

Public Notice
Tennessee Department of Environment and Conservation (TDEC)
Division of Water Resources (DWR)
Notice Requesting Public Comments on Draft Permit Actions

File # NRS26.067

The purpose of this notice is to advise the public of the following proposed permit action and solicit comments and information necessary to evaluate the potential impact of the proposed activities on the aquatic environment.

Pursuant to The Tennessee Water Quality Control Act of 1977, T.C.A. §69-3-108 and Tennessee Rules, Chapter 0400-40-07, the proposed activity described below has been submitted for approval under an Aquatic Resource Alteration Permit and Section 401 Water Quality Certification. Section 401 of the Clean Water Act requires that an applicant obtain a water quality certification from the state when a federal permit is required. This notice is intended to inform interested parties of this permit application and draft permit and rationale, and to ask for comments and information necessary to determine possible impacts to water quality. At the conclusion of the public notice period a final determination will be made whether to issue or deny the permit.

Applicant Tennessee Department of Transportation (TDOT)
312 Rose L. Parks Avenue, 14th Floor
Nashville, TN 37243
Ph: 615-253-0021

Location
SR 4 from Raines Road/Perkins Road Interchange to SR-176 (Getwell Rd)/Memphis/Shelby County
Tenmile Creek and tributaries

Latitude: 35.048225, Longitude: -89.921763
Ecoregion 74b, impacts in Nonconnah Creek watershed

To view the proposed location of these impacts and the watershed condition, visit the [Division's Mapviewer](#) and search on the permit number or coordinates listed in this Public Notice.

Project Description / Purpose

Tennessee Department of Transportation proposes permanent impacts to 368 linear feet of Tenmile Creek and three of its tributaries, and permanent impacts to 0.46 acres of wetland associated with widening of SR-4 from Perkins/Raines interchange to the 7-lane section north of Getwell Road in Memphis, Shelby County. Stream mitigation for 49.1 functional feet of stream loss will be provided at 1:1 ratio at the Pictsweet-Rossville Farm Mitigation Bank. Impacts to Stream 11 will be mitigated onsite through partial existing pipe removal and relocation. Proposed permanent wetland impacts to be mitigated at the Wolf River Mitigation Bank (0.76 acres).

Antidegradation

The affected waters STR-9, STR-10, STR-11, STR-12 have available parameters for habitat. The affected waters WTL-12 and WTL-13 have unavailable parameters for habitat. As described in the accompanying permit rationale, the Department has made a preliminary determination that the proposed activity for STR-9, STR-10, STR-11, and STR-12 will result in de minimis degradation. As described in the accompanying permit rationale, the Department has made a preliminary determination that the proposed activity for WTL-12 and WTL-13 will result in no signification degradation.

Factors Considered

In deciding whether to issue or deny this permit, the Division will consider all comments of record and the requirements of applicable federal and state laws. The division will consider the nature, scale and effects of proposed impacts. The Division will consider practicable alternatives to the alteration, loss of waters or habitat, diminishment in biological diversity, cumulative or secondary impacts to the water resource, and adverse impacts to unique, high quality, or impaired waters.

How to Comment

TDEC is requesting public comment on this proposed permit action. Obtaining a broad range of facts and opinions on Agency actions is one of the best ways to ensure appropriate decisions. Persons wishing to comment on the proposal are invited to submit written comments to the Division. Written comments must be received within **thirty days following distribution of the approved public notice materials** (including signage and newspaper ad). Comments will become part of the record and will be considered in the final decision. The applicant's name and permit number should be referenced. Send all written comments to the Division's address listed below to the attention of the permit coordinator. You may also comment via email to ARAP.permits@tn.gov.

After the Division makes a final permit determination, a permit appeal may be filed by the applicant or by any person who participated in the public comment period whose appeal is based on comments given to the Division in writing during the public comment period or in testimony at a formal public hearing. If it is hard for you to read, speak, or understand English, TDEC can provide translation or interpretation services free of charge by contacting Brian Canada at 615-979-1406 or Brian.Canada@tn.gov.

Si le resulta difícil leer, hablar o comprender inglés, TDEC puede proporcionarle servicios de traducción o interpretación sin cargo comunicándose con Brian Canada al 615-979-1406 o Brian.Canada@tn.gov.

Public Hearing

Interested persons may request in writing that the Division hold a public hearing on this application. The request must be received by the Division within the comment period, indicate the interest of the party requesting it, the reason(s) a hearing is warranted, and the water quality issues being raised. When there is sufficient public interest in water quality issues, the Division will hold a public hearing in accordance with 0400-40-07-.04(4) (f). Send all public hearing requests to the attention of the permit coordinator at the address listed below or via email to ARAP.permits@tn.gov. Any scheduled public hearings will be advertised through a similar public notice process.

File Review

The permit application, supporting documentation, including detailed plans and maps, draft permit and rationale, and related comments are available for review on the internet at the [Division's Water Resources Permits Dataviewer](#) by entering the permit file number listed in the title of this Public Notice. The file may be viewed and copied at the address listed below.
