### **Dependent Care Reimbursement**

You can only spend what you have contributed to your Dependent Care account. For dependent care claims, you will need to file a paper claim with Optum for reimbursement. You can also set up your bank account information on the Optum [website](#) so that you can issue a payment directly from Optum to your dependent care provider. Or you can make a payment via your own personal check. You'll need to keep your provider's receipt for tax purposes and then deduct the funds from your dependent care FSA to go back into your bank account. Please keep copies of all receipts for IRS tax purposes or in case of audit.

### **Transportation and Parking FSA Reimbursement**

Please send all Transportation and Parking reimbursement requests to Benefits Administration (BA) for processing. You will need to use the form found on the Partners For Health [website](#) at the bottom of the **Forms** page under the heading **Flexible Benefits Reimbursement**.

Here is a direct link to the reimbursement form:

Fill it out and return it to BA by mail, fax or email by following the instructions on the form.
