

Clearing History/Cache in

- Click the three lines in the top right corner of the browser:

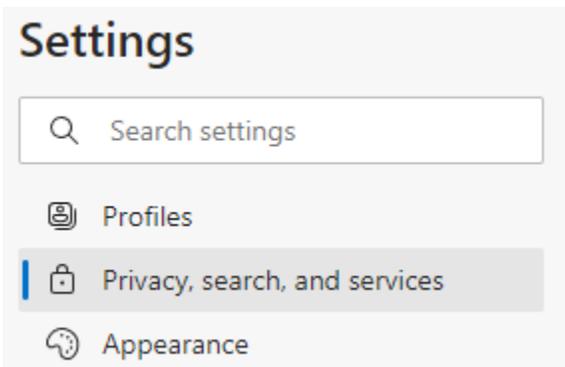

- Click on *Settings*

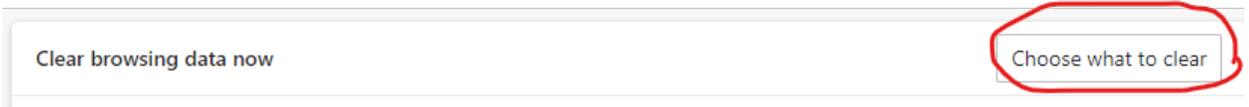

This will open a tab in the browser.

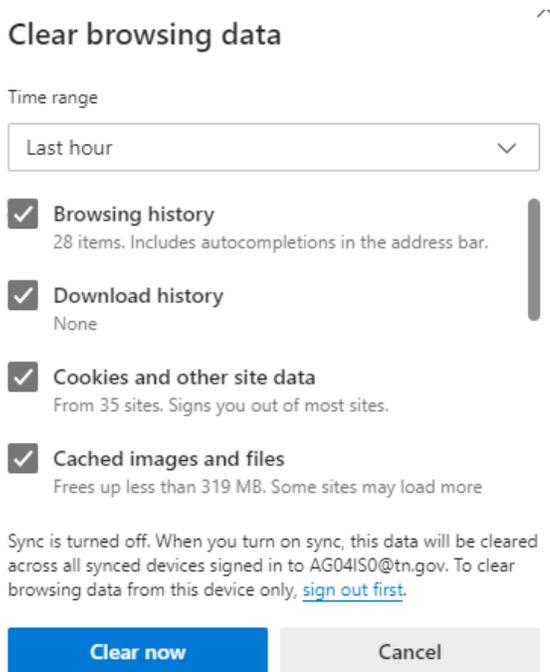

- In the menu on the left, click *Privacy, search, and services*:

- In the middle of the page on the right, click *Choose what to clear* under **Clear browsing data**

- Select at least the top 4 options and click **Clear now**:

Alternatively, you can use the keyboard shortcut “Ctrl + Shift + Del” to skip the first three steps above.
