## Tennessee Department of Environment and Conservation Division of Water Resources

### Notice Requesting Public Comments on Draft Permit Actions

### File # NRS24.060

The purpose of this notice is to advise the public of the following proposed permit action and solicit comments and information necessary to evaluate the potential impact of the proposed activities on the aquatic environment.

Pursuant to The Tennessee Water Quality Control Act of 1977, T.C.A. §69-3-108 and Tennessee Rules, Chapter 0400-40-07, the proposed activity described below has been submitted for approval under an Aquatic Resource Alteration Permit and Section 401 Water Quality Certification. Section 401 of the Clean Water Act requires that an applicant obtain a water quality certification from the state when a federal permit is required. This notice is intended to inform interested parties of this permit application and draft permit and rationale, and to ask for comments and information necessary to determine possible impacts to water quality. At the conclusion of the public notice period a final determination will be made whether to issue or deny the permit.

**APPLICANT**  
Harpeth Valley Utilities District  
5838 River Road  
Nashville, Tennessee 37209  
615-352-7076

#### **PROJECT DESCRIPTION / PURPOSE**

The Harpeth Valley Utilities District proposes withdrawal of up to 82 million gallons of water per day from the Cumberland River/Cheatham Reservoir. The purpose of the work is for public water supply.

#### **LOCATION**

Cumberland River, Davidson County near river mile 172.

Pursuant to T.C.A. § 10-7-504 and Rule 0400-01-01(4)(c)2, the location is confidential. Therefore, the locations of intake sites will not be disclosed in this permit or otherwise made available to the public.

To view the proposed location of these impacts and the watershed condition, visit the Division's map viewer at <http://tdeconline.tn.gov/dwr/> and search on the permit number or coordinates listed in this Public Notice.

#### **ANTIDegradation**

The affected waters have available parameters for water withdrawal. The affected waters are designated as Exceptional Tennessee Waters. The basis for inclusion is presence of the state endangered lake sturgeon (*Acipenser fulvescens*) and state threatened blue sucker (*Cyprinus elongatus*).

As described in the accompanying permit rationale, the Department has made a preliminary determination that the proposed activity will result in de minimis degradation.

## **FACTORS CONSIDERED**

In deciding whether to issue or deny this permit, the Division will consider all comments of record and the requirements of applicable federal and state laws. The division will consider the nature, scale and effects of proposed impacts. The Division will consider practicable alternatives to the alteration, loss of waters or habitat, diminishment in biological diversity, cumulative or secondary impacts to the water resource, and adverse impacts to unique, high quality, or impaired waters.

In making this decision, a final determination will be made evaluating appreciable permanent loss of resource values and proposed compensatory mitigation to ensure the project will not result in no overall net loss of state water resources values.

## **HOW TO COMMENT**

TDEC is requesting public comment on this proposed permit action. Obtaining a broad range of facts and opinions on Agency actions is one of the best ways to ensure appropriate decisions. Persons wishing to comment on the proposal are invited to submit written comments to the Division. Written comments must be received within **thirty days following distribution of the approved public notice materials** (including signage and newspaper ad). Comments will become part of the record and will be considered in the final decision. The applicant's name and permit number should be referenced. Send all written comments to the Division's address listed below to the attention of the permit coordinator. You may also comment via email to [water.permits@tn.gov](mailto:water.permits@tn.gov).

## **PUBLIC HEARING**

Interested persons may request in writing that the Division hold a public hearing on this application. The request must be received by the Division within the comment period, indicate the interest of the party requesting it, the reason(s) a hearing is warranted, and the water quality issues being raised. When there is sufficient public interest in water quality issues, the Division will hold a public hearing in accordance with 0400-40-07-.04(4) (f). Send all public hearing requests to the attention of the permit coordinator at the address listed below or via email to [water.permits@tn.gov](mailto:water.permits@tn.gov). Any scheduled public hearings will be advertised through a similar public notice process.

After the Division makes a final permit determination, a permit appeal may be filed by the applicant or by any person who participated in the public comment period whose appeal is based on comments given to the Division in writing during the public comment period or in testimony at a formal public hearing. If it is hard for you to read, speak, or understand English, TDEC may be able to provide translation or interpretation services free of charge. Please contact Alisha Looper at 615-571-4470 or [alisha.looper@tn.gov](mailto:alisha.looper@tn.gov).

Si le resulta difícil leer, hablar o comprender inglés, TDEC puede proporcionarle servicios de traducción o interpretación sin cargo comunicándose con Alisha Looper al 615-571-4470 o [alisha.looper@tn.gov](mailto:alisha.looper@tn.gov).
