TDEC will receive public comments concerning the proposed permitting actions described below:

Applicant Name: General NPDES Permit for Discharges of Stormwater Runoff and Process Wastewater Associated with Ready Mixed Concrete Facilities  
Permit Number: TNG110000  
Permit Writer: Vojin Janjic  
Permit Rating: Major
Facilities considered are ready mix concrete plants located in the State of Tennessee which discharge either stormwater runoff or process wastewater, or both, to the waters of the State. These facilities mix concrete onsite from its constituents, also located on the facility site, for use at job sites located elsewhere. These constituents include cement, stone, various sands, and may include a variety of chemical additives which manipulate the physical properties of the concrete.

Vehicle cleaning and washing procedures result in the discharge of process wastewater from the site to the waters of the State. Stormwater runoff is also discharged from the ready mix concrete facility sites.

The hearing moderator may limit the length of oral comments to allow all parties an opportunity to speak and will require that all comments be relevant to the proposed permit action. Written comments will be accepted at the hearing and through October 30, 2022. Written comments for TNG110000 can be emailed to water.permits@tn.gov. After the comment period has closed, TDEC will consider the comments and make a final determination of whether to issue the permits.

Interested persons may obtain a copy of the draft permit, rationale, forms, and related documents on TDEC’s Water Resources Permits data viewer. For additional information contact Mr. Vojin Janjic at (615) 532-0670 or by email at Vojin.Janjic@tn.gov. The address to obtain permit documents is 312 Rosa L. Parks Ave., 11nd Floor, Nashville, TN 37243.
