QUESTION / COMMENT	STATE RESPONSE
Will the Government please provide detailed description of the expected pallets (dimensions, weight, commodities, etc.).	4ft. x 3ft. 4 inches, average of 867 lbs., paper products. Weight can fluctuate. A pallet can be 200 lbs on the low end and 3,000 lbs on the high end. It just depends on the orders we get. The 867 lbs was calculated from the volume of the last 12 months.
Will the Government please provide the historical volumes per year?	Last 12 months: 516 skids, 447,728lbs.
Will the Government please provide historical information on the expected lanes.  (Clarification to this Question: Will the Government please provide historical information on the expected lanes, in particular, destinations where shipments have been made to, the volume on those shipment lanes, and the respective pricing the agency has received on those lanes.)	Please see the Excel spreadsheet Exhibit A that is attached to this Questions and Comments Amendment. This is the most comprehensive data the State has compiled and is able to provide. This spreadsheet is only for the month of January 2020.
Who is the incumbent contractor? Will the Government be willing to provide bidders a copy of the current contract?	Contract documents can be requested through a Freedom of Information Act request at <a href="https://www.tn.gov/generalservices/about-dgs/public-records-requests.html">https://www.tn.gov/generalservices/about-dgs/public-records-requests.html</a>
