

STATE OF TENNESSEE  
DEPARTMENT OF ENVIRONMENT AND CONSERVATION

**INVITATION TO BID # 32701-13996  
AMENDMENT # 1  
FOR RED CLAY STATE HISTORIC PARK TRAIL  
REPAVING**

**DATE: SEPTEMBER 14, 2026**

**ITB # 32701-13996 IS AMENDED AS FOLLOWS:**

1. This ITB Schedule of Events updates and confirms scheduled ITB dates. Any event, time, or date containing revised or new text is highlighted.

| Event                      | Time        | Date      |
|----------------------------|-------------|-----------|
| Event Posted               | 8:00 am CT  | 8-27-2026 |
| Pre-Response Conference    | 11:00 am ET | 9-8-2026  |
| Questions and Comments Due | 2:00 pm CT  | 9-10-2026 |
| Bids Due                   | 2:00 pm CT  | 9-30-2026 |

2. State responses to questions and comments in the table below amend and clarify this ITB.

Any restatement of ITB text in the Question/Comment column shall NOT be construed as a change in the actual wording of the ITB document.

| ITB SECTION | PAGE # | QUESTION / COMMENT                                                                                                                                                   | STATE RESPONSE                                                                                             |
|-------------|--------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------|
|             |        | 1) If there are any Environmental Permits (TDEC, USACE, TVA, etc.), they are to be managed by the Government?                                                        | No permits are required.                                                                                   |
|             |        | 2) Any specific steel requirement or finishing required for the concrete work?                                                                                       | Yes, reinforced with 12-gauge welded wire. Finish shall be medium broom.                                   |
|             |        | 3) If subgrade fails to meet minimum compaction requirements and undercutting is required, is this considered a Change Order (CO) or to be estimated within the bid? | Change Order                                                                                               |
|             |        | 4) Are there any As-Built Drawings and or stamped Surveyed Drawings required for the undergrounds and or drainage system?                                            | No As-Built Drawings or stamped surveyed drawings are required for the underground and/or drainage system. |
|             |        | 5) Any erosion control required for this scope of work?                                                                                                              | Yes, erosion control is needed in the Blue Hole and wetland area.                                          |
|             |        | 6) Are there any reports, testing, and or information on the presence of lead-based products related to this Work?                                                   | There are no reports available.                                                                            |
|             |        | 7) Is SDVOSB classified as DBE under this Contract?                                                                                                                  | Yes.                                                                                                       |

| ITB SECTION | PAGE # | QUESTION / COMMENT                                                                                                                                                                                                                                                                                                                 | STATE RESPONSE                                                                        |
|-------------|--------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
|             |        | 8) Are there any DBE requirements for this Contract?                                                                                                                                                                                                                                                                               | No.                                                                                   |
|             |        | 9) Is there a complete, consolidated list of submittals required for this project?                                                                                                                                                                                                                                                 | None required.                                                                        |
|             |        | 10) Is full ADA requirements part of this Contract per DOJ and TDOT? We acknowledge the Specifications address some of the TDOT requirements: 48" min width, max running slope 5%, max cross slope 2%, no sudden grade changes. But some other TDOT requirements are clear zones, seating, signage/brail, etc..are these required? | Full ADA requirements are not part of this project.                                   |
|             |        | 11) Is any part of the Work required to be salvaged?                                                                                                                                                                                                                                                                               | Not required                                                                          |
|             |        | 12) Are there post landscaping requirements such as watering, maintenance, and or servicing required?                                                                                                                                                                                                                              | All post-landscaping requirements are listed in the specifications.                   |
|             |        | 13) Is there any Geotechnical Reporting data available for the area?                                                                                                                                                                                                                                                               | TDEC has no data available.                                                           |
|             |        | 14) What specific QC inspection and testing is required? Are there any witness or hold points? Soil testing? Concrete cylinders with 7 and 28 day testing?                                                                                                                                                                         | The test shall be a proof roll only.                                                  |
|             |        | 15) Is Davis-Bacon reporting required?                                                                                                                                                                                                                                                                                             | Excludes recreational trails in accordance with Section IV FHWA Form.                 |
|             |        | 16) No root protection is required for the demolition or installation stone/asphalt of the pathway area?                                                                                                                                                                                                                           | No root protection is required.                                                       |
|             |        | 17) Heavy equipment is allowed to drive on the grassy areas for access during demolition and installation of stone/asphalt?                                                                                                                                                                                                        | Yes, the Contractor shall verify with the Red Clay Park Manager for designated areas. |
|             |        | 18) Instead of slip line installation of pipe, we are allowed to complete demolish those two culvert areas, install new culverts, and reinstate the area with like-in-kind material?                                                                                                                                               | Yes                                                                                   |
|             |        | 19) Are there any scale payroll parameters or metrics that must be adhered to due to the origin of the project money?                                                                                                                                                                                                              | Excludes recreational trails in accordance with Section IV FHWA Form.                 |

3. **ITB Amendment Effective Date.** The revisions set forth herein shall be effective upon release. All other terms and conditions of this ITB not expressly amended herein shall remain in full force and effect.
