Course #206

# Wastewater Treatment Review

This course is designed to prepare the operator for the certification exam and provide a test experience in a controlled environment that will allow the students to overcome test anxiety. Each day will begin with an exam of 100+ questions covering various wastewater topics and each afternoon will consist of reviewing that material.

It is intended for individuals who are currently working toward obtaining a certification in wastewater treatment. **There is a prerequisite of attending an Introduction to Wastewater Treatment class.**

## General Topics

- ▶ Wastewater Characteristics
- ▶ Preliminary + Primary Treatment
- ▶ Ponds, Fixed-Film, Activated Sludge
- ▶ Nutrient Removal
- ▶ Disinfection
- ▶ Solids Treatment
- ▶ Troubleshooting
