

Indian Mountain State Park

Re-Paving the Lake Trail

Preliminary Site Plan

- Remove and replace approximately one and one tenth (1.1) miles of asphalt trail, widening to six (6) feet width
- Establish flush tie-end joints to meet existing asphalt surfacing at parking lot
- Add one hundred twenty (120) feet new asphalt trail from accessible parking spots (yellow)
- Remove one hundred thirty-five (135) feet asphalt (red) and connect trail as loop with thirty-five (35) feet new asphalt (yellow)
