**STATE OF TENNESSEE  
DEPARTMENT OF FINANCE AND ADMINISTRATION  
STATE CAPITOL  
NASHVILLE, TENNESSEE 37243-0285**

**DAVE GOETZ  
COMMISSIONER**

December 15, 2003

The Honorable Phil Bredesen  
Governor of the State of Tennessee

I am pleased to submit the Comprehensive Annual Financial Report of the State of Tennessee for the fiscal year ended June 30, 2003. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the State. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the State. All disclosures necessary to enable the reader to gain an understanding of the State's financial activities are included.

In developing and modifying the State's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and that evaluations occur within the above framework. I believe that the State's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The State of Tennessee's MD&A can be found immediately following the report of the independent auditors.

### **PROFILE OF THE GOVERNMENT**

The State of Tennessee was admitted to the union in 1796, as the sixteenth state. Tennessee has 41,219 square miles and a population estimated to be 5.9 million. The State has three branches of government, the Executive, Legislative and Judicial. The Executive branch is headed by the Governor, who appoints commissioners to lead the various departments. The Legislative branch is bicameral, with 99 members of the House of Representatives and 33 Senators. The Representatives serve two-year terms. The Senators serve four-year terms, with about one half being elected every two years. The Judicial branch rules on the constitutionality of laws enacted by the Legislature and the legality of administrative policies and regulations of the Executive branch.

The financial reporting entity of the State includes all the funds of the primary government as well as all its component units. Component units are legally separate entities for which the primary government is financially accountable. The government provides a full range of services including education, health and social services, transportation, law, correction, safety, resources and regulation, and business and economic development.

In addition to internal controls, the State maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annually appropriated budget approved by the Legislature. Activities of the general fund, special revenue funds (except Fraud and Economic Crime, Community Development and the Dairy Promotion Board) and debt service fund are included in the annually appropriated budget. Budgetary control is maintained at the departmental level by the encumbrance of estimated purchase amounts prior to the release of purchase orders to vendors. Purchase orders which result in an overrun of available

balances are not released until budget revisions are approved or additional appropriations are made. Open encumbrances are reported as reservations of fund balance at June 30, 2003.

State statutes require an annual audit of all financial statements of the State. The accompanying financial statements have been examined by the Office of the Comptroller of the Treasury, Division of State Audit. Their examination was conducted in accordance with government auditing standards generally accepted in the United States of America, and their opinion appears elsewhere herein.

In conjunction with this examination, the Division of State Audit conducted an organization-wide audit as described in the Single Audit Act of 1984, as amended, and Office of Management and Budget Circular A-133, Audits of State, Local Governments, and Non-Profit Organizations. The audit included tests of compliance with applicable federal laws and regulations, as well as, a study and evaluation of internal controls, including internal accounting and administrative controls used in administering federal financial assistance programs. The results of this single audit are published under separate cover by the Division of State Audit.

## FACTORS AFFECTING FINANCIAL CONDITION

**Local economy.** The State's economic diversity has improved substantially over the last several years. Investments announced in new and expanding manufacturing businesses exceeded \$1 billion every year since 1983, and exceeded \$3 billion in the last five years. Announced manufacturing capital investments in 2002 were \$3.72 billion. This growth has created 15,443 new jobs in this year alone, and has had a positive effect on employment and the State's economy. Additionally, investments in headquarters, distribution and selected services grew to \$6.3 billion in 2002 and created 26,117 new jobs. For June 2003, the state unemployment rate of 5.6% was under the national average of 6.5%. The financial impact of these events is presented later in this letter. Based on current projections, the State's overall growth is expected to exceed the national average over the next several years. While having a positive impact, this growth also presents significant challenges for the State. If the present level of services is to be maintained and an ambitious program for major improvements in the educational system is to continue to be implemented, the State must continue to conservatively manage its financial resources.

The national recession appears to be ending. As evidence, the real (inflation-adjusted) gross domestic product increased only 2.9 percent during the calendar year 2002 and increased 3.2 percent during the first three quarters of 2003. The Federal Reserve has left interest rates at historic lows.

Tennessee's state government will take appropriate steps to ensure that the State is able to successfully manage its finances in the future.

**Financial planning.** The new Administration took office in January 2003 and produced a State budget that provided a 9 percent reduction in discretionary appropriations from general fund tax sources. Decisions used to develop the reductions followed extraordinary, open hearings during the budget development process and program-by-program review of the budget. Certain programs were held harmless due to their program nature. Some improvements were recommended in critical areas, such as, K-12 education, homeland security, TennCare, child welfare, prisons and employee health insurance. The legislature accepted the plan with few changes and as a result the State's credit rating remained stable at AA.

Only three times in the past 30 years has the appropriation curve flattened in state spending. By the close of the fiscal year 2003, the state had experienced slight revenue growth and the federal government had enacted its essential services act to provide tax relief. As we move into the fiscal year 2004, the State's rainy day fund is intact and revenues are being received above estimates.

The Administration is making significant progress with TennCare, the State's managed care health insurance program that replaced and expanded Medicaid in 1994. TennCare represents 23% of the state's budget and the program's rising costs have absorbed much of our state's revenue growth in recent years. Last year the state negotiated financial flexibility from the federal government reducing the State's TennCare obligations by \$175 million. This year the state has implemented some serious cost cutting measures, the most significant of which is setting up a preferred drug list for TennCare through a single pharmacy benefit manager. This action will save approximately \$150 million annually. The last step – the most critical – will be designing changes to the structure of the program to make it both financially viable and operationally sound long-term. Private-sector donations received by the state funded an outside consultant, McKinsey and Company. It will report to the state whether TennCare is viable in its current form, and if not, what changes are needed.

**Pension and other post-employment benefits.** The State sponsors a cost-sharing multiple employer defined benefit pension plan. Biennially, an independent actuary engaged by the State calculates the contribution rate that the State must make to the pension plan to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. As a matter of policy, the State fully funds each year's annual required contribution to the pension plan as determined by the actuary. As a result of the State's conservative funding policy, as of July 1, 2001, the present value of the projected benefits earned by employees is funded at 99.6%.

The State also provides post-retirement health benefits for employees and retirees. For fiscal year ended June 30, 2003, there was an average of 6,159 retired employees receiving these benefits, which were financed on a pay-as-you-go-basis. Generally Accepted Accounting Principles (GAAP) do not require governments to report a liability in the financial statements in connection with an employer's obligation to provide these benefits.

Additional information on the State's pension arrangement and post-employment benefits can be found in Notes 6E and G in the notes to the financial statements.

**Cash Management.** The State Treasurer has pursued an aggressive cash management and investment program. One aspect of this, which we believe is unique to Tennessee, is our direct access into the Federal Reserve wire system. Through the State Trust of Tennessee, wire services in the federal system are available via a terminal located in the State's investment offices. This provides the State flexibility in investing and concentrating cash balances, pension fund assets, and in redeeming warrants and checks issued against the Treasury. During fiscal year 2003, uncommitted State funds were invested in short-term collateralized deposits as follows (averaged): certificates of deposit (50%); repurchase agreements (4%); commercial paper (20%); U.S. Treasuries (25%); and money market accounts (1%). The composite average yield on these investments was 1.64%, down from 2.67% last year.

**Risk Management.** In 1989, the State initiated a loss prevention program. A loss prevention specialist has been employed to assist the State in analyzing the underlying cause of losses and in recommending measures to minimize the reoccurrence of similar losses. The State purchases commercial insurance for real property, flood, earthquake and builder's risk losses. The insurance policy deductibles vary from \$1 million to \$5 million by type of risk coverage. A fund balance designation of \$3.271 million for incurred losses has been established in the General Fund.

## OTHER INFORMATION

**Securities and Exchange Commission Disclosures.** The State Funding Board, the Tennessee State School Bond Authority, and the Tennessee Local Development Authority have each entered into Continuing Disclosure Undertakings with respect to certain debt issues. These Undertakings were made for the benefit of the holders of the debt pursuant to U.S. Securities and Exchange Commission Rule 15c2-12. The issuers have covenanted to provide certain annual financial information, including audited financial statements, as well as, certain additional financial and operating data. With the exceptions of information related to Tennessee Consolidated Retirement System and of certain local government financial information related to the Tennessee Local Development Authority provided to the Nationally Recognized Municipal Securities Information Repositories (NRMSIRs) under separate cover, financial and operating data required pursuant to the Undertakings is located in this Comprehensive Annual Financial Report. The reader should use the index located at the end of this report to identify the specific page where the information is presented.

**Awards.** The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State of Tennessee for its Comprehensive Annual Financial Report for the year ended June 30, 2002. This is the twenty-fourth consecutive year that the State has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the Tennessee Consolidated Retirement System has received this award for fifteen consecutive years for its Comprehensive Annual Financial Report.

**Acknowledgments.** The preparation of the comprehensive annual financial report was made possible by the dedication of the entire staff of the Division of Accounts in the Department of Finance and Administration. This report could not have been prepared without the cooperation of all state agencies and branches.

Respectfully submitted,

/s/ M. D. Goetz, Jr.

M. D. Goetz, Jr., Commissioner  
Department of Finance and Administration

**Independent Auditor's Report**

December 15, 2003

The Honorable John G. Morgan  
Comptroller of the Treasury  
State Capitol  
Nashville, Tennessee 37243

Dear Mr. Morgan:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Tennessee as of and for the year ended June 30, 2003, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State of Tennessee's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Tennessee as of June 30, 2003, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 4 to the financial statements, the Tennessee Consolidated Retirement System changed its method of reporting certain derivatives.

The management's discussion and analysis, infrastructure assets reported using the modified approach, and the schedule of revenues, expenditures and changes in fund balances – budget and actual are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Tennessee's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical and economic data are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory section and statistical and economic data have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with *Government Auditing Standards*, we will issue our report dated December 15, 2003, on our consideration of the State of Tennessee's internal control over financial reporting and on our tests of its compliance with laws, regulations, contracts, and grants in the *Tennessee Single Audit Report*. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of the audit.

Sincerely,

/s/ Arthur A. Hayes, Jr.

Arthur A. Hayes, Jr., CPA, Director  
Division of State Audit

AAH/jmc

## MANAGEMENT'S DISCUSSION AND ANALYSIS

Our management discussion and analysis (MD&A) of the State of Tennessee's (the State's) financial performance provides an overview of the State's financial activities for the year ended June 30, 2003. Please read it as a narrative introduction to the financial statements that follow. The information included here should be considered along with the transmittal letter which can be found on pages I-IV of this report. MD&A includes a description of the basic financial statements for government, condensed financial information along with analyses of balances and financial position, descriptions of significant asset and debt activity, discussions of budgetary matters and significant issues affecting financial position.

### FINANCIAL HIGHLIGHTS

#### €# Government-wide:

Net Assets - The assets of the State exceeded its liabilities at June 30, 2003, by \$20.278 billion (reported as net assets). Of this amount, \$262.9 million may be used to meet the State's obligations not funded by restricted net assets. However, \$18.130 billion of this amount represents *invested in capital assets, net of related debt*, which cannot be used to fund ongoing activities of the government.

Changes in Net Assets - The State's net assets increased by \$814.7 million. Most of this increase results from the State's decision to utilize the modified approach for reporting infrastructure capital assets. Because of this decision, the State capitalized infrastructure expenditures of \$675.1 million and did not record depreciation expense. Other capital assets are depreciated.

Component units - Component units reported net assets of \$3.27 billion, an increase of \$181.4 million.

#### €# Fund Level:

At June 30, 2003, the State's governmental funds reported combined ending fund balances of \$1.6 billion, an increase of \$104 million (see discussion on page 10) in comparison to the prior year. Of the combined fund balance approximately \$202.7 million is available for spending at management's discretion (unreserved fund balance), however \$178 million of this amount is designated for revenue fluctuations.

#### €# Long-Term Debt:

The State's total debt increased by \$.9 million during the fiscal year to total \$1.26 billion. This increase is the difference between commercial paper draws for short-term financing and commercial paper and bond principal payments, i.e., commercial paper draws slightly exceeded bond principal payments. This minute change reflects the continuing tight budgetary situation faced by the State in which capital projects have not been authorized in the legislative process.

### USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities (on pages 17 and 18-19) provide information about the activities of the State as a whole (government-wide statements) and present a longer-term view of the State's finances. Fund financial statements start on page 22. For governmental activities, these statements tell how services were financed in the short term as well as what remains for future spending. Fund financial statements also report the State's operations in more detail than the government-wide statements by providing information about the State's most significant funds. The remaining statements provide financial information about activities for which the State acts solely as a trustee or agent for the benefit of those outside of the government.

## Reporting the State as a Whole

### *The Statement of Net Assets and the Statement of Activities*

Our analysis of the State as a whole begins on page 7. One of the most important questions asked about the State's finances is, "Is the State as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about the State as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These statements report financial information about the entire government except fiduciary activities. The statements distinguish between the primary government and its component units, and also distinguish between governmental activities and business-type activities of the primary government. The Statement of Net Assets displays all the State's financial and capital resources in the format of assets minus liabilities equal net assets. The Statement of Activities reports the State's operations by function to arrive at net revenue (expense). The statement reports what type revenue (either program revenue or tax revenue) funds the government operations. The State functions that are identified on this statement correspond to the functions used for budgetary purposes:

- €# Governmental activities—general government; education; health and social services; law, justice and public safety; recreation and resources development; regulation of business and professions; transportation; state shared taxes paid to local governments; and interest on long-term debt.
- €# Business-type activities—employment security, insurance programs, loan programs and other.
- €# Component units—significant component units include the Tennessee Board of Regents, the University of Tennessee and the Tennessee Housing Development Agency. Although these and other smaller entities are legally separate, these "component units" are important because the State is financially accountable for them.

## Reporting the State's Most Significant Funds

### *Fund financial statements*

Our analysis of the State's major funds begins on page 10. The fund financial statements begin on page 22 and provide detailed information about the most significant funds—not the State as a whole. Some funds are required to be established by State law and by bond covenants. However, the State establishes many other funds to help it control and manage money for particular purposes (like capital projects) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money. The State's two kinds of funds—governmental and proprietary—use different accounting approaches.

Governmental funds focus on the near-term inflows and outflows of funds and the balances left at year-end available for spending. The *modified accrual basis of accounting* is used for these funds, which means that we measure cash and all other financial assets that can readily be converted to cash. These statements provide a short-term view of the State's basic general government operations. One can determine whether there are more or fewer financial resources that can be spent in the near future. The governmental activities in the Statement of Net Assets are reconciled to the governmental funds in the fund financial statements in a reconciliation at the bottom of the fund financial statements.

Proprietary funds report the government services that charge service fees to its customers. Proprietary funds include enterprise funds (serving citizens) and internal service funds (serving state agencies). The enterprise funds are the same as the business-type activities reported in the government-wide statements, but provide more detail; whereas the internal service funds are included in the governmental activities.

**Notes to the financial statements.** Notes to the financial statements are also included and provide necessary information to understand the financial statements. They are an integral part of the financial statements and focus on the primary government and its activities. Some information is provided for significant component units.

## The State as Trustee

### *Reporting the State's Fiduciary Responsibility*

Fiduciary funds are used to report resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the State cannot use these assets to finance its operations. Instead, the State is responsible for using the fiduciary assets for the fiduciary fund's intended purposes.

## THE STATE AS A WHOLE

### *Government-wide Financial Analysis*

Net assets may serve over time as a useful indicator of a government's financial position. In the case of the State, combined assets exceeded liabilities by \$20.278 billion as of June 30, 2003.

By far the largest portion of the State's net assets (89%) reflects its investment in capital assets (e.g., land, infrastructure, structures and improvements, machinery and equipment), less any related debt used to acquire those assets that is still outstanding. The State uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the State's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the State's net assets (9.0 percent) is restricted and represents resources that are subject to either external restrictions or legislative restrictions on how they may be used. The remaining balance is unrestricted net assets (\$262.879 million) and may be used to meet the State's ongoing obligations to citizens and creditors not funded by resources that are restricted.

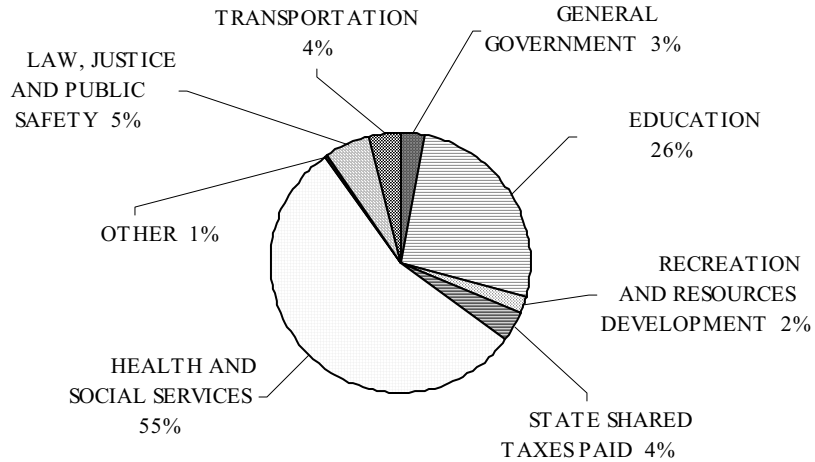

At the end of the current fiscal year, the State was able to report positive balances in all three categories of net assets, for the government as a whole, and for its separate governmental and business-type activities.

The State's net assets increased by \$814.7 million during the year ended June 30, 2003. As previously discussed most of this increase was attributable to the State's decision to adopt the modified approach to infrastructure. Because of this decision, the State capitalized \$675.1 million in infrastructure expenditures and did not record depreciation expense. Also, Tennessee does not fund highway construction by issuing debt, but it is funded primarily with fuel taxes and federal grants in the Highway Fund. Most of the remaining gain of \$139.6 million resulted from operations in the General Fund, which is discussed later in this MD&A.

**EXPENSES BY FUNCTION - GOVERNMENTAL ACTIVITIES**

**REVENUES BY SOURCE - GOVERNMENTAL ACTIVITIES**

Net assets of the State's business-type activities decreased by \$38.263 million. This decrease was mainly caused by a \$100.1 million decrease in the Employment Security Fund, which resulted from the payment of additional unemployment claims necessitated by the downturn in the national economy.

## THE STATE'S FUNDS

Tax collections increased for the year and expenditures increased as well. Details are in this section. The Revenue Fluctuation reserve did not have to be used and remains intact at \$178 million or 1.4% of General Fund expenditures. Tobacco settlement funds totaling \$179.1 million were collected in fiscal year 2003 and were used to fund the current budget. \$96.7 million was received from the federal government in fiscal year 2003 as a result of the Jobs and Growth Tax Relief Reconciliation Act of 2003. These funds were given to states to help fund budgetary deficits. The funds can be used to fund virtually any operating expense of state government. \$53.8 million was used to fund current year expenditures. The remaining \$42.9 million will be held in reserve for future expenditures.

General Fund revenue collections increased for the year by \$1.7 billion. Sales tax collections increased by \$757.549 million due to an increase in the sales tax rate effective July 15, 2002. Franchise and excise tax collections were up 13% due to the recovering economy along with a rate increase that was effective during fiscal year 2003. Hall income tax collections were down by 40%, which was attributable to significantly decreased interest rates paid to individuals. The State's interest income was approximately a third of what it was in 2002 due to low interest rates. The State experienced an increase of \$840 million in federal revenue due to (1) an increase in expenditures within the TennCare program and (2) an increase in the federal participation under the Federal Medical Assistance Percentages (FMAP). The FMAP was calculated pursuant to Title IV of the Jobs and Growth Tax Relief Act of 2003 and is effective only from April 1, 2003 through June 30, 2004. The overall result of these variations showed an increase in total revenues collected from the previous year of 15.5%.

General Fund expenditures increased approximately \$1.1 billion or 10%. \$757 million of this increase was due to increased expenditures in the TennCare program resulting from increased pharmaceutical costs, increased managed care organization (MCO) costs, and supplemental provider payments. TennCare assumed financial risk for MCO medical costs on July 1, 2002. This payment method, known as the "Stabilization Plan", is intended to provide financial stability to the MCO's.

In addition, Human Services experienced increased expenditures of \$201 million. This increase was due primarily to the increase in food stamp coupons distributed to citizens of approximately \$140 million. In addition, expenditures in the Temporary Assistance for Needy Families (TANF) program increased by \$11.2 million due to increased caseloads resulting in additional cash assistance. Other TANF related services such as transportation and childcare increased by \$38.5 million.

Mental Health and Mental Retardation expenditures increased by \$62 million. Almost \$11 million of this increase was due to increased census at the regional mental health institutes. Community services for the mentally retarded increased \$49.2 million. This increase reflects the rising cost of community residential placements and associated medical costs as well as increased demand for services.

State shared tax payments decreased by \$55.6 million in the General Fund. This decrease in payments was due to lower tax collections for local governments primarily in the area of the income tax. Income tax collections were down due to economic factors.

Current assets in the General Fund increased 33% due to a \$136 million increase in the tax accrual as well as an increase of \$428.2 million in accounts receivable from the federal government. The tax accrual increased due to the increased sales tax rate effective July 15, 2002, as well as increased estimates for other taxes. The federal receivable increased due to increased reimbursement rates in TennCare and increased Mental Retardation receivables in the area of community services for the mentally retarded. Further details on the increased spending in these programs are outlined above.

Current liabilities in the general fund increased 50% due to an increase in TennCare liabilities. These liabilities primarily consist of outstanding provider payments to managed care organizations (MCO). Prior to July 1, 2002, the MCO's were paid at the beginning of each month for coverage for that month. Effective July 1, 2002, the MCO's are paid weekly. In addition, there were other factors discussed with the TennCare expenditures above.

The total plan net assets of the pension trust funds were \$23.8 billion, up over \$796 million from the prior year. As a result of the improved performance of the financial markets, the pension trust funds incurred a net investment gain of \$1.112 billion.

The Education Fund expenditures increased approximately \$213.8 million or 5.1%. Most of this increase was to maintain full funding of the Basic Education Program formula and to provide salary increases for teachers (\$96 million). In addition, expenditures increased due to the State implementing the No Child Left Behind Act (\$34 million) and increased funding for special education programs (\$29 million).

The Highway Fund expenditures increased approximately \$56.6 million or 3.6%. The majority of the increase was in the area of bridge maintenance and preservation.

Premium increases and changes in benefit levels went into effect on January 1, 2003, for the Employee Group Insurance Fund (an Internal Service Fund) and the Teacher Group Insurance and Local Government Group Insurance Funds (Enterprise Funds) in an attempt to reduce the fund equity deficits in each of the funds at the beginning of fiscal year 2003. While these changes have eliminated the deficits in the Employee and Teacher Group Insurance Funds at June 30, 2003, the Local Government Group Insurance Fund remains in a deficit situation. Additional premium increases and changes in benefit levels will go into effect January 1, 2004, in anticipation of rising medical and insurance costs and to address the remaining deficit in the Local Government Group Insurance Fund.

Since 1985 through fiscal year 2003, the Claims Award Fund (an Internal Service Fund) has been used to account for the risk of losses from general liability, automobile liability, professional malpractice, and workers' compensation. Financial activities relating to the state's property insurance program have been accounted for in the General Fund. Effective July 1, 2003, the property insurance program and the Claims Award Fund activities have been consolidated into an Internal Service Fund called the Risk Management Fund. This was done to obtain a consolidated picture of the State's overall risk management activities and provide operational efficiencies.

**General Fund Budgetary Highlights**

Federal revenue estimates from original to final budget increased by \$1.164 billion primarily due to an increase in federal TennCare participation. In addition, significant variances between original and final budget were noted for TennCare and for Human Services. The TennCare program experienced an increase in funding from original to final budget in the amount of \$1.152 billion. This was the result of significant increases in various costs within the program, as discussed on the previous page. The Department of Human Services experienced an increase in funding from original to final budget in the amount of \$195 million due to increased federal funding in the food stamps program, as well as increased costs for the Temporary Assistance for Needy Families program because of rising case loads.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital Assets**

The State's investment in capital assets at June 30, 2003 of \$18.654 billion, net of \$947 million accumulated depreciation, consisted of the following:

Capital Assets—Primary Government  
Governmental Activities  
(Expressed in Thousands)

	<u>June 30, 2003</u>	<u>June 30, 2002</u>
Land	\$ 838,035	\$ 684,702
Infrastructure	15,463,371	13,734,930
Construction in progress	1,132,374	2,365,316
Structures and improvements	1,666,665	1,637,956
Machinery and equipment	<u>500,442</u>	<u>478,208</u>
Subtotal	19,600,887	18,901,112
Accumulated depreciation	<u>(947,138)</u>	<u>(887,856)</u>
Total	<u>\$ 18,653,749</u>	<u>\$ 18,013,256</u>

Capital assets, including those under construction, increased from fiscal year 2002 to 2003 by approximately 3 percent. The change was primarily due to purchases of land for highway right-of-ways and completion of segments of infrastructure — highways and bridges. Construction in progress for highways and bridges increased by \$535.007 million and decreased (projects completed and capitalized) by \$1.771 billion. Infrastructure right-of-way acreage increased the land classification by \$139.350 million. The structures and improvements increase of \$28.709 million consisted largely of prison renovations (\$1.52 million), completion of the fire training academy (\$23.3 million), construction of the Tennessee Wildlife Resources Agency's hunter education facility (\$.6 million), state parks additions and improvements (\$.33 million), mental health facility improvements (\$.4 million), armory additions (\$.312 million), and other small miscellaneous projects. The net change in machinery and equipment of \$22.234 million resulted primarily from replacing aged equipment.

In accordance with GASB 34, the State is eligible for and has adopted an alternative approach to depreciating its roadways and bridges. Under the *modified approach*, governments are permitted to expense the cost of preserving roadways and

bridges rather than to record a periodic charge for depreciation expense. Under the depreciation method, preservation expenses are capitalized. The State is responsible for approximately 14,000 miles of roadway and 8,030 bridges.

The decision to use the modified approach was essentially made because the State has consistently maintained its infrastructure in what it considers to be a good condition. The most recent condition assessment, which is discussed in more detail in the Required Supplementary Information section (Page 87), indicated that bridges were rated at almost 5 points above the State’s established condition level and roadways were almost 16 points above the State’s benchmark level. Bridges are assessed biennially and roadways annually.

The State’s capital outlay budget for the 2002-2003 fiscal year mirrors that of the past few years. Since very few new projects have been approved, the capital outlay budget consists of expenditures for maintenance of existing facilities (state and higher education institutions), projects funded by the Federal Government, and statutory requirements for prisons’ physical plant maintenance and additions.

**Debt Administration**

In accordance with the Constitution, the State has the authority to issue general obligation debt that is backed by the full faith and credit of the State. The Legislature authorizes a certain amount of debt each year and the State Funding Board has oversight responsibility to issue the debt for capital projects. Capital spending is also authorized by the Legislature and the State Building Commission has oversight responsibility for all capital projects exceeding \$100 thousand (for new construction) and maintenance to existing facilities. The State issues Commercial Paper as a short-term financing mechanism for capital purposes and the Commercial Paper is typically redeemed with long-term bonds. The unissued balance by function (expressed in thousands) follows:

<u>Purpose</u>	<u>Unissued June 30, 2003</u>
Highway	\$ 715,500
Higher Education	16,043
Environment and Conservation	18,077
General Government	558,575
Local Development Authority	19,300
Other	<u>41</u>
Total	<u>\$ 1,327,536</u>

More detail of the activity during the fiscal year is presented in Note 5I to the financial statements.

The State’s outstanding general obligation debt consists of the following (expressed in thousands):

	<u>Governmental Activities</u>		<u>Business-Type Activities</u>	
	<u>June 30, 2003</u>	<u>June 30, 2002</u>	<u>June 30, 2003</u>	<u>June 30, 2002</u>
Bonds, net	\$ 1,047,531	\$ 1,134,881	\$ 11,070	\$ 13,924
Commercial Paper	<u>201,800</u>	<u>110,700</u>	<u>          </u>	<u>          </u>
Total	<u>\$ 1,249,331</u>	<u>\$ 1,245,581</u>	<u>\$ 11,070</u>	<u>\$ 13,924</u>

The State did not issue bonds during the fiscal year; however, taxable and tax-exempt bonds were issued in the first quarter of the new fiscal year primarily to redeem commercial paper. More than half of the outstanding debt has been issued either for capital projects of two of the State’s major Component Units—University of Tennessee and Tennessee Board of Regents—or provided to local governments as capital grants; assets acquired with this debt belong to those entities. The State has not issued bonds to fund infrastructure since 1976; infrastructure has been funded on a pay-as-you-go basis. Additional information on long-term obligations is presented in Note 5I to the financial statements.

The State’s bond ratings have not changed since the previous year. The State’s bonds are rated AA, Aa2, and AA by Fitch Investors Service, Moody’s Investors Service, and Standard & Poor’s Rating Group, respectively. Under current State statutes, the general obligation debt issuances are subject to an annual legal debt service limitation based on a pledged portion of certain current year revenues. As of June 30, 2003, the State’s annual debt service limit of \$550.211 million was well above the debt service required \$148.079 million, with a legal debt service margin of \$402.132 million.

## **FACTORS THAT WILL AFFECT THE FUTURE**

The Legislature authorized a lottery referendum to be placed on the November 2002 ballot. The referendum passed, which gave the Legislature the authority to enact a lottery. The lottery that was authorized created a component unit, the Tennessee Education Lottery Corporation (TELC). The TELC is to establish a lottery with the net lottery proceeds (revenues less lottery operating costs) being transferred to the Education Fund. The net lottery proceeds are to be used to provide financial assistance to Tennessee citizens to enable such citizens to attend post-secondary educational institutions located within Tennessee, for capital outlay projects for K-12 education facilities, for early learning programs, and for after school programs in accordance with the provisions of Article XI, Section 5 of the Constitution of Tennessee. It is anticipated that the lottery will begin operation in early calendar year 2004.

The State lost an appeal about sufficiency of teacher pay equity provided in the State's funding model for public education. The State Legislature will address the teacher pay funding issue in a future session.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of the State of Tennessee's finances for all those with an interest in the State's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be directed to the Department of Finance and Administration, Division of Accounts, 312 8<sup>th</sup> Avenue North, Suite 1400, Nashville, TN 37243.

# GOVERNMENTAL FUND FINANCIAL STATEMENTS

---

General Fund – The General Fund is maintained to account for all governmental financial resources and transactions not accounted for in another fund.

Education Fund - This fund is maintained to account for revenues and expenditures associated with programs involving the Departments of Education and Higher Education. Funding for these programs is accomplished primarily from the dedicated sales and services taxes and federal monies received from the U. S. Department of Education.

Highway Fund - This fund is maintained to account for revenues and expenditures associated with programs of the Department of Transportation. Funding of these programs is accomplished primarily from dedicated highway user taxes and funds received from the various federal transportation agencies. All federal funds accruing to the Highway Fund are received on a reimbursement basis covering costs incurred. It is the State's practice to appropriate matching dollars for jointly funded projects in the year of federal apportionment. This front-end state funding, together with multi-year disbursements on most projects, results in large cash balances in this fund. Effective July 1, 1986, the Department of Transportation began earning interest on certain unspent monies for a new highway construction program, while the General Fund earns the interest on the other highway program monies.

Nonmajor Governmental Funds – Nonmajor governmental funds are presented by fund type in the supplementary section.

State of Tennessee  
 Reconciliation of the Statement of Revenues, Expenditures,  
 and Changes in Fund Balances of Governmental Funds  
 To the Statement of Activities  
 For the Year Ended June 30, 2003

(Expressed in Thousands)

Net changes in fund balances - total governmental funds \$ 104,072

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However in the Statement of Activities the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current year. 685,482

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. 90,932

The issuance of long-term debt (e.g., bonds, commercial paper) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. (17,187)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. (46,648)

Internal service funds are used by management to charge the cost of certain activities, such as insurance and telecommunications, to individual funds. The net revenue (expense) of internal service funds is reported with governmental activities. 36,295

Changes in net assets of governmental activities \$ 852,946

The notes to the financial statements are an integral part of this statement.

# PROPRIETARY FUND FINANCIAL STATEMENTS

---

Sewer Treatment Loan – Created in 1987, this fund provides loans to local governments and utility districts for the construction of sewage treatment facilities. The initial sources of the monies are federal grants and state appropriations.

Employment Security Fund - This fund is maintained to account for the collection of unemployment insurance premiums from employers and the payment of unemployment benefits to eligible claimants. Funds are also received from the federal government for local office building construction, supplemental unemployment programs and work incentive payments. As required by law, all funds not necessary for current benefit payments are placed on deposit with the U.S. Treasury. Interest earned from these monies is retained in the fund. Administrative and operational expenses incurred by the Department of Labor and Workforce Development are expenditures of the General Fund.

Nonmajor Enterprise Funds – Nonmajor Enterprise Funds are presented in the supplementary section.

Internal Service Funds – Internal Service Funds are presented in the supplementary section.

# FIDUCIARY FUNDS FINANCIAL STATEMENTS

---

Pension (and other Employee Benefit) Trust Funds – These are presented by fund in the supplementary section.

Investment Trust Fund – This fund was created in July 1980 to account for local government deposits with the state treasurer and the related interest earnings. Through this program, the participating local governments achieve higher investment income by pooling their funds than they could realize individually.

Private-Purpose Trust Funds – These are presented by fund in the supplementary section.

Agency Funds – These are presented by fund in the supplementary section.

STATE OF TENNESSEE  
NOTES TO THE FINANCIAL STATEMENTS *(Continued)*  
JUNE 30, 2003

NOTE 1 – **Summary of significant accounting policies**

**A. Financial reporting entity**

Introduction - As required by generally accepted accounting principles, these financial statements present the primary government (the State) and its component units, entities for which the State is considered to be financially accountable. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize they are legally separate from the primary government.

Discretely presented component units

1. The Tennessee Student Assistance Corporation (TSAC) (Governmental Fund Type) is responsible for guaranteeing student loans under federal programs and administering federal and state grants and loans to students. The majority of the Board is either appointed by the Governor or are state officials. TSAC's budget is approved by the State.
2. The Community Services Agencies (CSAs) (Governmental Fund Types) listed below are to provide a mechanism to facilitate the provision of services for children and other citizens in need of services from state agencies:

Davidson County Community Services Agency  
Knox County Community Services Agency  
Shelby County Community Services Agency  
Hamilton County Community Services Agency  
Northeast Community Services Agency  
East Tennessee Community Services Agency  
Upper Cumberland Community Services Agency  
Southeast Community Services Agency  
Mid-Cumberland Community Services Agency  
South Central Community Services Agency  
Northwest Community Services Agency  
Southwest Community Services Agency

The Boards for these CSAs are appointed by the Governor and the budget must be approved by the State.

3. The Tennessee Housing Development Agency (Proprietary Fund Type) is responsible for making loans and mortgages to qualified sponsors, builders, developers and purchasers of low and moderate income family dwellings. The Board of the agency consists of state officials, appointees of the Governor, and appointees of the Speakers of the House and Senate. The agency budget is approved by the State.
4. The Tennessee Board of Regents (Proprietary Fund Type) is responsible for the operation of six universities, thirteen community colleges and twenty-seven technology centers. The Board is comprised of state officials and appointees by the Governor and the State provides a substantial amount of funding.
5. The University of Tennessee Board of Trustees (Proprietary Fund Type) is responsible for the operation of the University of Tennessee, located primarily on four campuses across the State. The Board is appointed by the Governor and the State provides a substantial amount of the funding.
6. The Tennessee Local Development Authority (Proprietary Fund Type) provides financing assistance to local governments through the issuance of bonds and notes. In addition, the Authority assists non-profit corporations in the construction of mental health, mental retardation, or alcohol and drug facilities. The majority of the Board consists of state officials; therefore, the State can impose its will on the Authority.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

7. The Tennessee State Veterans' Homes Board (Proprietary Fund Type) is responsible for the operation of nursing homes for honorably discharged veterans of the United States armed forces. The Board is appointed by the Governor and its budget is approved by the State. In addition, the issuance of bonds must be approved by the State Funding Board.
8. The Child Care Facilities Corporation (Proprietary Fund Type) purpose is to create new child care slots in Tennessee by guaranteeing loans, making direct loans, and making grants. The Board is comprised primarily of state officials. The State must approve the budget of the Corporation.
9. The Tennessee State School Bond Authority (Proprietary Fund Type) finances projects for the University of Tennessee, Tennessee Board of Regents and the Tennessee Student Assistance Corporation. The Authority also finances improvement projects for qualifying K-12 schools in the State in conjunction with a federal government program. The Board of the Authority consists primarily of state officials; therefore, the State is able to impose its will on the organization.
10. The Tennessee Certified Cotton Growers' Organization (Proprietary Fund Type) was formed to aid in the eradication of the Boll Weevil. The majority of the Board is appointed by the Commissioner of the Department of Agriculture, and the State provides a substantial amount of funding.

Complete financial statements for each of the individual component units may be obtained at the following addresses:

Tennessee Housing Development Agency  
1114 Parkway Towers

14th Floor William R. Snodgrass Tennessee Tower  
312 Eighth Avenue North  
Nashville, TN 37243-0298

## **B. Government-wide and fund financial statements**

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from legally separate *component units* for which the primary government is financially accountable.

STATE OF TENNESSEE  
NOTES TO THE FINANCIAL STATEMENTS *(Continued)*  
JUNE 30, 2003

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**C. Measurement focus, basis of accounting, and financial statement presentation**

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are typically recorded only when payment is due.

Sales taxes, petroleum and vehicular related taxes and fees, and gross receipt taxes are considered to be available if received in the first 60 days of the new fiscal year. Federal grants, departmental services, and interest associated with the current fiscal period are all considered to be available if received in twelve months. All other revenue items are considered to be measurable and available only when cash is received by the State.

The State reports the following major governmental funds:

The *general fund* is the State's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *education fund* accounts for the financial resources associated with programs involving the Departments of Education and Higher Education.

The *highway fund* accounts for the financial resources associated with the programs of the Department of Transportation.

The State reports the following major proprietary funds:

The *sewer treatment loan fund* accounts for loans made to local governments and utility districts for the construction of sewage treatment facilities.

The *employment security fund* accounts for the collection of unemployment insurance premiums from employers and the payment of unemployment benefits to eligible claimants.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

Additionally, the State reports the following fund types:

*Internal service funds* account for services provided to other departments or agencies of the State, or to other governments, on a cost reimbursement basis.

The *fiduciary fund types* are used to account for resources legally held in trust.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The State has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of internal activity, interdepartmental revenues and expenditures (both direct and indirect expenditures), has been eliminated from the government-wide financial statements. An exception is that interfund services provided and used between functions have not been eliminated.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. Investment income of certain proprietary funds is classified as operating revenue because those transactions are a part of the funds' principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the State's policy to use restricted resources first, then, unrestricted resources as they are needed.

#### **D. Assets, liabilities, and net assets or equity**

1. Deposits and investments— The State's cash and cash equivalents includes demand accounts, petty cash and monies in cash management pools. The liquidity of the cash management pools is sufficient to cover any withdrawal request by a participant. This classification also includes short-term investments with a maturity date within three months of the date acquired by the State. These short-term investments, which are not part of the State Cash Pool, are stated at fair value. Investments in the State Cash Pool are stated at cost or amortized cost as this pool is a 2a7-like pool. Collateral, as required by law, is pledged by the various banks and government securities dealers to guarantee state funds placed with them. It is the State's policy to include cash management pools as cash.

Investments not in the State Cash Pool are stated at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair values. Investment income consists of realized and unrealized appreciation or depreciation in the fair value of investments. Interest income is recognized when earned. Securities and security transactions are recorded in the financial statements on trade-date basis.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

2. Receivables and payables— All outstanding balances between funds are reported as “due to/from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

All receivables are shown net of an allowance for uncollectibles. Receivables in the State's governmental and fiduciary funds primarily consist of taxes, interest, departmental services and federal revenues, see Note 1C.

3. Inventories and prepaid items—Inventories of materials and supplies are determined by physical count and are valued at cost, principally using the first-in/first-out (FIFO) method. The average cost method is used for the Highway Fund (a Special Revenue Fund) and Motor Vehicle Management, Central Stores and General Services Printing (Internal Service Funds). The costs of governmental fund-type inventories are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Restricted assets— Proceeds of the State’s general obligation commercial paper program that remain unspent at year end are classified as restricted cash on the Statement of Net Assets. The commercial paper program provides short-term financing for the State’s capital projects.

Component units that issue revenue bonds – Tennessee Housing Development Authority, Tennessee State School Bond Authority, Tennessee Local Development Authority, and Veterans’ Homes Board – report restricted cash and investments to 1) satisfy bond covenant requirements, 2) reflect unspent bond, commercial paper, or note proceeds, and 3) reflect resources set aside to meet future debt service payments.

5. Capital assets— Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, with the exception of infrastructure, are defined by the State as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Infrastructure assets are capitalized regardless of cost or useful life. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Capitalized assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Capitalized assets, except for land and infrastructure, are depreciated over their useful lives.

The State holds certain assets such as works of art, historical documents, and artifacts that have not been capitalized or depreciated because the collections are protected and preserved for exhibition, education, or research and are considered to have inexhaustible useful lives.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

The State has elected to apply the modified approach to accounting for infrastructure—roadways and bridges. The modified approach is an alternative to depreciation that may be applied to infrastructure capital assets that meet certain requirements. Under the modified approach, depreciation expense is not recorded for these assets. Instead, costs for both maintenance and preservation of these assets should be expensed in the period incurred. Additions and improvements are capitalized.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	50
Building improvements	20
Machinery and Equipment	4-20

6. Compensated absences — It is the State’s policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the State’s policy is to pay this only if the employee is sick or upon death. All vacation pay is accrued when earned in the government-wide and proprietary fund financial statements.
  
7. Long-term obligations —In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the unamortized bond premium or discount and, when applicable, the deferred amount on refunding. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.  
  
 In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.
  
8. Restricted net assets — Restricted net assets consist of net assets in which constraints are placed on the use of those net assets by either external entities, such as creditors (debt covenants), grantors, contributors, and laws or regulations of other governments; or by constitutional provisions or enabling legislation of the State. Restrictions imposed by enabling legislation could be changed by future legislative action. Of the \$1.885 billion restricted by the primary government, \$456 million was by enabling legislation.
  
9. Fund equity — In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.
  
10. Fiscal year end — The fiscal year end of the primary government and component units is June 30, except for the Dairy Promotion Board, a special revenue fund; which has a December 31 year end. Also, the Certified Cotton Growers’ Organization, a component unit, has a December 31 year end.
  
11. Comparative data/reclassifications — Comparative total data for the prior year have not been presented.

STATE OF TENNESSEE  
 NOTES TO THE FINANCIAL STATEMENTS (Continued)  
 JUNE 30, 2003

**NOTE 2 – Reconciliation of government-wide and fund financial statements**

**A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets**

The governmental fund balance sheet includes a reconciliation between *fund balance—total governmental funds* and *net assets—governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that “Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$1,398.814 million difference are as follows (expressed in thousands):

Bonds payable	\$ 895,550
Plus: Premium on bonds issued (to be amortized as interest expense)	4,784
Less: Deferred charge for issuance costs (to be amortized over life of debt)	(586)
Commercial paper payable	193,864
Accrued interest payable	10,668
Capital leases payable	728
Claims and judgments	28,608
Compensated absences	172,413
Loans to other funds	4,266
Long-term accounts payable	<u>88,519</u>
Net adjustment to reduce <i>fund balance—total governmental funds</i> to arrive at <i>net assets—governmental activities</i>	<u>\$ 1,398,814</u>

**B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities**

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives as depreciation expense.” The details of this \$685.482 million difference are as follows (expressed in thousands):

Capital outlay	\$ 737,385
Depreciation expense	<u>(51,903)</u>
Net adjustment to increase <i>net changes in fund balances –</i> <i>total governmental funds</i> to arrive at <i>changes in net assets</i> <i>of governmental activities</i>	<u>\$ 685,482</u>

Another element of that reconciliation states that “The issuance of long-term debt (e.g., bonds, commercial paper) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.” The details of this \$17.187 million difference are as follows (expressed in thousands):

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

Debt issued or incurred:	
Issuance of commercial paper	\$ 95,195
Principal repayments:	
General obligation debt	<u>(78,008)</u>
Net adjustment to decrease <i>net changes in fund balances</i> – <i>total governmental funds</i> to arrive at <i>changes in net assets of</i> <i>governmental activities</i>	<u>\$ 17,187</u>

Another element of that reconciliation states that “Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.” The details of this \$46.648 million difference are as follows (expressed in thousands):

Compensated absences	\$ 10,059
Claims and judgments	(8,982)
Accrued interest	2,698
Loans from other funds	(2,245)
Capital lease	133
Amortization of deferred charge	40
Loss on disposal of capital assets	45,171
Amortization of issuance costs	32
Amortization of bond premiums	<u>(258)</u>
Net adjustment to decrease <i>net changes in fund balances</i> – <i>total governmental funds</i> to arrive at <i>changes in net assets of</i> <i>governmental activities</i>	<u>\$ 46,648</u>

**NOTE 3 – Stewardship, compliance and accountability**

**A. Budgetary process**

Legislation requires the Governor to present his proposed budget to the General Assembly at the beginning of each annual session. Annual budgets are adopted for the general fund, special revenue funds (except Fraud and Economic Crime, Community Development and Dairy Promotion Board), and debt service fund. The General Assembly enacts the budget through passage of specific departmental appropriations, the sum of which may not exceed estimated revenues. Before signing the Appropriations Act, the Governor may veto or reduce any specific appropriation, subject to legislative override. Once passed and signed, the budget becomes the State's financial plan for the coming year.

Budgetary control is maintained at the departmental level. Budget revisions during the year, reflecting program changes or intradepartmental transfers of an administrative nature, may be affected with certain executive and legislative branch approval. Only the legislature, however, may transfer appropriations between departments.

Unencumbered appropriations lapse at the end of each fiscal year, with the encumbered appropriations being carried forward to the next year. In order to provide sufficient funding for several programs during the year, supplemental appropriations of \$250.611 million were required.

The State's annual budget is prepared on the modified accrual basis of accounting with several exceptions, principally the effect of encumbrance and contract obligations. Because these exceptions represent departures from generally accepted accounting principles (GAAP), actual amounts, in the accompanying budgetary comparison schedule, are presented on the budgetary basis.

Encumbrance accounting is utilized for budgetary control purposes in governmental fund types. Encumbrances outstanding at year end are reported as reservations of fund balance for subsequent year expenditure.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

**B. Deficit fund equity**

The Local Government Group Insurance Fund, an Enterprise Fund, has a total net asset deficit of \$13.01 million. This deficit was caused by escalating insurance costs. Rate hikes are scheduled to go into place effective January 1, 2004, to address the deficit.

The Claims Award Fund, an Internal Service Fund, has a total net asset deficit of \$15.695 million. This deficit was caused by a higher level of payment on claims than expected. Additional billings to state agencies will be made during fiscal year 2003-2004 to address this deficit. The General Services Printing Fund, an Internal Service Fund, has an unrestricted net asset deficit of \$116 thousand. This deficit was a result of lower than expected volume of customer requests for service. The printing operations are being reviewed for implementing additional efficiencies in order to lower costs.

The Certified Cotton Growers' Organization, a component unit, has a total net asset deficit of \$24.843 million. This deficit was caused where a substantial amount of funds were borrowed to fund the balance of program costs. The monies borrowed are to be repaid by December 17, 2006.

**NOTE 4 – Accounting changes**

The following schedule enumerates adjustments for the fiscal year ending June 30, 2003 (expressed in thousands):

	6/30/2002 Net Assets <u>As Reported</u>	Fund <u>Reclassifications</u>	Prior Period <u>Adjustments</u>	6/30/2002 Net Assets <u>As Restated</u>
Government-wide statements:				
Primary Government				
Governmental activities:	\$ 18,825,375			\$ 18,825,375
Infrastructure			\$ (631,753)	(631,753)
Nonmajor governmental fund		\$ (1,352)		(1,352)
Total governmental activities	<u>18,825,375</u>	<u>(1,352)</u>	<u>(631,753)</u>	<u>18,192,270</u>
Business-type activities:	1,269,539			1,269,539
Nonmajor business-type		<u>1,352</u>		<u>1,352</u>
Total business-type activities	<u>1,269,539</u>	<u>1,352</u>		<u>1,270,891</u>
Total primary government	<u>\$ 20,094,914</u>	<u>\$ -</u>	<u>\$ (631,753)</u>	<u>\$ 19,463,161</u>
Government-wide statements:				
Component Units	\$ 3,067,798			\$ 3,067,798
University of Tennessee			\$ 17,250	17,250
Tennessee Board of Regents			<u>2,335</u>	<u>2,335</u>
Total component units	<u>\$ 3,067,798</u>		<u>\$ 19,585</u>	<u>\$ 3,087,383</u>

**Fund Reclassifications**

This column on the above schedule includes a reclassification of the Client Protection Program from special revenue fund to enterprise fund.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

**Prior Period Adjustments**

Infrastructure - \$631.753 million is a correction of an error resulting from the overstatement of capitalized infrastructure.

Tennessee Board of Regents - \$3.961 million is a University of Memphis correction of error in prior year resulting in understating revenue and overstating deferred revenue. \$1.626 million is an East Tennessee State University correction of error to increase accumulated depreciation on equipment.

University of Tennessee - \$17.250 million is correction of an error in overstating depreciation expense related to buildings that had been fully depreciated.

**Change in Accounting Principle**

Fiduciary activities—Pension (and other employee benefit trusts). The Tennessee Consolidated Retirement System changed its method of reporting foreign currency forward contracts to include their associated unrealized gains and losses on the financial statements rather than through footnote disclosure. The effect on net assets follows:

Net assets, July 1, 2002	\$ 23,048,367
Cumulative effect of change	<u>(65,207)</u>
Net assets, July 1, 2002 restated	<u>\$ 22,983,160</u>

**NOTE 5 – Detailed notes on all funds**

**A. Deposits and investments**

1. Pooled investments – The Pooled Investment Fund, administered by the State Treasurer, is authorized by statute to invest funds in accordance with policy guidelines approved by the State Funding Board. The current resolution of that Board gives the Treasurer approval to invest in collateralized certificates of deposit in authorized state depositories; prime commercial paper and prime banker's acceptances; bonds, notes and bills of the United States Treasury or other obligations guaranteed as to principal and interest by the United States or any of its agencies and in repurchase agreements for obligations of the United States or its agencies which are fully guaranteed as to principal and interest by the United States; and in certain obligations of the State. This resolution further states that the dollar weighted average maturity of the State Pooled Investment Fund shall not exceed 90 days and that no investment may be purchased with a remaining maturity of greater than 397 calendar days.

The State Pooled Investment Fund is also authorized by policy to contractually loan securities to investment brokers. The contract for a security loan provides that the fund loan specific securities from its holdings to the broker in return for collateral securities. Statute requires that the loaned securities be collateralized at 102% of their market value. There were no securities on loan from the State Pooled Investment Fund during fiscal year 2003.

Statutes require the state deposits be secured by collateral securities with a market value of 105% of the face of the deposit secured thereby after considering the applicable FDIC coverage, or the depository must be a member of the State Collateral Pool and the pool must have securities pledged which in total equal the required percentage established by the Collateral Pool Board.

Certificates of deposit are not placed or renewed with a financial institution until adequate collateral is pledged. Open accounts maintained for deposit of state revenues are collateralized on an estimate of the average daily balance in the account based on previous balances and monitored for variation to actual balances. The Treasurer is required, by statute, to evaluate the market value of required collateral monthly, and more frequently if market conditions require. Further, statutes provide the Commissioner of Financial Institutions to advise, on a timely basis, the Treasurer and the Commissioner of Finance and Administration of the condition of each state bank and state chartered savings and loan association, including his recommendations regarding its condition and safety as

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

a state depository. Similar provisions apply to federally chartered banks and savings and loan associations designated as state depositories. This process ensures that institutions whose financial status is uncertain are monitored for collateral sufficiency. All repurchases are done with primary dealers in government securities which have executed a master repurchase agreement with the State. The policy guidelines approved by the State Funding Board require that the market value of the securities underlying the repurchase agreement be at least 102% of the cash investment. The policy also requires that collateral securities be marked-to-market daily and be maintained at a value equal to or greater than the cash investment. Prime commercial paper may be acquired from authorized broker dealers or directly from the issuer. There is no collateral requirement for prime commercial paper.

The Tennessee Consolidated Retirement System (TCRS), in addition to the guidelines outlined for the Pooled Investment Fund, may invest in long-term investments. The TCRS may invest in bonds, debentures, preferred stock and common stock, real estate, and other good and solvent securities subject to the TCRS Board of Trustees approval. The Board has also authorized limited investments of securities in some foreign countries.

2. Valuation of investments

a. State Pooled Investment Fund – The SPIF is not registered with the Securities and Exchange Commission (SEC) as an investment company but, through its investment policy adopted by the State Funding Board, operates in a manner consistent with the SEC's rule 2a7 of the Investment Company Act of 1940. Rule 2a7 allows SEC registered mutual funds to use amortized cost to report net assets in computing share prices. Likewise, the SPIF uses amortized cost accounting measures to report investments and share prices. During the fiscal year ended June 30, 2003, the State had not obtained or provided any legally binding guarantees to support the value of participant shares.

b. Other Investments – Investments not included in the SPIF are valued at fair value.

3. Securities lending — The TCRS and the Chairs of Excellence (COE), a permanent fund, are authorized by their investment policies, as adopted by their boards, to enter into collateralized securities lending agreements whereby the TCRS and COE loans its debt and equity securities for a fee to a select few of the highest quality securities firms and banks. Loans must be limited so the total amount on loan does not exceed 30 percent of the TCRS' and COE's assets. The TCRS' and COE's custodian bank manages the lending program and maintains the collateral on behalf of the TCRS and COE. The borrower must deliver collateral to the lending agent in the form of cash or bonds, notes, and treasury bills of the United States or other obligations guaranteed as to principal and interest by the United States or any of its agencies or by the Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, Student Loan Marketing Association and other United States government sponsored corporations or enterprises. Cash received as collateral may be reinvested by the lending agency in accordance with the investment policy, as further restricted under the TCRS and COE securities lending agreement. Collateral securities cannot be pledged or sold unless the borrower defaults.

The loaned securities are initially collateralized at 102 percent of their fair value for domestic securities and 105 percent for international. Collateral is marked-to-market daily and additional collateral is pledged by the borrower if the fair value of the collateral subsequently falls below 100 percent for domestic securities and 105 percent for international. Although there is no specific policy for matching the maturities of the collateral investments and the securities loans, all securities on loan can be terminated on demand by either the TCRS/COE or the borrower. At year-end, TCRS and COE had no securities on loan.

4. Asset-Backed Securities - The TCRS invests in collateralized mortgage obligations (CMOs), which are mortgage-backed securities. These securities are based on cash flows from interest and principal payments on underlying mortgages. Therefore, they are sensitive to prepayments by mortgagees, which may result from a decline in interest rates. The CMOs held were issued by quasi-U.S. governmental agencies. At June 30, 2003, the market value of CMO's was \$9,715,380. The TCRS also invests in various asset-backed securities, representing ownership interests in trusts consisting of credit card or auto loan receivables. These securities are issued by organizations with AAA or AA credit ratings. TCRS invests in these securities primarily to enhance returns by taking advantage of opportunities available in this sector of the securities markets.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

5. Derivatives – The TCRS may buy or sell equity index futures contracts for the purpose of making asset allocation changes in an efficient and cost effective manner and to improve liquidity. The futures contracts are limited to the S&P 500 Index, the S&P Midcap 400 Index and the Russell 2000 Index. The TCRS can increase (decrease) equity market exposure by buying (selling) the equity index future to obtain its target domestic equity allocation. Gains (losses) on equity index future hedge losses (gains) produced by any deviation from the TCRS' target equity allocation.

At June 30, 2003, the TCRS was not under any futures contracts. The gains and losses resulting from daily fluctuations in the fair value of the outstanding futures contracts are settled daily, on the following day, and a receivable or payable is established for any unsettled gain or loss as of the financial statement date.

The International securities expose the TCRS to potential losses due to a possible rise in the value of the US dollar. The TCRS investment managers can reduce foreign currency exposure by selling foreign currency forward contracts, at agreed terms and for future settlement, usually within a year. The manager will reverse the contract by buying the foreign currency before the settlement date. A gain (loss) on this transaction pair will hedge a loss (gain) on the currency movement of the international security. The TCRS can sell up to 80% of its foreign currency exposure into US dollars.

6. Deposits — Deposits with financial institutions are required to be categorized to indicate the level of risk assumed by the State. Category 1 consists of deposits that are insured or collateralized with securities held by the State or by its agent in the state's name. Category 2 consists of deposits collateralized with securities held by the pledging financial institution's trust department or agent in the state's name. Category 3 deposits are uncollateralized. This includes any bank balance that is collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the state's name.

At year end, the carrying amount of deposits in all funds was \$1,865.144 million and the bank balance, including accrued interest, was \$2,055.117 million. Of the bank balance, \$2,053.264 million was (category 1) covered by insurance or collateral (valued at market) held in the state's name by independent custodial banks or segregated in the Federal Reserve Bank in the state's account and \$1.853 million was (category 3) uninsured and uncollateralized.

The carrying value of cash and investments includes \$439.618 million of funds reported as component units.

Cash on deposit with fiscal agent includes \$2.189 million of cash held in a custody account by State Street Bank under a contractual arrangement for master custody services. Monies with the custodial agent are not classified by credit risk, as the custody account relationship does not meet the definition for either a deposit with a financial institution or a security.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

7. Investments - Investments are also required to be categorized to indicate the level of risk assumed by the State. Category 1 consists of investments that are insured or registered or for which the securities are held by the state or its agent in the State's name. Category 2 consists of uninsured and unregistered investments for which the securities are held by the counterparties' trust department or agent in the State's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparties' trust department or agent but not in the State's name. Investments are categorized below for all funds (expressed in thousands):

PENSION TRUST, POOLED INVESTMENT, AND OTHER FUNDS

	Category			Carrying Amount	Fair Value 6/30/03
	1	2	3

**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

8. The various component units are generally governed by the same basic State statutes as the State's investments described above.

a. University of Tennessee

At year end, the carrying amount of deposits for the University of Tennessee was \$14.481 million and the bank balance was \$6.479 million. Of this balance, the entire amount was (category 1) insured or collateralized with securities held by the University or by its agent in the University's name. During the year ended June 30, 2003, the University had uncollateralized deposits on several days of amounts up to \$2.259 million.

The investments for the University of Tennessee are categorized below (expressed in thousands):

	<u>Category</u>			Carrying Amount	Market Value 6/30/03
	<u>1</u>	<u>2</u>	<u>3</u>		
Cash Equivalents:

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

b. Tennessee Board of Regents

At year end, the carrying amount of deposits for the Tennessee Board of Regents was \$65.349 million and the bank balance was \$82.533 million. Of the bank balance, \$81.960 million was (category 1) covered by insurance or collateral (valued at market) held in the schools' name by independent custodial banks or segregated in the Federal Reserve Bank in the schools' name, \$170 thousand was (category 2) collateralized with securities held by the pledging financial institution's trust department or agent in the institution's name, and \$403 thousand was (category 3) uninsured and uncollateralized. In addition, at June 30, 2003, the schools had \$314.315 million being held by the State in the Local Government Investment Pool.

The investments for the Tennessee Board of Regents are categorized below (expressed in thousands):

	<u>Category</u>			<u>Carrying Amount</u>	<u>Fair Value 6/30/03</u>
	<u>1</u>	<u>2</u>	<u>3</u>		
Investments:					
Commercial Paper	\$ 6,991			\$ 6,991	\$ 6,991

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

c. Tennessee Housing Development Agency

At June 30, 2003, the carrying amount of THDA's deposits was \$12.672 million, and the bank balance was \$13.234 million. Of the bank balance, \$1.272 million was insured and \$11.962 million was collateralized with securities held by the pledging financial institution's agent, but not in the agency's name. In addition, at June 30, 2003, THDA had \$5.140 million being held by the State in the State Pooled Investment Fund.

On several days during the year, the amounts collateralized with securities held by the pledging financial institution's agent but not in the agency's name significantly exceeded the amount at year-end. The laws of the State of Tennessee require that collateral be pledged at 105% of the value of uninsured deposits; however, collateral was pledged at 100%.

The investments for the Tennessee Housing Development Agency are categorized below (expressed in thousands):

	<u>Category</u>			<u>Carrying Amount</u>	<u>Fair Value 6/30/03</u>
	<u>1</u>	<u>2</u>	<u>3</u>		
Cash Equivalents and Short-Term Investments:

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

Of the \$232,167 due to the General Fund from the Education Fund, \$232,023 resulted from a time lag between the dates that payments to local education agencies occur and taxes are received in the Education Fund. The \$12,092 due to the General Fund from Employment Security resulted from a time lag between the dates the funds are drawn and received from the Federal government. The amounts due to Fiduciary Funds resulted from a time lag in payment of payroll tax liabilities.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

**E. Loans from other funds**

The Office for Information Resources, an Internal Service Fund, has loans of \$4.266 million to various general fund agencies for computer systems development. These loans are considered long term and are not expected to be repaid within one year.

**F. Transfers**

Transfers between the various primary government funds for fiscal year ending June 30, 2003 are as follows (expressed in thousands):

<u>Transfers Out</u>	<b>Transfers In</b>							<u>Total</u>
	<u>General</u>	<u>Education</u>	<u>Highway</u>	Nonmajor Governmental <u>Funds</u>	Sewer <u>Treatment</u>	Nonmajor Enterprise <u>Funds</u>	Internal Service <u>Funds</u>	
General		\$ 511,220		\$ 55,141	\$ 4,994	\$ 13,887	\$ 9,306	\$ 594,548
Education				1,002			14	1,016
Highway	\$ 31,142							31,142
Nonmajor Governmental Funds	<u>108</u>		<u>\$ 77,000</u>	<u>4,130</u>			<u>308</u>	<u>81,546</u>
<b>Totals</b>	<u>\$ 31,250</u>	<u>\$ 511,220</u>	<u>\$ 77,000</u>	<u>\$ 60,273</u>	<u>\$ 4,994</u>	<u>\$ 13,887</u>	<u>\$ 9,628</u>	<u>\$ 708,252</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due and (3) use unrestricted resources from the general fund to finance various programs accounted for in other funds in accordance with statute or budgetary authorizations.

In the fiscal year ending June 30, 2003, the general fund transferred \$594.5 million to other funds in accordance with statute or budgetary authorizations for the following purposes: \$496.0 million to subsidize the activities of the education fund, \$45.8 million for capital outlay expenditures, \$46.9 million to provide appropriations to finance various programs in other funds, \$5.2 million to provide for debt service payments that were due, and \$600 thousand for payments for interfund services used.

The highway fund received a transfer from the debt service fund for \$77.0 million to cancel authorized and unissued highway bonds. These authorizations were originally recorded in the highway fund to fund a portion of their budget.

The highway fund transferred \$30.0 million into the general fund for the purpose of funding the requirements of state government operations. The transfer is considered non-routine and inconsistent with the activities of the highway fund. This transfer was made in accordance with budgetary authority granted by the Legislature.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

**G. Lease obligations**

Operating Lease Obligations — The State has entered into various operating leases for land, buildings and equipment. Most leases contain termination clauses providing for cancellation after 30, 60 or 90 days' written notice to lessors. In addition, most leases contain appropriation clauses indicating that continuation of the lease is subject to funding by the legislature. It is expected that in the normal course of business most of these leases will be replaced by similar leases. The State has also entered into various operating leases, which have non-cancelable lease terms. Below is a schedule of future minimum lease payments under these leases (expressed in thousands).

<u>For the Year(s)</u> <u>Ended June 30</u>	<u>Noncancelable</u> <u>Operating Leases</u>
2004	\$ 14,523
2005	10,895
2006	8,595
2007	6,202
2008	4,292
2009-2013	15,401
2014	<u>10</u>
Total Minimum Payments Required	<u>\$ 59,918</u>

Expenditures for rent under leases for the years ended June 30, 2003 and 2002, amounted to \$32.1 million and \$31.9 million, respectively.

Capital Lease Obligations – The State leases two buildings for vocational training centers, one in Carter County and the other in Dyersburg. The leases provide an option to purchase the buildings within the lease periods. These capital lease obligations are payable from resources of the General Fund. The effective interest rates are 5.1% and 4.78%. In addition, Records Management (an internal service fund) leased an imaging system with an option to purchase within the five-year lease period. The effective interest rate is 2.65%. These capital lease obligations are reported in the governmental activities column of the Statement of Net Assets. The following is an analysis of the leased property under capital leases (expressed in thousands).

		<u>Governmental Activities</u>
Assets:		
Land		\$ 68
Buildings	1,215	
Less: Accumulated		
Depreciation	<u>125</u>	1,090
Equipment	140	
Less: Accumulated

		<u>\$ 1,258</u>

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

At June 30, 2003, minimum annual lease payments are as follows (expressed in thousands):

<u>For the Year(s)</u> <u>Ended June 30</u>	<u>Governmental Activities Lease</u> <u>Obligation Payable</u>
2004	\$ 182
2005	182
2006	155
2007	152
2008	152
2009	<u>71</u>
Total	894
<u>Less</u> - Interest	<u>106</u>
Present value of net minimum lease payments	<u>\$ 788</u>

**H. Lease receivables**

Operating Lease Receivables — The State, as the lessor, entered into an operating lease with Tennessee Golf, LLC for four golf courses built by the State to be operated by the lessee. The 21-year lease agreement, dated January 20, 1995, that required lease payments begin in January 2001 was amended on February 11, 2002, to extend the lease period to 30 years. In accordance with GASB Statement 13, this lease qualifies as a lease with scheduled rent increases. The golf courses are recorded as a governmental activities capital asset.

The following is a schedule by years of minimum future rentals on noncancelable leases as of June 30, 2003 (expressed in thousands):

<u>Year ending June 30</u>	
2004	\$ 199
2005	283
2006	1,272
2007	2,250
2008	2,250
2009-2013	11,390
2014-2018	12,647
2019-2023	12,647
2024-2028	12,647
2029-2031	<u>6,324</u>
Total minimum future rentals	<u>\$ 61,909</u>

Capital Lease Receivable — The State, as the lessor, entered into a lease agreement with the Nashville/Davidson County Metropolitan Government (lessee) for the Farmers' Market Facility. The lease term is 20 years with an option to renew the lease for an unlimited period of time. The agreement was signed in June 1995; an initial cash payment was made and the first of 19 payments began in fiscal year 1997. The State is subsidizing a part of the cost of this building.

The State, as lessor, entered into a lease agreement with the Nashville/Davidson County Metropolitan Government (lessee) for the Post-Mortem Facility. The lease term is 20 years beginning July 15, 2001, with an option to renew the lease for an unlimited period of time for a nominal amount. The State is subsidizing a part of the cost of this building.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**

Minimum lease payments receivable	\$ 7,279
Plus: deferred charges	<u>760</u>
Net investment in direct financing lease	<u>\$ 8,039</u>

**I. Long term debt**

1. General Obligation Bonds – Bonds Payable at June 30, 2003, are shown below (expressed in thousands):

	<u>Amount</u>
<u>Business-type Activities:</u>	
General obligation bonds, 5.0%, due in generally decreasing amounts of principal and interest ranging from \$2.01 million in 2004 to \$719 thousand in 2006	\$ 4,100
General obligation refunding bonds, 1996 Series C, 4.6% to 5.0%, principal and interest due in amounts ranging from \$1.522 million in 2004 to \$986 thousand in 2010	<u>7,103</u>
	11,203
Less: Unamortized bond refunding costs	<u>(133)</u>
Total Business-type Activities	<u>\$ 11,070</u>
<u>Governmental Activities:</u>	
General obligation bonds, 4.0% to 7.4%, due in generally decreasing amounts of principal and interest from \$95.79 million in 2004 to \$3.995 million in 2029	\$ 749,613
General obligation refunding bonds, 1996 Series B, 4.6% to 6%, principal and interest due in amounts ranging from \$21.279 million in 2004 to \$3.911 million in 2011	77,850
General obligation refunding bonds, 1999 Series A, 3.5% to 5%, principal and interest due in amounts ranging from \$23.101 million in 2004 to \$5.398 million in 2015	<u>222,604</u>
Total General Long-Term Debt	<u>1,050,067</u>
Less: Unamortized bond refunding costs	<u>(2,536)</u>
Total Governmental Activities	<u>\$ 1,047,531</u>

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

2. General Obligation Commercial Paper – Governmental Activities Commercial Paper Payable at June 30, 2003, is shown below (expressed in thousands).

	<u>Commercial Paper</u>
General obligation commercial paper, interest rates ranging from .9% to 1.6% for tax exempt and 1.27% to 1.85% for taxable, varying maturities	\$ 201,800

The full faith and credit of the State, together with certain tax revenues, are pledged to secure all general obligation bonds and commercial paper listed above.

In March 2000, the State instituted a general obligation commercial paper program to provide interim or short-term financing of various authorized capital projects. Commercial paper may be issued as federally taxable or tax exempt and constitute bond anticipation notes. The commercial paper is sold at par as interest-bearing obligations in minimum denominations of \$100 thousand and integral multiples of one thousand in excess of such amount, with interest payable at maturity. The commercial paper has varying maturities of not more than 270 days from their respective dates of issuance. Interest rates vary depending on the market. The amount of principal outstanding may not exceed \$250 million.

The State has entered into a Standby Commercial Paper Purchase Agreement with the Tennessee Consolidated Retirement System under which TCRS is obligated to purchase newly issued commercial paper issued to pay the principal of other commercial paper. The Program expires and the Standby Purchase Agreement terminates on April 1, 2005. At June 30, 2003, \$201.8 million of commercial paper was outstanding (\$184.5 million tax exempt and \$17.3 million federally taxable). Commercial paper payable under this Program qualifies for reporting as a non-current liability because provisions in the Commercial Paper Resolution permit refinancing the paper on a long-term basis.

3. Debt Service Requirements to Maturity - Debt Service requirements to maturity for all general obligation bonds payable at June 30, 2003, are as follows (expressed in thousands):

<u>For the Year(s)</u> <u>Ended June 30</u>	<u>General Obligation Bonds</u>		<u>Total</u>
	<u>Principal</u>	<u>Interest</u>	<u>Requirements</u>
2004	\$ 90,274	\$ 53,428	\$ 143,702
2005	89,909	48,754	138,663
2006	88,564	43,963	132,527
2007	77,719	39,414	117,133
2008	72,074	35,604	107,678
2009-2013	336,738	126,978	463,716
2014-2018	222,944	52,329	275,273
2019-2023	63,968	13,258	77,226
2024-2028	15,360	4,620	19,980
2029	3,720	275	3,995
	<b>\$1,061,270</b>	<b>\$ 418,623</b>	<b>\$ 1,479,893</b>

The above principal for bonds does not reflect a \$2.669 million deduction from bonds payable for the deferred amount on refunding.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

4. General Obligation Bonds Authorized and Unissued - A summary of general obligation bonds authorized and unissued at June 30, 2003, is shown below (expressed in thousands). It is anticipated that a significant amount of these bonds will not be issued but will be canceled because of sufficient fund balances.

<u>Purpose</u>	<u>Unissued July 1, 2002</u>	<u>Authorized</u>	<u>Canceled</u>	<u>Unissued June 30, 2003</u>

Compensated Absences	<u>76</u>	<u>\$ 38</u>	<u>(55)</u>	<u>59</u>	<u>28</u>
Business-Type Activities Long-Term Liabilities	<u>\$ 14,000</u>	<u>\$ 38</u>	<u>\$ (2,909)</u>	<u>\$ 11,129</u>	<u>\$ 3,018</u>

Governmental activities include all governmental funds and internal service funds. Typically, agencies accounted for in the General Fund and Special Revenue Funds liquidate compensated absences liabilities. Claims and judgments are obligations of Underground Storage Tanks and Highway, special revenue funds and the General Fund.

Change in Net Assets  
Net Assets – July 1  
Net Assets – June 30

Significant transactions between the major component units—Tennessee Board of Regents (TBR) and University of Tennessee (UT)—and the primary government consist of the following:

State appropriations from the Education Fund in the amount of \$630.5 million were made to the TBR and \$423.8 million to the UT.

Capital expenditures in the amount of \$62.621 million were made for the TBR and \$32.933 million to the UT in the form of capital assets acquired or constructed.

The TBR paid the primary government \$11.340 million to manage construction projects that were not a part of the capital appropriations.

The most significant transaction among component units is that in which the Tennessee State School Bond Authority, a nonmajor component unit, makes loans to the University of Tennessee and the Tennessee Board of Regents to finance certain capital projects. At June 30, 2003, the Authority's loan receivable (expressed in thousands) consisted of:

	<u>Current</u>	<u>Noncurrent</u>
Tennessee Board of Regents	\$ 10,007	\$ 224,773
University of Tennessee	<u>13,565</u>	<u>205,828</u>

**L. Major component units – long term debt**

Tennessee Housing Development Agency (THDA)

Bonds Payable and Notes Payable at June 30, 2003, are shown below (expressed in thousands):

Mortgage finance program revenue bonds, various Series, 1.2% to 8.125%, due in amounts of principal and interest ranging from \$339.425 million in 2004 to \$4.313 million in 2034	\$ 1,776,991
Less: Unamortized bond refunding costs	(7,485)
Net Bonds Payable	<u>\$ 1,769,506</u>
Homeownership Program Convertible Drawdown Notes, at 1.054% interest rate due December 8, 2005	<u>\$ 51,070</u>

The revenue bonds and notes listed above are not obligations of the State. They are secured by pledge from the facilities to which they relate and by certain other revenues, fees and assets of the THDA.

Bond sales during the year ended June 30, 2003, included the following issues:

- July 2002 – Program bonds of \$85 million
- February 2003 – Program bonds of \$50 million

On July 31, 2002, the agency issued \$85 million in Homeownership Program Bonds, Issue 2002 A & B and used \$56.6 million to redeem notes.

On February 27, 2003, the agency issued \$50 million in Homeownership Program Bonds, Issue 2003–1 A and B. On April 10, 2003, the agency used \$25.66 million of these bonds to redeem notes.

Current Refundings

During the year ended June 30, 2003, bonds were retired at par before maturity in the Mortgage Finance Program in the amount of \$3.120 million and in the Homeownership Program in the amount of \$42.131 million. The respective carrying values of these bonds were \$3.086 million and \$41.811 million. This resulted in a loss to the Mortgage Finance Program of \$34 thousand and the Homeownership Program of \$320 thousand.

On July 1, 2002, the agency used \$57.46 million of notes to refund certain bonds previously issued in the Mortgage Finance Program and the Homeownership Program (\$47.565 million early redemption and \$9.895 million current maturities). The carrying amount of those bonds was \$57.020 million. The refunding resulted in a difference of \$440 thousand between the reacquisition price and the net carrying amount of the old debt. Due to immateriality, this difference is charged to operations in the current year. On July 31, 2002, the agency issued \$85 million in Homeownership Program Bonds, Issue 2002-2 A and B. On September 12, 2002, the agency used \$56.6 million of these bonds to partially refund the convertible drawdown notes, 2001CN-1, which was used July 1, 2002 to refund certain bonds previously issued in the Mortgage Finance Program and the Homeownership Program. The refunding increased the agency’s debt service by \$13.918 million over the next 30.5 years, but the agency realized an economic gain (the difference between the present values of the old and new debt service payments) of \$210 thousand.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

On December 12, 2002, the agency drew down \$11.385 million of notes (2002CN-1) to redeem notes from Series 2001CN-1.

On January 2, 2003, the agency drew down \$65.110 million of notes to refund \$65.110 million of bonds previously issued in the Mortgage Finance Program and the Homeownership Program (\$55.725 million early redemption and \$9.385 million current maturities). The carrying amount of these bonds was \$64.626 million. The refunding resulted in a difference of \$483 thousand between the reacquisition price and the net carrying amount of the old debt. Due to immateriality, this difference is charged to operations in the current year. On February 27, 2003, the agency issued \$50 million in Homeownership Program Bonds, Issue 2003-1 A and B. On April 10, 2003, the agency used \$25.66 million of these bonds to partially refund Series 2002CN-1 notes. The refunding decreased the agency's debt service by \$14 million over the next 30 years, but the agency realized an economic gain (the difference between the present values of the old and new debt service payments) of \$12.308 million.

On March 1, 2003, the agency drew down notes (2002CN-1) to refund \$235 thousand of bonds previously issued in the Homeownership Program. The carrying amount of these bonds was \$233.5 thousand. The refunding resulted in a difference of \$1,500 between the reacquisition price and the net carrying amount of the old debt. Due to immateriality, this difference is charged to operations in the current year.

Debt Service requirements to maturity for revenue bonds payable at June 30, 2003, are as follows (expressed in thousands):

<u>For the Year(s)</u> <u>Ended June 30</u>	<u>Revenue Bonds</u>		<u>Total</u> <u>Requirements</u>
	<u>Principal</u>	<u>Interest</u>	
2004	\$ 241,029	\$ 98,396	\$ 339,425
2005	53,675	83,270	136,945
2006	59,207	82,648	141,855
2007	61,621	80,457	142,078
2008	63,315	78,023	141,338
2009-2013	249,781	327,058	576,839
2014-2018	252,610	257,695	510,305
2019-2023	300,395	179,367	479,762
2024-2028	284,300	96,537	380,837
2029-2033	186,425	24,231	210,656
2034	<u>4,205</u>	<u>108</u>	<u>4,313</u>
	<u>\$ 1,756,563</u>	<u>\$ 1,307,790</u>	<u>\$ 3,064,353</u>

The above principal for revenue bonds is less than that presented on the accompanying financial statements by \$12.943 million. Of this amount, \$20.428 million represents accretion to date of interest on deep discount bonds in those years preceding the first principal payment on these bonds. This accretion has been reported above as interest in the years on which the bonds mature (2004-2017). In addition, \$7.485 million, which is a deduction from bonds payable for the deferred amount on refundings, is not reflected in the above presentation.

Notes Program

The Single Family Mortgage Notes Trust Indenture, dated December 1, 1997 (the "Trust Indenture"), provides for the issuance of agency drawdown notes with a maximum aggregate principal amount of \$65 million. On April 1, 1999 the Trust Indenture was supplemented providing for the maximum aggregate principal amount of \$200 million. On December 1, 2002, the Trust Indenture was supplemented to provide a maximum aggregate principal amount of \$450 million. The notes bear interest, payable on the second Thursday of each succeeding month with respect to the principal amount drawn down by the agency. The interest rate is equal to ninety percent (90%) of the bond equivalent yield as determined on the related rate date. On December 1, 2002, the interest rate was changed to ninety-nine percent (99%) of the bond equivalent yield as determined on the related rate date.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

The following table is a summary of the note activity for the year ended June 30, 2003 (expressed in thousands).

<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>
\$67,909	\$76,730	\$93,569	\$51,070

The \$51.070 million of notes outstanding at year end are Series 2002CN-1, which mature on December 8, 2005.

**M. Nonmajor component units – long term debt**

Tennessee Local Development Authority (TLDA)

Bonds Payable and Notes Payable at June 30, 2003, are shown below (expressed in thousands):

Revenue bonds, 1.95% to 5.75%, due in generally decreasing amounts of principal and interest from \$5.551 million in 2004 to \$16 thousand in 2022	\$ 45,447
Less: Unamortized bond refunding costs	<u>(1,803)</u>
Net Bonds Payable	<u>\$ 43,644</u>
Revenue bond anticipation notes, \$48.95 million at 2% due June 2004	<u>\$ 48,950</u>

The revenue bonds and revenue bond anticipation notes listed above are not obligations of the State. They are secured by pledge of resources from the facilities to which they relate and by certain other revenues, fees and assets of the TLDA.

On January 22, 2003, the authority issued 2003 Refunding Series A bonds in the amount of \$8.295 million at a premium of \$58 thousand. The bond proceeds were used to currently refund \$8.381 million of bonds outstanding in the 1987 and 1993 series on March 1, 2003 at a call premium of \$134 thousand. The net carrying amount of the bonds refunded is \$8.095 million. Also, loan prepayments with a carrying amount of \$2.683 million were used to call \$2.714 million of bonds outstanding in the 1987 and 1993 series on March 1, 2003 at a call premium of \$53 thousand. The refunding resulted in a difference between the reacquisition price and the net carrying amount of \$419 thousand. This difference, reported in the accompanying financial statements as a deduction from bonds payable, is being charged to operations through the year 2015. The loan prepayments resulted in a difference between the reacquisition price and the net carrying amount of \$84 thousand. This difference is being charged to operations in the current year. The authority completed the refunding to reduce its total debt service payments over the next 12 years by \$1.12 million and to obtain an economic gain (difference between the present values of the old and new debt service payments) of \$46 thousand.

Prior Year Defeasance of Debt. In prior years, the authority defeased certain revenue bonds of the Community Provider Programs by placing the proceeds of general obligation notes in an irrevocable trust to provide for all future debt service payments on the defeased bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the authority's financial statements. On June 30, 2003, \$8.305 million of bonds outstanding are considered defeased.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

Debt Service requirements to maturity for TLDA's revenue bonds payable at June 30, 2003, are as follows (expressed in thousands):

For the Year(s) <u>Ended June 30</u>	<u>Revenue Bonds</u>		<u>Total Requirements</u>
	<u>Principal</u>	<u>Interest</u>	
2004	\$ 3,328	\$ 2,223	\$ 5,551
2005	3,533	2,053	5,586
2006	3,398	1,897	5,295
2007	3,118	1,752	4,870
2008	3,278	1,615	4,893
2009-2013	16,913	5,589	22,502
2014-2018	10,770	1,741	12,511
2019-2022	1,109	112	1,221
	<u>\$ 45,447</u>	<u>\$ 16,982</u>	<u>\$ 62,429</u>

The above principal for revenue bonds does not reflect a \$1.803 million deduction from bonds payable for the deferred amount on refunding.

Tennessee State School Bond Authority (TSSBA)

Bonds and Commercial Paper Payable at June 30, 2003, are shown below (expressed in thousands):

Revenue bonds, various Series, 3% to 7.75%, due in decreasing amounts of principal and interest from \$45.634 million in 2004 to \$5.615 million in 2032	\$ 452,092
Less: Unamortized bond refunding costs	<u>(2,283)</u>
Net Bonds Payable	<u>\$ 449,809</u>
Commercial paper, interest rates ranging from .85% to 1.85%, varying maturities	<u>\$ 46,747</u>

The revenue bonds and commercial paper listed above are not obligations of the State. They are secured by pledge of resources from the facilities to which they relate and by certain other revenues, fees and assets of the TSSBA.

Prior-Year Defeasance of Debt. In prior years, the authority defeased certain revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the authority's financial statements. On June 30, 2003, \$72.825 million of bonds outstanding are considered defeased.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

Debt Service requirements to maturity for TSSBA's revenue bonds payable at June 30, 2003, are as follows (expressed in thousands):

For the Year(s) <u>Ended June 30</u>	<u>Revenue Bonds</u>		Total <u>Requirements</u>
	<u>Principal</u>	<u>Interest</u>	
2004	\$ 22,105	\$ 23,529	\$ 45,634
2005	19,760	22,545	42,305
2006	17,811	21,668	39,479
2007	18,048	20,905	38,953
2008	17,910	20,118	38,028
2009-2013	101,421	81,114	182,535
2014-2018	88,580	55,368	143,948
2019-2023	69,344	34,926	104,270
2024-2028	60,880	17,155	78,035
2029-2032	27,228	3,375	30,603
	<u>\$443,087</u>	<u>\$300,703</u>	<u>\$ 743,790</u>

The above principal for revenue bonds is less than that presented on the accompanying financial statements by \$6.722 million. Of this amount, \$9.005 million represents accretion to date of interest on deep discount bonds in those years preceding the first principal payment on these bonds. This accretion has been reported above as interest in the years on which the bonds mature (2004-2010). In addition, \$2.283 million, which is a deduction from bonds payable for the deferred amount on refunding, is not reflected in above presentation.

Commercial Paper Program. The Tennessee State School Bond Authority issues short-term debt to finance certain capital projects for the State of Tennessee's higher education institutions. The maximum amount of principal may not exceed \$150 million. At June 30, 2003, \$39.447 million of tax-exempt and \$7.3 million of taxable commercial paper was outstanding.

The commercial paper is a special obligation of the Authority. The commercial paper dealer is J. P. Morgan. Commercial paper principal and interest may be paid from: (i) the proceeds of draws on the Liquidity Facility, (ii) Available Revenues, (iii) the moneys and securities (if any) on deposit in the commercial paper and reimbursement account and in the Debt Service Fund, (iv) the moneys and securities (if any) on deposit in the Project Construction Account for such projects, and (v) the proceeds of bonds, notes or other evidences of indebtedness to the extent set aside to make such payments. The maturity of the paper may not exceed 270 days and the maximum interest rate may not exceed 12%. Interest rates vary depending on the market. Upon maturity, the paper is remarketed by the commercial paper dealer, redeemed, or extinguished with long-term debt. The Commercial Paper bears interest at a variable rate that is paid upon maturity. The Commercial Paper liquidity provider, under an Advance Agreement, is *Westdeutsche Landesbank Girozentrale*, New York branch. The total available commitment is \$152.25 million. The obligation of *Westdeutsche Landesbank Girozentrale* is to purchase unremarketed Commercial Paper. Commercial paper payable under this Program qualifies for reporting as a non-current liability because provisions in the Commercial Paper Resolution permit refinancing the paper on a long-term basis.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

The Tennessee State School Bond Authority, a nonmajor component unit, issues revenue bonds to make loans to higher education institutions in the State. The nonmajor component units bonds payable includes the indebtedness on which the University of Tennessee and the Tennessee Board of Regents loans payable are based.

**O. Endowments – component units**

If a donor has not provided specific instructions to the University of Tennessee and the Tennessee Board of Regents institutions, state law permits each institution to authorize for expenditure the net appreciation (realized and unrealized) of the investments of endowment funds. When administering its power to spend net appreciation, the institution is required to consider the institution's long-term and short-term needs, present and anticipated financial requirements, expected total return on its investments, price-level trends, and general economic conditions. Any net appreciation that is spent is required to be spent for the purposes for which the endowment was established.

The University of Tennessee chooses to spend only a portion of the investment income (including changes in the value of investments) each year. Under the spending plan established by the University, 5 percent of a three-year moving average of the fair value of endowment investments has been authorized for expenditure. The remaining amount, if any, is retained to be used in future years when the amount computed using the spending plan exceeds the investment income. At June 30, 2003, net appreciation of \$93.398 million is available to be spent, of which \$88.762 million is restricted to specific purposes.

While some Tennessee Board of Regents institutions spend all investment income, others choose to spend only a portion of the investment income (including changes in the value of investments) each year. Under the various spending plans established by each institution, different percentages and/or amounts have been authorized for expenditure. The remaining amounts, if any, are retained to be used in future years when the amounts computed using the spending plans exceed the investment income. At June 30, 2003, net appreciation of \$6.311 million is available to be spent, of which \$6.036 million is restricted to specific purposes.

**NOTE 6 – Other information**

**A. Risk management**

1. Teacher Group Insurance - The Teacher Group Insurance Fund, a public entity risk pool, was established in January 1986 to provide a program of health insurance coverage for the teachers and other education system employees of the political subdivisions of the State. In accordance with Tennessee Code Annotated 8-27-302 all local education agencies are eligible to participate. Fund members at June 30, 2003, included 122 local education agencies and two education cooperatives, with 42,020 teachers and support personnel, and 3,572 retirees enrolled in one of three health care options: preferred provider organization plan (PPO), point of service plan (POS), or a health maintenance organization (HMO). The State retains an immaterial risk of loss by this fund.

The Teacher Group Insurance Fund assumes responsibility for: determining plan benefits and eligibility, establishing premiums sufficient to fund plan obligations, recording and reporting financial transactions accurately, reporting enrollment to vendors, processing of claims submitted for services provided to plan participants, communicating with plan participants, and complying with appropriate state and federal laws and regulations. Plan participants are required to: pay premiums on time, file claims for services received, report changes in eligibility of themselves or their dependents, and ensure that only eligible expenses are paid by the plan. Individuals who cancel coverage may be required to demonstrate a qualifying event to rejoin the plan. Employers must wait twenty-four months before rejoining the plan should the employer elect to withdraw from the plan. In the case of individuals or groups rejoining the plan, a preexisting condition exclusion currently applies.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

The Teacher Group Insurance Fund establishes claims liabilities for self-insured options based on estimates of the ultimate cost of claims that have been reported but not settled, and of claims that have been incurred but not reported. Teachers and providers have 13 months to file medical claims. The process used to compute claims liabilities does not necessarily result in an exact amount. Claims liabilities are recomputed periodically using actuarial and statistical techniques to produce current estimates. At June 30, 2003, the Local Education Insurance Committee had established a reserve requirement, based upon claims payments for the prior 12 months, of 10% for the PPO, POS and HMO options. Adjustments to claims liabilities are charged or credited to expense in the period in which they are made. The Teacher Group Insurance Fund considers investment income in determining if a premium deficiency exists.

The Teacher Group Insurance Fund issues separate financial statements that may be obtained by writing the Department of Finance and Administration, Division of Accounts, 312 Eighth Avenue North, 14th Floor William R. Snodgrass Tennessee Tower, Nashville, TN 37243-0298 or by calling (615) 741-0431.

As discussed above, the Teacher Group Insurance Fund establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claim adjustment expenses. The following represents changes in those aggregate liabilities during the past two years (expressed in thousands):

	<u>2003</u>	<u>2002</u>
Unpaid Claims at Beginning of Year	\$ 23,943	\$ 23,284
Incurred Claims:		
Provision for insured events of the current year	228,230	199,521
Increase (decrease) in provision for insured events of prior years	<u>(4,939)</u>	<u>(6,362)</u>
Total Incurred Claims Expenses	<u>223,291</u>	<u>193,159</u>
Payments:		
Claims attributable to insured events of the current year	205,407	175,578
Claims attributable to insured events of prior years	<u>19,004</u>	<u>16,922</u>
Total Payments	<u>224,411</u>	<u>192,500</u>
Total Unpaid Claims at End of the Year	<u>\$ 22,823</u>	<u>\$ 23,943</u>

2. Local Government Group Insurance - The Local Government Group Insurance Fund, a public entity risk pool, was established in July 1991 to provide a program of health insurance coverage for employees of local governments and quasi-governmental organizations that were established for the primary purpose of providing services for or on the behalf of state and local governments. In accordance with Tennessee Code Annotated 8-27-207 all local governments and quasi-governmental organizations described above are eligible to participate. Fund members at June 30, 2003, included 41 counties, 94 municipalities and 220 quasi-governmental organizations, with 16,179 employees and 439 retirees maintaining coverage through one of three options: preferred provider plan, point of service plan, or a health maintenance organization. The State does not retain any risk for losses by this fund.

The Local Government Group Insurance Fund assumes responsibility for: determining plan benefits and eligibility, establishing premiums sufficient to fund plan obligations, recording and reporting financial transactions accurately, reporting enrollment to vendors, the processing of claims submitted for services provided to plan participants, communicating with plan participants, and complying with appropriate state and federal laws and regulations. Plan participants are required to: pay premiums on time, file claims for services received, report changes in eligibility of themselves or their dependents, and ensure that only eligible expenses are paid by the plan. Individuals who cancel coverage may be required to demonstrate a qualifying event to rejoin the plan. Employers must wait twenty-four

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

months before rejoining the plan should the employer elect to withdraw from the plan. In the case of individuals or groups rejoining the plan, a preexisting condition exclusion currently applies.

The Local Government Group Insurance Fund establishes claims liabilities for self-insured options based on estimates of the ultimate cost of claims that have been reported but not settled, and of claims that have been incurred but not reported. Employees and providers have 13 months to file medical claims. The process used to compute claims liabilities does not necessarily result in an exact amount. Claims liabilities are recomputed periodically using actuarial and statistical techniques to produce current estimates. At June 30, 2003, the Local Government Insurance Committee had established a reserve requirement, based upon claims payments for the prior 12 months, of 11% for the PPO, POS and HMO options. Adjustments to claims liabilities are charged or credited to expense in the period in which they are made. The Local Government Group Insurance Fund considers investment income in determining if a premium deficiency exists.

The Local Government Group Insurance Fund issues separate financial statements that may be obtained by writing the Department of Finance and Administration, Division of Accounts, 312 Eighth Avenue North, 14th Floor William R. Snodgrass Tennessee Tower, Nashville, TN 37243-0298 or by calling (615) 741-0431.

As discussed above, the Local Government Group Insurance Fund establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claim adjustment expenses. The following represents changes in those aggregate liabilities during the past two years (expressed in thousands):

	<u>2003</u>	<u>2002</u>
Unpaid Claims at Beginning of Year	\$ 11,807	\$ 8,302
Incurred Claims:		
Provision for insured events of the current year	99,857	98,389
Increase (decrease) in provision for insured events of prior years	<u>(2,177)</u>	<u>(1,102)</u>
Total Incurred Claims Expenses	<u>97,680</u>	<u>97,287</u>
Payments:		
Claims attributable to insured events of the current year	88,873	86,582
Claims attributable to insured events of prior years	<u>9,630</u>	<u>7,200</u>
Total Payments	<u>98,503</u>	<u>93,782</u>
Total Unpaid Claims at End of the Year	<u>\$ 10,984</u>	<u>\$ 11,807</u>

3. Risk Management - It is the policy of the State not to purchase commercial insurance for the risks of losses for general liability, automobile liability, professional malpractice and workers' compensation. The State management believes it is more economical to manage its risks internally and set aside assets for claim settlement in its internal service fund, the Claims Award Fund (CAF). CAF services claims for risk of loss to which the State is exposed, including general liability, automobile liability, professional malpractice, and workers' compensation. All agencies and authorities of the State participate in CAF, except for the Dairy Promotion Board and Certified Cotton Growers' Organization (a component unit). CAF allocates the cost of providing claims servicing and claims payment by charging a premium to each agency based on a percentage of each organization's expected loss costs which include both experience and exposures. This charge considers recent trends in actual claims experience of the State as a whole. An actuarial valuation is performed as of each fiscal year end to determine the fund liability and premium allocation.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

CAF liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process does not result in an exact amount. Claims liabilities are reevaluated annually to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. At June 30, 2003, the amount of these liabilities was \$87.3 million, which are discounted at 3.0%. Changes in the balances of claims liabilities during fiscal years 2002 and 2003 were as follows (expressed in thousands):

	Beginning of Fiscal Year <u>Liability</u>	Current Year Claims and <u>Changes in Estimates</u>	Claim <u>Payments</u>	Balance at Fiscal <u>Year-End</u>
2001-2002	\$ 69,839	\$ 39,187	\$ ( 28,116)	\$ 80,910
2002-2003	\$ 80,910	\$ 35,481	\$ ( 29,054)	\$ 87,337

At June 30, 2003, CAF held \$72.1 million in cash and cash equivalents designated for payment of these claims.

The State purchases commercial insurance for real property, flood, earthquake, and builder's risk losses and surety bond coverage on the state's officials and employees. The insurance policy deductibles vary from \$1 million to \$5 million by type of risk coverage. A designation of \$3.271 million for incurred losses has been established in the General Fund.

In fiscal year 2000, the cost to repair tornado damage at Austin Peay State University exceeded insurance coverage by \$6.196 million.

4. Employee Group Insurance - The Employee Group Insurance Fund, an entity other than a pool, was established in 1979 to provide a program of health insurance coverage for the employees of the State with the risk retained by the State, therefore it is accounted for as an Internal Service Fund. In accordance with Tennessee Code Annotated 8-27-201 all state employees, retirees, and former employees with work related injuries are eligible to participate. Fund members at June 30, 2003, included 66,028 employees and 6,324 retirees enrolled in one of three options: preferred provider organization plan (PPO), point of service plan (POS), or health maintenance organization (HMO).

The Employee Group Insurance Fund establishes claims liabilities for self-insured options based on estimates of the ultimate cost of claims that have been reported but not settled, and of claims that have been incurred but not reported. Employees and providers have 13 months to file medical claims. The process used to compute claims liabilities does not necessarily result in an exact amount. Claims liabilities are recomputed periodically using actuarial and statistical techniques to produce current estimates. At June 30, 2003, the State Insurance Committee had established a reserve requirement, based upon claims payments for the prior 12 months, of 10% for the PPO, POS and HMO options. Adjustments to claims liabilities are charged or credited to expense in the period in which they are made. The Employee Group Insurance Fund considers investment income in determining if a premium deficiency exists.

As discussed above, the Employee Group Insurance Fund establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claim adjustment expenses. The following represents changes in those aggregate liabilities during the past two years (expressed in thousands):

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

	<u>2003</u>	<u>2002</u>
Unpaid Claims at Beginning of Year	\$ 45,537	\$ 39,641
Incurred Claims:		
Provision for insured events of the current year	428,064	379,474
Increase (decrease) in provision for insured events of prior years	<u>(7,166)</u>	<u>(7,233)</u>
Total Incurred Claims Expenses	<u>420,898</u>	<u>372,241</u>
Payments:		
Claims attributable to insured events of the current year	385,258	333,937
Claims attributable to insured events of prior years	<u>38,371</u>	<u>32,408</u>
Total Payments	<u>423,629</u>	<u>366,345</u>
Total Unpaid Claims at End of the Year	<u>\$ 42,806</u>	<u>\$ 45,537</u>

5. Medicare Supplement Insurance – In 1988, the State of Tennessee adopted legislation authorizing the provision of Medicare Supplement coverage for qualified retired state employees and teachers. Instituted in January 1989, the coverage was offered on a fully insured basis through December 2000. On January 1, 2001, the financial arrangement was converted to self-insured and a third plan option offered to participants.

In accordance with Tennessee Code Annotated 8-27-701, et. seq, the State Insurance Committee established a Medicare Supplement Insurance Fund, a public entity risk pool, on January 1, 2001. Fund members at June 30, 2003, include 22,094 retirees and dependents who selected one of three plan offerings; Plan One (NAIC Plan D), Plan Two (NAIC Plan H) and Plan Three (a PPO maintenance of benefit option).

The Medicare Supplement Insurance Fund assumes responsibility for determining plan benefits and eligibility, establishing premiums sufficient for fund plan obligations, recording and reporting financial transactions accurately, reporting enrollment to vendors, processing of claims submitted for services provided to plan participants, communicating with plan participants and complying with appropriate state and federal law and regulation. Plan participants are required to: pay premiums on time, provide for the filing of claims for services received, and report changes in eligibility of themselves and their dependents.

The Medicare Supplement Insurance Fund establishes claims liabilities for the self-insured coverage based on estimates of claims that have been reported but not settled, and of claims that have been incurred but not reported. Claims liabilities are recomputed periodically using actuarial and statistical techniques to produce current estimates. At June 30, 2003, reserve requirements were established of 16%, based upon claim payments for the prior 12 months. Adjustments to claims liabilities are charged or credited to expense in the period in which they are made. The Medicare Supplement Insurance Fund considers investment income in determining if a premium deficiency exists.

The Medicare Supplement Insurance Fund issues separate financial statements that may be obtained by writing the Department of Finance and Administration, Division of Accounts, 312 Eighth Avenue North, 14th Floor William R. Snodgrass Tennessee Tower, Nashville, TN 37243-0298 or by calling (615) 741-0431.

As discussed above, the Medicare Supplement Insurance Fund establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of losses and related claim adjustment expenses. The following represents changes in those aggregate liabilities during the past two years (expressed in thousands):

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

	<u>2003</u>	<u>2002</u>
Unpaid Claims at Beginning of Year	\$ 4,867	\$ 1,027
Incurred Claims:		
Provision for insured events of the current year	34,580	30,417
Increase (decrease) in provision for insured events of prior years	<u>(169)</u>	<u>3,103</u>
Total Incurred Claims Expenses	<u>34,411</u>	<u>33,520</u>

Total Payments	<u>33,745</u>	<u>29,680</u>
Total Unpaid Claims at End of the Year	<u>\$ 5,533</u>	<u>\$ 4,867</u>

**B. Related organizations**

The State's officials are also responsible for appointing the members of the boards of other organizations, but the State's accountability for these organizations does not extend beyond making appointments. The State appoints the board members of the Beech River Watershed Development Authority, Carroll County Watershed Authority, Goodwyn Institute Commission, Watkins Institute Commission, Tennessee Alliance for Fitness and Health, Tennessee Competitive Export Corporation, Insurance Guaranty Association, Tennessee Sports Hall of Fame, Local Neighborhood Development Corporations, Tennessee Holocaust Commission, Inc., and Sports Festival, Inc.

**C. Jointly governed organizations**

The State in conjunction with 33 other states and Puerto Rico are members of the Pest Control Compact.

The State in conjunction with 12 other states and Puerto Rico are members of the Southern Growth Policies Board. Tennessee paid \$54,926 in fiscal year 2003 for membership dues.

The Southern Regional Education Compact was entered into with 15 other states. Tennessee paid \$14,000 in fiscal year 2003 for membership dues.

The Compact for Education was entered into with 49 other states, plus Puerto Rico, the Virgin Islands, American Samoa and District of Columbia. Tennessee paid \$66,100 in fiscal year 2003 for membership dues.

The Interstate Mining Compact has 17 member states, including Tennessee. Tennessee paid \$15,528 in fiscal year 2003 for membership dues.

The Southern States Energy Board is comprised of 16 member states, including Tennessee, plus Puerto Rico and the Virgin Islands. Tennessee paid \$34,267 in fiscal year 2003 for membership dues.

The Southeast Interstate Low Level Radioactive Waste Compact has 7 member states, including Tennessee.

The Chickasaw Trail Economic Development Compact has two member states in conjunction with one county in each State.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

**D. Joint ventures**

The State is a participant in a joint venture, the Tennessee-Tombigbee Waterway Development Compact, with the states of Alabama, Kentucky and Mississippi. The purpose of this compact is to promote the development of a navigable waterway connecting the Tennessee and Tombigbee Rivers and provide a nine foot navigable channel. The fiscal year end of the Tennessee Tombigbee Waterway is December 31. Financial statements for the Tennessee Tombigbee Waterway may be obtained at: P. O. Drawer 671, Columbus, MS 39703.

Presented below is summary financial data for this joint venture (expressed in thousands):

	<u>2002</u>	<u>2001</u>
Current Assets	\$ 271	\$ 268
Capital Assets	<u>33</u>	<u>33</u>
Total Assets	<u>304</u>	<u>301</u>
Invested in General Fixed Assets	33	33
Fund Balance	<u>271</u>	<u>268</u>
Total Liabilities and Fund Balance	<u>304</u>	<u>301</u>
Revenues	293	315
Expenditures	<u>290</u>	<u>325</u>
Excess of Revenues over (under)		
Expenditures	3	(10)
Beginning Fund Balance	<u>268</u>	<u>278</u>
Ending Fund Balance	<u>\$ 271</u>	<u>\$ 268</u>

**E. Post employment health insurance benefits**

1. **General** - The State offers an opportunity to its employees and eligible retirees to participate in a self-insured indemnity policy (preferred provider plan), a point of service plan, or health maintenance organizations. This post employment benefit is authorized under Tennessee Code Annotated 8-27-205. The indemnity policy provides benefits to plan participants in a comprehensive, major medical format involving a \$250 calendar year deductible and a \$1,250 per individual out-of-pocket limit. The plans incorporate typical provisions relating to utilization review, medical necessity, pre-existing conditions, coordination of benefits and subrogation of expenses. The plans offer benefit incentives for the use of designated providers and the plans maintain limitations on benefits provided for the treatment of mental illness and substance abuse.
2. **Retirees** - Retirees who are not yet eligible for Medicare benefits may continue participation in the plan subject to certain length of service and participation requirements. Upon Medicare eligibility, the retiree is afforded the opportunity to participate in a self-insured supplement policy not associated with the plan. The State pays a service determined amount for retirees who participate in the state sponsored Medicare supplement policy.

The funds collected for the plan's operation are recorded in the employee group insurance account. The plan's premiums are intended to fund benefits on a pay-as-you-go basis and no specified reserves have been established to fund retiree health benefits. Current retiree premium rates are based upon the retiree's length of service and range from 20 percent to 40 percent of the plan's total premium. The State provides no direct funding of retiree health benefits.

During the 2002-2003 fiscal year, the State Plan provided approximately \$48.3 million in benefits to an average of 6,159 retired employee participants.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

3. Cobra - Federal law requires large employers to continue health insurance benefits to employees who have terminated employment for up to 18 months. The former employees must pay 102 percent of the total premium (employee plus employer share), funded on a pay as you go basis. Insurance coverage is not mandatory if the former employee is eligible for Medicare or has coverage with another group medical plan. The State covered an average of 299 former employees during fiscal year 2002-2003, and the State Plan paid approximately \$2.8 million in benefits to this group.

#### **F. Gain contingencies**

In November 1998, Tennessee joined 45 other states, the District of Columbia and five territories in a settlement agreement against the nation's largest tobacco manufacturers, to seek redress against the tobacco companies for violations of state consumer and antitrust laws. The Master Settlement Agreement includes base payments to all states and territories totaling \$206 billion from 1998 through 2023, and continues in perpetuity. Tennessee's share of the settlement is expected to be \$4.8 billion through the year 2025. Third party lawsuits may affect future payments to Tennessee. Although Tennessee's share of the base payments may not change over time, the amount of the annual payment is subject to a number of modifications including adjustments for inflation and usage volumes. Some of the adjustments may result in increases in the payments (inflation, for example), while other adjustments will likely cause decreases in the payments (volume adjustments, for example). The net effect of these adjustments on future payments is unclear.

#### **G. Pension plans**

1. State Defined Benefit Plan - The State of Tennessee contributes to the State Employees, Teachers, and Higher Education Employees Pension Plan (SETHEPP), a cost-sharing multiple employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS) and consisting of 140 participating employers. The TCRS provides retirement benefits as well as death and disability benefits to plan members and their beneficiaries. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members who are at least 55 years of age or have 25 years of service. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the plan on or after July 1, 1979 are vested after five years of service. Members joining prior to July 1, 1979 are vested after four years of service. Benefit provisions are established by state statute found in Title 8, Chapters 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Cost of living adjustments (COLA) are provided each July based on the percentage change in the Consumer Price Index (CPI) during the previous calendar year. No COLA is granted if the CPI increases less than one-half percent; a COLA of one percent will be granted if the CPI increases between one-half percent and one percent; the maximum annual COLA is capped at three percent.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for SETHEPP. That report may be obtained by writing to the Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or by calling (615) 741-7063.

Plan members are noncontributory. The State of Tennessee is required to contribute at an actuarially determined rate. The current rate is 7.29% of annual covered payroll. The contribution requirements of the State of Tennessee are established and may be amended by the TCRS Board of Trustees. The State's contributions to TCRS for the years ending June 30, 2003, 2002, and 2001, were \$264.321 million, \$243.498 million, and \$232.149 million respectively, equal to the required contributions for each year.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

2. Political Subdivision Defined Benefits Plan - TCRS administers the Political Subdivision Pension Plan (PSPP), which is an agent multiple-employer defined benefit pension plan that covers employees of 404 participating political subdivisions. The PSPP provides retirement benefits as well as death and disability benefits to plan members and their beneficiaries. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members who are at least 55 years of age or have 25 years of service. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the plan prior to July 1, 1979, are vested after four years of service. Members joining on or after July 1, 1979, are vested upon completion of 10 years of service, unless five years vesting is authorized by resolution of the chief governing body. Benefit provisions are established and amended by state statute. Cost of living adjustments (COLA) are the same as provided by SETHEPP except that the local government may elect (a) to provide no COLA benefits or (b) to provide COLA benefits under a non-compounding basis rather than the compounded basis applicable under SETHEPP. Pursuant to Article Two, Section 24 of the Constitution of the State of Tennessee, the State cannot mandate costs on local governments. Any benefit improvement may be adopted by the governing body of a governmental entity participating in the TCRS.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for PSPP. The PSPP report may be obtained by writing to the Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or by calling (615) 741-7063.

3. Defined Contribution Plan - The Optional Retirement Plan (ORP) as administered by the Tennessee Treasury Department is a defined contribution plan. The ORP was established by state statute in Title 8, Chapter 35, Part 4 of the TCA. This statute also sets out the plan provisions. State statutes are amended by the Tennessee General Assembly. The ORP was designed to provide benefits at retirement to faculty and staff of the Tennessee Board of Regents institutions and the University of Tennessee system who are exempt from the overtime provision of the Fair Labor Standards Act and who waive membership in the TCRS. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Plan members are noncontributory. The State of Tennessee contributes 10% of the employee's base salary up to the social security wage base and 11% above the social security wage base. The required contributions made by the State of Tennessee to the ORP were \$72.8 million for the year ending June 30, 2003.

Members are immediately 100 percent vested in the employer contributions made pursuant to the ORP. The Treasury Department has selected three investment vendors who offer a variety of investment products in which members are responsible for selecting how the contributions are invested. Each member makes the decision when to reallocate future contributions or when to transfer funds from one investment product to another. Funds are held by the investment vendor in the name of the member, not in the name of the State of Tennessee. The State of Tennessee has no discretion over these funds other than to make the initial contributions. Accordingly, the State of Tennessee is not acting in a trustee capacity nor does it have a fiduciary responsibility for the funds held by the investment vendors.

4. Deferred Compensation - The State offers its employees two deferred compensation plans, one established pursuant to IRC Section 457 and the other pursuant to IRC Section 401(k). All costs of administering and funding these programs are the responsibility of plan participants.

The Section 401(k) and Section 457 plan assets remain the property of the contributing employees, they are not presented in the accompanying financial statements. IRC Sections 401(k) and 457 establish participation, contribution and withdrawal provisions for the plans. During the year ended June 30, 2003, contributions totaling \$65.0 million were made by employees participating in the plans. Another \$5.8 million was contributed by the State as matching contributions up to \$20 per employee per month for the 401(k) plan match.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

**H. Investment pool**

The State Pooled Investment Fund (SPIF) is an external investment pool sponsored by the State of Tennessee. The external portion of SPIF is the Local Government Investment Pool (LGIP) and is reported as a separate investment trust fund. The internal portion, consisting of funds belonging to the State and its component units, has been included in the various funds and component units.

A copy of the SPIF report can be obtained by writing Tennessee Treasury Department, Accounting Division, 9<sup>th</sup> Floor Andrew Jackson Building, Nashville, TN 37243-0231 or by calling (615) 741-1337.

**I. Loan guarantees**

The Tennessee Student Assistance Corporation (TSAC), a component unit, operates the Guaranteed Student Loans Program. The U. S. Department of Education (USDE) reinsures the student loans up to 100% of their principal amounts. At June 30, 2003, TSAC was guarantor of \$3.326 billion in student loans, substantially all of which were reinsured by the USDE. The State has no obligation under these student loan guarantees in the event of default.

**J. Nashville correctional facilities revenue bonds**

In June 1991, revenue bonds were issued by the Metropolitan Government of Nashville which were refunded in February 2002. The refunding bonds have an outstanding balance at June 30, 2003, of \$14.925 million. These bonds are obligations of the Metropolitan Government of Nashville. The State is committed to pay Nashville for the housing of locally sentenced inmates, including debt service on the bonds.

**K. Litigation**

A class action suit has been brought against the State, alleging that the State has failed to provide services to individuals with mental retardation and other developmental disabilities, which they are entitled to under Medicaid. Presently the State limits the number of individuals served under the Home and Community-Based Services Waiver and the plaintiffs assert that this is a violation of the Medicaid Act.

The small school systems in the State have previously filed suit against the State challenging the constitutionality of the funding formula for elementary and secondary education. In declaring the State's K-12 Better Education Program and its funding formula constitutional, the State Supreme Court also stated that the State must equalize teachers' salaries according to the BEP formula. In response, the General Assembly enacted the Teachers Salary Equity Plan, which plaintiff small school systems have challenged as inadequate. The Supreme Court ruled in the plaintiffs' favor and the Legislature must now address this issue.

A lawsuit has been filed which challenges the constitutionality of certain deductions used in the calculation of the franchise tax base, as being a violation of the interstate commerce clause. Should the State lose this case, the State could be exposed to significant refunds of franchise tax collections.

The State is also party to numerous other legal proceedings, many of which normally recur in governmental operations. Some of these lawsuits, including the three enumerated above may have a future budgetary programmatic impact, they will be addressed in future budgets.

**STATE OF TENNESSEE**  
**NOTES TO THE FINANCIAL STATEMENTS (Continued)**  
**JUNE 30, 2003**

**L. Federal grants**

The State receives significant financial assistance from the federal government in the form of grants and entitlements. The receipt of federal grants is generally conditioned upon compliance with terms and conditions of the grant agreements and applicable federal regulations. Substantially, all federal grants are subject to either federal single audits or financial and compliance audits by grantor agencies or their representatives. Questioned costs as a result of these audits may become disallowances after the appropriate review of federal agencies. Material disallowances are recognized as fund liabilities when the loss becomes probable and reasonably estimable.

The Centers for Medicare and Medicaid Services (CMS), formerly the Health Care Financing Administration (HCFA) performed a review of the provider taxes collected for the period beginning fiscal year 1992 through September 2000. The purpose of the review was to determine whether there was a positive correlation between the nursing home provider taxes and a state grant program for private pay patients of nursing homes (Grant Assistance Program). Because CMS believes there is a positive correlation between the nursing home provider taxes and the nursing home grant assistance program, it concluded that the provider taxes are impermissible resulting in a reduction in federal financial participation. On January 19, 2001, the State received a notice of disallowance for this tax for the period October 1, 1992 through September 30, 2000. On February 16, 2001, the State appealed the disallowance. On June 11, 2001, the State received a second notice of disallowance for the period October 1, 2000 through March 31, 2001. On July 6, 2001, the State appealed the second disallowance and the two disallowances have been consolidated for appeal. If the disallowances were ultimately upheld, then CMS would offset the disallowed amounts against future federal participation in TennCare. The State eliminated the Grant Assistance Program effective August 1, 2001, and does not believe that the collection of provider taxes after that date will be challenged by CMS.

Other audits of the Medical Assistance Program (TennCare) have resulted in significant amounts of known and likely questioned costs that could be determined to be disallowances by the U.S. Department of Health and Human Services (HHS). These questioned costs relate to expenditure of resources for ineligible TennCare enrollees and for unauthorized services. The ultimate liability to the federal government, if any, cannot presently be determined. If HHS were to impose a liability, the State would appeal the decision.

**M. Subsequent events**

Primary Government

Subsequent to June 30, the State issued \$20 million in general obligation commercial paper. Also, the State issued 2003A series tax exempt bonds in the amount of \$151.855 million and 2003B series taxable bonds in the amount of \$22.18 million in August.

Component Units

Subsequent to June 30, Tennessee Housing Development Authority (THDA) issued \$60 million of revenue bonds in July 2003, \$191.885 million of revenue bonds in September 2003, and \$75 million of revenue bonds in October 2003. THDA called revenue bonds in the amount of \$341.603 million through November. Also, in July the agency drew \$190.465 million of Series 2002CN-1 Notes, in August, the agency drew \$27.070 million of Series 2002CN-1 Notes, and in November, the agency drew \$89.355 million of 2002CN-1 Notes.

Subsequent to June 30, the Tennessee State School Bond Authority issued \$17 million in commercial paper.

State of Tennessee  
Required Supplementary Information  
Reconciliation of Budget to GAAP  
Note to RSI  
For the Fiscal Year Ended June 30, 2003

Explanation of differences between budgetary inflows and outflows and GAAP revenues and expenditures

	<u>General Fund</u>	<u>Education Fund</u>	<u>Highway Fund</u>
<b>Sources of financial resources</b>			
Actual amounts (budgetary basis)	\$ 13,667,924	\$ 4,469,428	\$ 1,876,054
<b>Differences - budget to GAAP:</b>			
The fund balance at the beginning of the fiscal year is a budgetary resource but is not a current-year revenue for financial statement purposes.	(631,541)	(41,706)	(259,252)
Transfers from other funds are inflows of budgetary resources, but are not revenues for financial statement purposes.	<u>(31,250)</u>	<u>(511,220)</u>	<u>(77,000)</u>
Total revenues as reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds	<u>\$ 13,005,133</u>	<u>\$ 3,916,502</u>	<u>\$ 1,539,802</u>
<b>Uses of financial resources</b>			
Actual amounts (budgetary basis)	\$ 12,986,275	\$ 4,425,449	\$ 1,869,481
<b>Differences - budget to GAAP:</b>			
Encumbrances for supplies, equipment, and construction are reported in the year the order is placed for budgetary purposes, but in the year the goods or services are received for financial reporting purposes.	(7,273)	0	(199,928)
Transfers to other funds are outflows of budgetary resources, but are not expenditures for financial statement purposes.	<u>(594,548)</u>	<u>(1,016)</u>	<u>(31,142)</u>
Total expenditures as reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds	<u>\$ 12,384,454</u>	<u>\$ 4,424,433</u>	<u>\$ 1,638,411</u>

**STATE OF TENNESSEE**  
**REQUIRED SUPPLEMENTARY INFORMATION (RSI)**  
**Infrastructure Assets Reported Using the Modified Approach**

**ROADWAYS**

Measurement Scale

The state uses a Maintenance Rating Index (MRI) that addresses all elements of the roadway system. A statistical sample of randomly selected highway segments, representative of the entire subsystem, are inspected annually and rated in accordance with the MRI criteria. (For the year ended June 30, 2003, 6,691 segments were inspected.) The following elements are rated: traveled pavement; shoulders; various roadside elements such as debris, grass height, slope erosion, and fencing; drainage elements such as culverts, cross drain pipes, and drain inlets; and traffic services such as signage, pavement markings, and guardrails. The MRI is a numerical score from 1 to 100, with 100 being a perfect score. The average MRI of all the rated segments is the reported condition level.

Established Condition Level

The state intends to maintain roadways so that the reported condition level each year does not fall below 75.

Assessed Conditions

The condition assessment for roadways for the year ended June 30, 2003 was 90.41 and 87.75 for the year ended June 30, 2002.

**BRIDGES**

Measurement Scale

The state maintains information on its 8,030 bridges in compliance with the National Bridge Inventory (NBI) guidelines established by the Federal Highway Administration. Bridges are inspected at least once every two years and the results are coded on a 0 to 9 scale (with 9 being the most desirable). A bridge coded 4 or less for its deck, superstructure, or substructure, or coded 2 or less for its structural evaluation or waterway adequacy is classified as “structurally deficient.” A structurally deficient bridge is inadequate to carry legal loads, whether caused by structural deterioration, obsolete design standards, or an insufficient waterway opening. A bridge coded 3 or less for its structural evaluation, deck geometry, vertical or horizontal underclearance, water adequacy, or approach roadway alignment is classified as “functionally obsolete.” A functionally obsolete bridge cannot properly accommodate the current traffic.

Established Condition Level

The state intends to maintain bridges so that 75 percent or more of the total deck area is not classified as structurally deficient or functionally obsolete.

Assessed Conditions

The following table presents the percentage of deck area whose condition assessment did not meet the criteria of structurally deficient or functionally obsolete according to the NBI.

<u>For the Two-Year Period Ended</u>	<u>Percentage of Deck Area Not Structurally Deficient or Functionally Obsolete</u>
June 30, 2002	79.86%
June 30, 2000	82.35%
June 30, 1998	79.39%

**ESTIMATED AND ACTUAL COSTS TO MAINTAIN**

The following table presents the state’s estimate of spending to preserve and maintain the roadways and bridges at, or above, the “Established Condition Level” cited above, and the actual amount spent (in thousands):

<u>For the Period Ended</u>		<u>Roadways</u>	<u>Bridges</u>
June 30, 2003	Estimated	\$ 289,516	\$ 28,787
	Actual	\$ 285,459	\$ 39,557
June 30, 2002	Estimated	\$ 290,583	\$ 28,830
	Actual	\$ 278,683	\$ 20,527

Actual and estimated maintenance/preservation expenses are determined using the accrual basis of accounting. Additional years will be reported when data is available.

## NONMAJOR GOVERNMENTAL FUNDS

---

Special Revenue Funds – A description of these funds is found later in this section.

Debt Service Fund - The Debt Service Fund is maintained to account for accumulation of resources for, and the payment of, principal and interest on general long-term debt.

Capital Projects Fund – The Capital Projects Fund is maintained to account for the acquisition or construction of major governmental general fixed assets financed principally by long-term bonds.

Permanent Funds – Description of these funds is found later in this section.

# NONMAJOR SPECIAL REVENUE FUNDS

---

**Specific revenues, earmarked to finance particular activities of government, are accounted for in the Special Revenue Funds. A brief description of each fund follows.**

Wildlife Resources Agency - This agency is responsible for the preservation, management, enhancement and protection of the state's wildlife resources and their environs. An additional responsibility is the enforcement of boating safety on state lakes and streams. Revenues are derived principally from hunting and fishing licenses, fees and permits.

Criminal Injuries Compensation - The Treasury Department administers this fund for the award of compensation to victims (or their dependents) who suffer personal injury or death as a result of a criminal act. The primary revenue source is the privilege tax levied by the courts at the time of conviction of the offender.

Solid Waste - This program is administered by the Department of Environment and Conservation. Revenues collected for a tipping fee on solid waste are used to provide grants to local governments to reduce the solid waste going into landfills.

Job Skills - This program is administered by the Department of Economic and Community Development. Revenues are collected from a tax on employer's wages. The revenues will be used to enhance employment opportunities and to meet the needs of existing and new industries in the state.

Environmental Protection - This program is administered by the Department of Environment and Conservation. Revenues collected from the various fees under the environmental protection fund are used to offset the cost of administering regulatory environmental programs.

Hazardous Waste - This program is administered by the Department of Environment and Conservation. Revenues collected from applicants and holders of storage, treatment or disposal permits of hazardous waste are used to supervise the construction, operation, maintenance, closure and, where necessary, the post-closure care of hazardous waste facilities.

Parks Acquisition - This program is administered jointly by the Departments of Environment and Conservation, Agriculture and Wildlife Resources. Revenues collected from the transfer of real property are used to acquire parks by both local and state governments.

Supreme Court Boards - This organization was formed by the Tennessee Supreme Court to consider and investigate any alleged ground for discipline or alleged incapacity of any attorney, and to provide continuing legal education for attorneys. Revenues are collected from attorneys.

Underground Storage Tanks - This program is administered by the Department of Environment and Conservation. Revenues are collected primarily from a tax of four tenths of a cent per gallon on petroleum products and an annual fee on owners and operators of underground storage tanks containing petroleum substances.

Enhanced Emergency 911 Service - This program is administered by the Department of Commerce and Insurance. Revenues are collected from a monthly fee on users of cellular telephone services. This fee is used to enhance the effectiveness of response times when a cellular user calls 911.

Community Development - This fund is used to account for the federal monies received under the Community Development Block Grant Program.

Driver Education - This program is designed and coordinated by the Department of Safety. Highway safety is promoted by providing driver education, instruction and training in schools, colleges and community organizations. The \$2 fee for moving traffic violations is the source of funding for this program.

Abandoned Land Program - This program is administered by the Department of Environment and Conservation. Revenues collected from surface mining permit fees and forfeited performance bonds are used to reclaim and restore lands affected by abandoned mining operations.

Agricultural Non-Point Water Pollution - This program is administered by the Department of Agriculture. Revenues collected from the transfer of real property are used to abate pollution from agricultural sources.

Regulatory Boards - This program is administered by the Department of Commerce and Insurance. Revenues are collected from fees assessed on licenses to real estate brokers, affiliate real estate brokers or auctioneers. These revenues are used to pay court judgments for violations by brokers, contractors or auctioneers of the applicable acts or of any rules promulgated by the appropriate officials.

Salvage Title Enforcement - This program is administered by the Department of Safety. Revenues are collected on the titlement of salvage vehicles and are used to enforce motor vehicle title and salvage laws and inspection of rebuilt vehicles.

Dairy Promotion Board - This Board was formed to promote the consumption of milk and milk products. Revenue is derived from an assessment against commercial milk and milk product producers.

Drycleaner's Environmental Response - This program is administered by the Department of Environment and Conservation. Revenues collected from drycleaners are an annual registration fee and a fee for the various drycleaning solvents used.

Agricultural Regulatory Fund - This program is administered by the Department of Agriculture. Revenues are collected from fees on the various agricultural related industries regulated by the department. These fees are then used in the administration of this regulatory function.

Tennessee Regulatory Authority - The authority is responsible for executing and enforcing all statutes governing utilities. Revenues are derived principally from inspection and supervision fees.

Small and Minority Telecommunication - This program provides loan guarantees and technical assistance to small and minority-owned telecommunication companies. Revenues collected during fiscal years 1997-2001, were derived from a fee on telecommunication service providers.

Sex Offender Treatment Program - This program was formed to standardize the evaluation, identification, treatment and continued monitoring of sex offenders. Revenue is derived from a fine on those convicted of a sex offense.

Fraud and Economic Crime - This program is administered by the District Attorneys General of the State. Revenues are collected from individuals prosecuted for bad checks. These monies are used to increase resources available to prosecute bad check cases.

## PERMANENT FUNDS

---

Chairs of Excellence Fund – This fund was created by the General Assembly in 1986. Its purpose is to endow faculty chairs at the Tennessee Board of Regents and University of Tennessee campuses in order to attract more highly qualified professors. For a chair to be established, private contributions which a school collects are matched by monies the state has appropriated to fund this program. The chair also receives the interest earned from investment of these matched monies.

Academic Scholars Fund – This fund is used to account for the academic scholars program administered by Tennessee Student Assistance Corporation. An endowment was established in 1986 to provide scholarships to superior students from the interest earnings.

Other – Various smaller funds that are legally restricted to the extent that only earnings, not principal can be spent.

# NONMAJOR ENTERPRISE FUNDS

---

**The Enterprise Funds are used to account for the operations of state agencies that provide goods or services to the general public on a user charge basis. The state's nonmajor enterprise operations are described below.**

State Loan Program - Operated since the early 1970's through the Department of Environment and Conservation, this program has provided financial assistance to local governments and utility districts for the construction of sewage treatment, solid waste recovery and waterworks facilities. In order for these borrowing entities to generate funds necessary to repay the loans, the imposition of a user's fee by the local systems was authorized. In order to finance this program, general obligation bonds were sold which, although remaining full faith and credit obligations of the state, are being retired from resources of this fund. Future financing for this program will be generated from the sale of revenue bonds or notes by the Local Development Authority.

Energy Loan Program - Created in 1988, this program makes loans to small businesses and local governments to improve energy efficiency.

Teacher Group Insurance - Established in January 1986, this fund is used to account for revenues received and claims paid on behalf of teachers of political subdivisions of the state who have elected coverage under a group medical plan similar to that offered state employees.

Local Government Group Insurance - Established in July 1991, this fund is used to account for revenues received and claims paid on behalf of employees of local governments and quasi-governmental organizations established for the primary purpose of providing services for or on the behalf of state and local governments. This plan is similar to the plan offered to state employees.

Drinking Water Loan – Created in 1998, this fund provides loans to local governments and utility districts for the improvement of drinking water systems. The initial sources of the monies are federal grants and state appropriations.

Grain Indemnity - This program is administered by the Department of Agriculture. Revenues are collected from fees on grain sold by producers. These revenues are to be used to protect commodity producers in the event of the financial failure of a commodity dealer or warehouseman.

Property Utilization, a division of the Department of General Services - This agency receives surplus federal property and redistributes it to civil defense units, health and educational institutions and other eligible donees within the state. The agency collects fees from the donees to offset operating costs. In addition, this agency handles surplus property by the various State agencies.

Medicare Supplement Insurance – Established in January 2001, this fund is used to account for revenues received and claims paid on behalf of retirees who are eligible for medicare coverage and elect coverage under the Medicare Supplement Insurance Plan.

Client Protection – This fund was created by the Tennessee Supreme Court to protect clients from dishonest conduct by attorneys. Revenue is mainly generated through annual registration fees for attorneys.

# INTERNAL SERVICE FUNDS

---

**Internal Service Funds are used to account for the operations of state agencies that provide goods or services to other state agencies on a cost-reimbursement basis. The following operations are included in these funds:**

Office for Information Resources, a division of the Department of Finance and Administration - This division functions as the data and voice service bureau for state government.

Claims Award - This fund was created in 1985 to pay awards for claims made against the state once validity of the claims has been determined by the Tennessee Claims Commission.

Motor Vehicle Management, a division of the Department of General Services - This division is responsible for administering a uniform program for the operation and maintenance of all state vehicles.

General Services Printing, a division of the Department of General Services - This agency operates a printing facility to provide such services as general printing, typesetting and binding for state agencies located in Nashville. In addition, this division provides photographic services to the various state agencies.

Facilities Revolving Fund - This fund was created in 1989 to provide for the maintenance, repair and total housing needs of state government. This fund was phased in. The first year it included only downtown Nashville office space. In fiscal year 90-91, the fund expanded to include all office and warehouse space in Davidson, Knox, Madison, Shelby, Washington, Hamilton, and Sullivan counties. In fiscal year 91-92, the fund encompassed all office and warehouse space in the state, except institutional space.

Employee Group Insurance Fund - Established in January 1978, this fund is used to account for transactions pertaining to the state's self-insured group medical plan. Prior to 1978, medical insurance was provided by a private carrier. Group life and accident insurance premiums paid to a private insurance company are also recorded in this fund.

Food Services, a division of the Department of General Services - This division is responsible for the preparation and distribution of certain food to the various state institutions. This consists of food that is cooked and then immediately frozen and is then reheated at the institution.

Postal Services, a division of the Department of General Services - This agency processes and distributes incoming, outgoing and interdepartmental mail for state agencies located in Nashville.

Capitol Print Shop, a division of the Office of the Comptroller - This facility is responsible for providing printing, mailing and other office services for the state agencies located in the Capitol.

Purchasing, a division of the Department of General Services - This agency is responsible for the procurement of supplies, equipment and certain specialized services.

Central Stores, a division of the Department of General Services - This agency is responsible for the purchasing and distribution of office supplies to all state government and quasi-governmental entities that opt to use this service.

Records Management, a division of the Department of General Services - This division is responsible for the retention and disposal of official records.

Division of Accounts, a division of the Department of Finance and Administration - This division is responsible for the centralized accounting function for the state.

TRICOR - Tennessee Rehabilitative Initiative in Correction manages correctional industry, agriculture, and service operations. Its purpose is to employ and train inmates and provide products and services to state agencies, local governments, and not-for profit organizations.

# FIDUCIARY FUNDS

---

**The Fiduciary Funds are used to account for assets held by the state in a fiduciary capacity.**

Pension and Other Employee Benefit Trust:

Pension Trust Fund - The Tennessee Consolidated Retirement System was established in July 1972 superseding seven former retirement systems. The accounts of each superseded system were transferred to the new system wherein separate accounting is maintained for assets and liabilities attributable to the various classes of members and beneficiaries. Benefits under the system are funded by contributions of members and employers. Effective July 1981, contributions of up to 5% of the retirement credible compensation of most classes of state employees, formerly paid by those employees, were assumed by the state pursuant to non-contributory legislation. The level of contributions is determined by actuarial valuation, the latest having been performed as of July 1, 2001. As of that date there were 194,725 active members and 77,742 retired members representing a 3.5% and 8.5% increase, respectively, since the previous actuarial valuation in 1999.

Employee Flexible Benefits - Established in January 1988, this fund is used to account for monies contributed by employees under the IRC Section 125 cafeteria plan.

Private-Purpose Trust Funds:

Baccalaureate Education - This trust was created by the General Assembly in 1996, for the purpose of allowing parents and other interested persons to purchase tuition units on behalf of a designated beneficiary. These units entitle the beneficiary to the payment of qualified tuition, room and board, fees, costs of books, supplies and equipment required for the enrollment or attendance at any accredited public or private, in-state or out-of-state institution.

Children in State Custody - This fund accounts for monies held and used for the benefit of children in the custody of the state. Monies held are from various sources including the Social Security Administration.

Oak Ridge Monitoring - Created in 2000 through a consent order won by the state with the United States Department of Energy (DOE), this fund is used to account for monies paid annually through fiscal year 2014 by the federal government to the state for future expenses at the Environmental Management Waste Management Facility at Oak Ridge. After the federal landfill is closed, the income generated from the corpus is to be used for monitoring and maintenance of the facility to ensure there is no radioactive leakage.

Duck River Water Supply - This fund accounts for monies received from the Tennessee Valley Authority to be held for the various Duck River utility districts.

Other - Other trust arrangements under which the principal and income benefit individuals or private organizations.

Agency Funds:

Local Government Fund - The purpose of the Local Government Fund is to serve as a clearing mechanism for state-shared taxes and other funds distributed to the various counties and cities of the state.

Contingent Revenue Fund - This fund is used to account for refundable deposits and other receipts held in trust until the state has the right to transfer them to operating funds or until there is proper authorization to disburse them directly to others.

# COMPONENT UNITS

---

Tennessee Student Assistance Corporation - This fund is used to account for the guaranteed loans program administered by Tennessee Student Assistance Corporation (TSAC).

Community Services Agencies - In 1989, the Legislature created twelve Community Services Agencies which are to provide a mechanism to coordinate health care for indigents. In 1996, the title and focus of these agencies changed to that of facilitating the providing of services to children and other citizens from state agencies. The State has significant oversight responsibilities for these agencies, therefore, they have been incorporated into the Comprehensive Annual Financial Report. The twelve Community Services Agencies are:

Northeast Community Services Agency  
East Tennessee Community Services Agency  
Upper Cumberland Community Services Agency  
Southeast Community Services Agency  
Mid-Cumberland Community Services Agency  
South Central Community Services Agency  
Northwest Community Services Agency  
Southwest Community Services Agency  
Davidson County Community Services Agency  
Knox County Community Services Agency  
Shelby County Community Services Agency  
Hamilton County Community Services Agency

Housing Development Agency - Created by the legislature in 1973, the purpose of this agency is to improve the quality of housing available to lower and moderate income Tennesseans. This objective is accomplished in part by (1) making funds available for loans for residential construction or rehabilitation, (2) making or participating in the making of insured mortgage loans and (3) purchasing existing mortgages from lending institutions. These programs are funded primarily from the sale of revenue bonds or notes.

Tennessee Board of Regents - The Tennessee University and Community College System was created by the General Assembly in 1972. Its member institutions (six universities, thirteen community colleges, and twenty-seven technology centers) serve the state and its citizenry by providing education opportunities, research, continuing education and public activities. As a system, the institutions span the state and operate as a coordinated network of public education with each campus offering unique characteristics and services. The system consists of the following institutions:

## UNIVERSITIES

Austin Peay State University	Clarksville
East Tennessee State University	Johnson City
Middle Tennessee State University	Murfreesboro
Tennessee State University	Nashville
Tennessee Technological University	Cookeville
University of Memphis	Memphis

## COMMUNITY COLLEGES

Chattanooga State Technical Community College	Chattanooga
Cleveland State Community College	Cleveland
Columbia State Community College	Columbia
Dyersburg State Community College	Dyersburg
Jackson State Community College	Jackson
Motlow State Community College	Tullahoma
Nashville State Technical Community College	Nashville
Northeast State Technical Community College	Blountville
Pellissippi State Technical Community College	Knoxville
Roane State Community College	Harriman
Southwest Tennessee Community College	Memphis
Volunteer State Community College	Gallatin
Walters State Community College	Morristown

## TECHNOLOGY CENTERS

Athens	McKenzie
Chattanooga	McMinnville
Covington	Memphis
Crossville	Morristown
Crump	Murfreesboro
Dickson	Nashville
Elizabethton	Newbern
Harriman	Oneida
Hartsville	Paris
Hohenwald	Pulaski
Jacksboro	Ripley
Jackson	Shelbyville
Knoxville	Whiteville
Livingston	

The purpose of the technology centers is to provide occupational and technical training for current and future employees of existing and prospective industries and businesses of this state.

The University of Tennessee Board of Trustees - The University of Tennessee was first established in 1794 by the Legislature of the Federal Territory. Since that time, it has grown into an institution of twenty-four different colleges and schools. The locations of its four primary campuses, various experimental stations and extension services have made the university state-wide in physical presence as well as in services. The main campus is located in Knoxville. The other primary campuses are located in Memphis, Martin and Chattanooga.

Local Development Authority - This authority was created in 1978 for the purpose of providing to local governments, through the issuing of revenue bonds or notes, the financing assistance previously provided by the State Loan Program. The Authority has also issued bonds to assist non-profit corporations in the construction of mental health, mental retardation, or alcohol and drug facilities. In addition, the Authority may assist small business concerns in financing pollution control facilities, farmers in financing certain capital improvements and airport authorities and municipal airports in financing improvements.

Veterans' Homes Board - Created in 1988, the primary purpose of the homes is to provide support and care for honorably discharged veterans of the United States Armed Forces. The revenue sources are the Veterans' Administration, Medicaid, and a user fee.

Child Care Facilities - This organization was formed to create new child care slots in Tennessee by guaranteeing loans, making direct loans, and making grants. The sources of revenues are interest on loans made and grants from the federal government.

Tennessee State School Bond Authority (TSSBA) - Established in 1965, the TSSBA provides a mechanism for financing building projects for the state's universities. Agreements are executed between the governing boards of the institutions and the TSSBA, and revenue bonds are issued using the constructed facilities as collateral. Charges levied on the universities provide the funds necessary for payment of principal and interest on bonds. In addition, the Authority issues Qualified Zone Academy Bonds, which are part of a federal government program to finance loans to qualifying K-12 schools in the state.

Certified Cotton Growers' Organization - This organization was formed to aid in the eradication of the boll weevil. Revenues are collected from assessments on cotton growers and from state appropriations.

STATE OF TENNESSEE  
DESCRIPTION OF TAX SOURCES  
ALL GOVERNMENTAL FUND TYPES  
JUNE 30, 2003

Presented below is a brief description of the state's principal tax sources as shown in the preceding table.

**SALES AND USE TAX** – The retail sales and use tax, imposed in 1947, is the state's leading source of revenue. The current rate of 7.0% on most non-food items was made effective July 15, 2002. The rate on food remains at 6%. There is an additional tax of 2.75% on the sale or use of any single article on the amount in excess of \$1,600 up to \$3,200. The tax is applied to the sale, use, consumption, distribution, lease or rental of tangible personal property and certain services and, effective June 1, 1985, was extended to include most admission and amusement charges. Political subdivisions, governmental agencies, charitable and religious groups, non-profit organizations and certain items of tangible personal property, including prescription drugs, are exempt.

**SERVICES TAX** – The services tax was enacted as of July 1, 1992. Vendors are taxed at a rate of 6.75% for services provided such as repairs to equipment, installation of equipment and certain other specific services. This act repeals the state and local use tax on services and amusements as well as exempting certain services from the tax altogether. The services tax expired December 31, 1993.

**GASOLINE TAX** – The gasoline tax was first enacted in 1923. The tax was increased to 20 cents per gallon on July 1, 1989, and is charged on each gallon of gasoline or distillate refined, manufactured, sold, stored or distributed in Tennessee, as well as gasoline or distillate imported into the state. Refunds are granted on gasoline used for agricultural purposes, while political subdivisions and governmental agencies are exempt.

**MOTOR FUEL TAX** – The motor fuel tax was enacted in 1941. The tax was imposed on the sale of diesel fuel and as of April 1, 1990 the current rate is 17 cents per gallon. Effective July 1, 1984, a tax was levied on motor vehicles powered by liquified gas at rates ranging from \$70 for passenger cars to \$114 for the largest trucks. Owners of commercial vehicles may be charged additional tax based on number of miles driven in Tennessee. Effective April 1, 1989, out of state residents are taxed at a rate of 14 cents per gallon of liquified gas.

**SPECIAL PETROLEUM PRODUCTS TAX** – The special Petroleum Products Tax (formerly Gasoline Inspection Fee) was first enacted in 1899 for the purpose of assuring that gasoline and oil sold in the state met certain minimum standards. The rate was 1 cent per gallon in 1989 and went to 1.4 cents per gallon on May 1, 1990 on volatile substances having certain gravity levels which are produced from petroleum, natural gas, oil shales, or coal.

**INCOME TAX** – Although Tennessee does not levy a general personal income tax, income derived from dividends and interest on stocks and bonds has been subject to tax since 1929. The tax rate is 6% on dividends from stocks, and interest on bonds, subject to an exemption of \$1,250 for individuals and \$2,500 for joint tax returns. Blind persons, pension trusts, profit-sharing trusts and qualifying low income persons 65 years of age or older are exempt from the tax.

**PRIVILEGE TAX** – The first state privilege tax in Tennessee was levied in 1799. During the ensuing 150 years, 132 business activities were made subject to the tax. Virtually all of these business-related privilege taxes were abolished in 1971 and re-enacted as part of other taxes. Currently, the privilege tax base is provided from litigation taxes, realty transfer, mortgage taxes, marriage license fees, professional taxes, tire taxes, auto rental taxes, bail bond fees, and auto oil tax.

**GROSS RECEIPTS TAXES** – There have been numerous additions, deletions and alterations in the group of taxable privileges comprising the gross receipts tax since it was first imposed in 1937. Currently, the tax covers bottlers, mixing bars, utilities, and firearms. TVA payments "in lieu of taxes" based on power sales in Tennessee make up over 85% of collections.

**ALCOHOLIC BEVERAGE TAX** – The alcoholic beverage tax was enacted in 1939, authorizing the sale of alcoholic beverages in counties and municipalities in Tennessee if approved by local referendum. It provided for a system of state licensing fees and established a gallonage tax on wines and liquors sold in the state. Currently, the tax is levied at the rate of \$4.40 per gallon on distilled spirits and \$1.21 per gallon on wines, with additional fees for regulatory purposes and for the issuance of licenses and permits.

**FRANCHISE TAX** – The franchise tax, first collected in 1937, imposes an annual tax for the privilege of engaging in business in the form of a corporation, Limited Liability Corporation and Limited Liability Partnership in the state. The tax is levied at the rate of 25% of the greater of net worth or real and tangible property on domestic and foreign corporations operating in Tennessee.

**EXCISE TAX** – The excise tax originated in 1923 and has always been a major revenue source. The tax is presently applied at the rate of 6.5% on annual net earnings from business corporations, co-operatives conducted for profit, joint stock associations, business trusts, state banks, national banks and savings and loan associations.

**INHERITANCE, ESTATE AND GIFT TAXES** – The inheritance tax was first enacted in 1891. Originally, the tax was applicable only to property going to collateral heirs, but was extended to direct heirs in 1909. The tax applies to all property, real and personal, with certain exemptions.

**TOBACCO TAXES** – Tobacco taxes were first levied in 1925. The present tax equates to 20 cents per pack of 20 cigarettes and 6.6% of the wholesale cost for all other tobacco products.

**INSURANCE COMPANY PREMIUM TAX** – This tax, first enacted in 1945, is applied to gross premiums paid by or for policyholders residing in this state or on property located in the state. The rate is 1.75% for domestic life insurance companies, 2% for foreign life insurance companies, 2.5% for property and casualty insurance companies and 4% for workers compensation premiums.

**MEDICAID PROVIDER TAX** – The Hospital Medicaid Provider Tax has been in effect since July 1, 1989. The tax is directly proportional to the hospital's Medicaid utilization rate, low income utilization rate, or large volume of Medicaid days per year. The Nursing Home Medicaid Provider Tax, which has been in effect since July 1, 1990, is based on the number of licensed beds physically located in the state.

State of Tennessee  
Economic Characteristics\*

Tennessee's Economic Growth

The economic future for Tennessee remains bright. Characteristics of the state which have been identified as important reasons why firms have chosen Tennessee sites include work-force related factors such as worker productivity, right-to-work laws and low unionization, as well as access to markets and pro-business attitude of the state. Other factors include relatively inexpensive energy, plentiful natural resources and sun-belt location. Tennessee's gross state product as a percentage of gross domestic product was unchanged from 1.80% in 1993 and 1.80% in 2002, and personal income was 1.79% in 1993 and 1.79% in 2002.

## Manufacturing

Manufacturing investment in Tennessee totaled \$3.7 billion in 2002, marking the twentieth consecutive billion dollar year for the state. The combined new plant and expansion projects announced are expected to create 15,443 new job opportunities. The tables which follow indicate the state's manufacturing gross product, employment and industrial expansion.
