

**Drinking Water State Revolving Fund  
2025 Emerging Contaminants Priority Ranking List**

**Total DWSRF Requested \$ 107,986,000**  
**Estimated FY25 Requests from Disadvantaged Communities \$ 10,986,000**

\* Disadvantaged Communities: Communities with an ATPI of 0-50 are considered a Disadvantaged Community and eligible for Principal Forgiveness.

\*\* ATPI is the SRF's Ability To Pay Index (ATPI). The index scores entities on their economic health and financial stability.

+ Includes 5 points for having an approved Growth Plan

**2025 RANKED PROJECTS**

1	115	2025-13426	50	258	TN0000138	Cherokee Hills Utility District*	Polk	New Water Treatment Plant (Construction of a new water treatment facility to treat source water for all bacteria, viruses, biological contaminants, Iron, Manganese, Sulfates, Hardness, and Polyfluoroalkyl Substances (PFAS) removal.)	\$ 986,000	30	Jan-26	May-26	Jun-26
2	80	2025-13102	30	7,388	TN0000546	First Utility District of Hardin County*	Hardin	Water Treatment Plant Improvements (Installation of a continuous ultrafiltration system to remove Per- and Polyfluoroalkyl Substances (PFAS) and perfluorooctane sulfonic acid (PFOS) to include the construction of a solids contact tank, installation of two filter modules, an air compressor, accumulator tank, chemical feed system, a sludge dewatering system, and piping.)	\$ 10,000,000	30	Jan-26	Sep-26	Sep-27
3	80	2025-13098	70	60,669	TN0000393	Lebanon	Wilson	Water Treatment Plant Expansion (Expansion of the existing WTP from 12 MGD to 20 MGD with the addition of membrane filtration and Granular Activated Carbon (GAC) systems to remove Polyfluoroalkyl Substances (PFAS) and civil, structural, mechanical, and electrical upgrades.)	\$ 85,000,000	30	Jan-26	Apr-26	Oct-28
4	75	2025-1316	60	21,082	TN0000525	Ocoee Utility District	Bradley and Polk	Water Treatment Plant (WTP) Expansion (Expansion of the Wildwood WTP from 1 MGD to 2 MGD to include the Incorporation of an advanced treatment process for the removal of Per- and Polyfluoroalkyl Substances (PFAS) and perfluorooctane sulfonic acid (PFOS) using Granular Activated Carbon (GAC) or the Ceramic Membrane Technology; the installation of high service and backwash pumps, piping; electrical and instrumentation upgrades; and automation.)	\$ 12,000,000	30	Jan-26	Dec-26	Jun-28

**Totals: \$ 107,986,000**
