified Grade 1 & 2 Water Treatment, Wastewater Treatment, Distribution, Collection, BNS and SWS operators. Approved for twelve (12) hours of CE credit for certified Grade 3 & 4 Water or Wastewater Treatment Operators;

Fees:
$300.00 for class
