Wastewater Treatment Lab
Week 1
Course #2212

Course Description
This is an “hands-on” course that combines laboratory and classroom instruction. The student will learn proper sampling techniques and to perform wastewater treatment plant tests. The class also instructs the student in lab recordkeeping and the calibration and maintenance of laboratory equipment.

Topics include:
- QA/QC
- pH and Suspended Solids Analysis
- Dissolved Oxygen and B.O.D.
- E. coli

Course Materials
Please bring a scientific calculator, scratch paper, highlighter, and pens or pencils to class. The class booklet will be provided at the beginning of class.

For a complete list of exam reference textbooks, please visit our [website](#).

Please wear proper attire when working in the laboratory. Refrain from wearing shorts, sandals, or open-toed shoes.

Course Length
The class is five (5) days.

Experience Credit
Three (3) months for Grade 1, 2, or 3 and five (5) months for Grade 4 Wastewater Treatment Operator applicants.

Continuing Education
Approved for six (6) hours of CE credit for Grade 1 & 2 wastewater treatment operators and up to twelve (12) hours of continuing education credit for Grade 3 & 4 certified wastewater treatment operators.

Fees:
$325.00 for class
