

### **2022 Rabies Tags Specifications**

*The State of Tennessee, Department of Health, Division of Communicable and Environmental Diseases and Emergency Preparedness, Environmental Health Program is ready to procure a one-time purchase for the 2022 Rabies Tags.*

Tags to be made from .050 plain aluminum with the following specifications:

Type: H-14 Temper, Composition of 2S, 3S or 5S.

Gauge: .050".

1 1/8" Oval Shaped.

Numbered and Stamped (one side) with one 1/8" hole – top and centered.

Consecutively Numbered 000,001-916,000.

Stamped impression on tags shall be uniform with a maximum depth of .015" and a minimum depth of .010".

Tags are to be stamped on one side only with straight lettering, to read as follows:

2022  
Dept. of Health  
Tennessee

Minimum size of letters is to be 1/16", serial number 1/8" to 5/32" and year 1/8".

916,000 Flat "S" Links.

#### Packaging:

Tags shall be packaged 100 to a wire. The wire shall run through tag hole and in consecutive order; a sheet of paper to separate each 100 tags; 500 tags to a box. Each box shall be clearly marked on the exterior with the serial number of tags contained in the box.

S-links for tags will need to be packaged in bags of 100 and not attached to tags.

The successful vendor is to retain the die until December 2022. Shipment will be sent to multiple locations as specified with each shipment containing their own individual packing slip to be FOB destinations.

Delivery date: Order to be delivered no earlier than October 1, 2021, and no later than November 31, 2021.

Multiple shipping addresses associated with bid. Please include shipping cost taking into consideration the multiple dropship locations, **inside delivery**, and deliveries only to be made during office hours (someone must sign for receipt of goods). Please see ATTACHMENT 1 for dropship locations.
