NOTICE OF INDIVIDUAL PERMIT DECISIONS

August 8, 2025

NOTICE OF INDIVIDUAL PERMIT DECISIONS

This serves as notice of the division's decisions on Aquatic Resource Alteration Permit or §401 Water Quality Certification applications previously posted for public comment. Publication of this notice serves as commencement of the thirty-day period for appeal by third parties pursuant to TCA 69-3-105(i). All documents pertaining to the Aquatic Resource Alteration Permit (ARAP) can be viewed on the TDEC website at [Report on Permits \(tn.gov\)](https://www.tn.gov/reports/permits)

NRS25.051	Applicant:	Tennessee Department of Transportation (TDOT)		
	Activity:	Tennessee Department of Transportation (TDOT) proposed unavoidable permanent impacts to 60 linear feet of Indian Creek by hard armoring of bed and bank with Class C rip rap associated with scour and infrastructure protection.		
	County:	Hickman		
	Resource:	Indian Creek		
	Action:	Issued	Date of Action:	06-AUG-25

NRS25.078	Applicant:	John Compton		
	Activity:	John Compton proposed dredging approximately 635 cubic yards (by barge), 350 cubic yards will be channel excavation, and 285 cubic yards will be landward excavation within the Tennessee River in Knoxville, Knox County, TN.		
	County:	Knox		
	Resource:	Fort Loudoun Reservoir		
	Action:	Issued	Date of Action:	04-AUG-25

NRS25.111	Applicant:	Madison County Highway Department		
	Activity:	Madison County Highway Department proposed the replacement of 48 culverted crossings throughout the county. Impacts occur in the North Fork Forked Deer River, South Fork Forked Deer River, and Lower Hatchie River Watersheds		
	County:	Madison		
	Resource:	Multiple unnamed streams		
	Action:	Issued	Date of Action:	06-AUG-25

NRS25.148

Applicant: Tennessee Department of Transportation (TDOT)
Activity: Tennessee Department of Transportation (TDOT) proposed emergency replacement of two existing damaged timber bridges along Forked Deer Road/State Route 180 over Lost Creek and the Overflow to Lost Creek with two single span bridges to meet current design standards. The project requires permanent impacts to 83 feet of an unnamed tributary of the Overflow of Lost Creek (STR-1 – relocation/fill). The construction will include the removal of the existing 3-span timber bridge over the Overflow of Lost Creek (STR-2) for a single span 36” box beam bridge 29.25 feet in length over the stream. The project will also include the removal of the existing 5-span timber bridge over Lost Creek (STR-1) for a single span 54” bulb-tee beam bridge 29.25 feet in length. Additionally, the construction of the project will permanently impact 0.07 acres of WTL-1 and temporarily impact 0.14 acres of WTL-1. Stream mitigation will be provided thru the purchase of 85.5 functional feet credits from Jack’s Creek Stream Mitigation Bank

County: Haywood
Resource: Lost Creek and Overflow
Action: Issued Date of Action: 04-AUG-25
