

STATE OF TENNESSEE
DEPARTMENT OF MILITARY

**EVENT 34101-13702
AMENDMENT # ONE
FOR BIRD SURVEY**

DATE: August 20, 2025

EVENT # ONE IS AMENDED AS FOLLOWS:

1. State responses to questions and comments in the table below amend and clarify this Event.

Any restatement of Event text in the Question/Comment column shall NOT be construed as a change in the actual wording of the Event document.

QUESTION #	EVENT SECTION	QUESTION / COMMENT	STATE RESPONSE
1		Use of UAS on Installation Property: Are drones permitted for use in support of survey activities on the installation?	Yes
2		Restrictions or Prohibitions: If drones are permitted, are there restrictions based on manufacturer, type, size, or capabilities (e.g., NDAA-compliant UAS only)?	Yes, they will need to be American made drones. And the contractor needs to have the proper licensing needed to fly the drone(s). We will also have a schedule of when flight surveys cannot take place on certain areas due to training and pesticide spraying. Copy of license must be submitted after contract award.
3		Approval Process: If permitted under certain conditions, does the installation have a formal process for requesting and receiving clearance to operate drones (e.g., flight plan submission, airspace coordination, or equipment approval process)?	Yes, the installation would like prior flight plans submitted to the Natural Resource Manager at least 48 hours before flying. Also, we will require equipment approval.

2. Event Amendment Effective Date. The revisions set forth herein shall be effective upon release. All other terms and conditions of this Event not expressly amended herein shall remain in full force and effect.
