

Specifications: Seed for 2022-2023 Seedling Crop

- Seed must be collected from this year's 2021 crop.
- Seed must be clean and free of most debris.
- Seed must be packaged in sealed containers that are each labeled with the species and net weight of seed they contain.
- Maximum container weight shall not exceed 100 pounds.
- Although surface moisture need not be present upon delivery, acorns that are found to be overly dry will not be accepted.
- Seed must be collected from the "General Collection Area". The General Collection Area is defined as follows:
 - 1) Anywhere within the states of Tennessee or Kentucky.
 - 2) Anywhere within the northernmost 100 miles of Mississippi, Alabama and Georgia.
 - 3) Anywhere in the state of Arkansas north of a line that runs generally from the northern border of Little River County to the northern border of Drew County.
 - 4) Anywhere in southeastern Missouri.
 - 5) Anywhere not otherwise specified that is within 50 miles of the Tennessee border.
- Seed shall be delivered immediately after harvesting and processing. Damaged or non-viable seeds shall be removed prior to delivery. Seed that shows evidence of being damaged or decayed or otherwise appears to have poor viability will not be accepted.
- Prices shall be FOB destination.
- Seed shall be delivered to: East Tennessee Nursery
9063 Hwy. 411 South
Delano, TN 37325
