

# PARTNERS FOR HEALTH

## State Group Insurance Program Tennessee Hospital List

Hospitals participate in BCBS and Cigna networks subject to agreements with those insurance carriers. This document is a valid list of participating hospitals as of the published date but should only be used as a resource to compare hospital participation across networks. Contact your insurance carrier or search for providers through the carrier’s website in real time to verify a hospital’s participation in your network prior to receiving care. In case of a medical emergency, seek care at the nearest hospital.

**Network News** - For information on network terminations and additions, visit the “**Network News**” section on the Partners For Health website. Look under the **Health Options** tab and [Carrier Information](#).

### Instructions for Use

- **The Table of Contents** lists counties with hospitals participating in one or more networks.
- **Pages 1-12** list hospitals by county and note the city where the hospital is located. Clicking on [Back to Table of Contents](#) at the bottom of these pages will take you back to the county list.

Four network columns at the top of each page identify the networks. The narrow networks BCBS Network S and Cigna LP Network have lower monthly premiums than the broad networks, BCBS Network P and Cigna OAP Network.

If a hospital row shows “In”, the hospital is **in-network** for the network identified in the shaded row above within the same column.

If a hospital row shows “Out”, the hospital is **out-of-network** for the network identified in the shaded row above within the same column.

Narrow Networks Lower Monthly Premiums		Broad Networks Higher Monthly Premiums**

Out	Out	In	In

- **You have different options to search for content like a specific hospital, county or city.**
  - Click on a county name in the Table of Contents to see hospital listings for that county; or
  - Click on the magnifying glass icon to open a pop-up window and type the word(s) you want to search for. If your search highlights multiple references, you can navigate from one reference to another by clicking on the up and down symbols in the search window or by pressing the “enter” key on your keyboard; or
  - You can simply scroll through the document

\*Hospitals participate in BCBS and Cigna networks subject to agreements with those insurance carriers. If an agreement is terminated, out-of-network benefits will apply to all medically necessary care other than emergency services. Maximum Allowable Charge is the most a plan will pay for a covered service. For nonemergent care from an out-of-network provider who charges more than the MAC, members pay the copay or coinsurance PLUS the difference between MAC and actual charge, unless otherwise specified by state or federal law. A hospital leaving a network is not a qualifying event and does not allow members to make coverage changes. REMEMBER: Network level benefits are available for medically necessary emergency care. In case of a medical emergency, members should seek care at the nearest hospital. This list is valid as of the published date but should only be used as a resource to compare hospital participation across networks. Contact your insurance carrier or search for providers through the carrier's website in real time to verify a hospital's participation in your network at the time of service.

\*\*Monthly premiums for the broad networks are \$65 more for the employee only and employee + child(ren) coverage levels and \$130 more for the employee + spouse and employee + spouse + child(ren) coverage levels.

If an agreement is terminated, out-of-network benefits will apply to all medically necessary care other than emergency services. Maximum Allowable Charge is the most a plan will pay for a covered service. For nonemergent care from an out-of-network provider who charges more than the MAC, members pay the copay or coinsurance PLUS the difference between MAC and actual charge, unless otherwise specified by state or federal law. A hospital leaving a network is not a qualifying event and does not allow members to make coverage changes. REMEMBER: Network level benefits are available for medically necessary emergency care. In case of a medical emergency, members should seek care at the nearest hospital. This list is valid as of the published date but should only be used as a resource to compare hospital participation across networks. Contact your insurance carrier or search for providers through the carrier's website in real time to verify a hospital's participation in your network at the time of service.

\*\*Monthly premiums for the broad networks are \$65 more for the employee only and employee + child(ren) coverage levels and \$130 more for the employee + spouse and employee + spouse + child(ren) coverage levels.
