

STATE OF TENNESSEE
DEPARTMENT OF SAFETY AND HOMELAND SECURITY

REQUEST FOR INFORMATION
FOR
Recorded Audio/Video Transcription Solution

RFI # 34901-01512
February 9, 2024

1. STATEMENT OF PURPOSE:

The State of Tennessee, Department of Safety and Homeland Security (“TDOSHS” or “State”) issues this Request for Information (“RFI”) for the purpose of finding a system that can generate transcripts from recorded audio and video files. For clarification, the State is not looking for live transcription services.

2. BACKGROUND:

The State’s Legal Division is looking for an on-demand system that can generate transcripts from audio and video recordings in a single and multi-speaker environment.

2.1. THE STATE DESIRES, AT A MINIMUM, THE FOLLOWING:

2.2. The system: The system should be capable of generating transcriptions of recorded audio and video files produced in a number of different formats such as .wma, .wmv, .mp3 and .mp4, .m4a, .avi, and .mov files and within single or multi-speaker environments. Below are key areas that will need to be addressed by the proposed system:

2.2.1. Automation – The system should automatically convert audio and/or video recordings into text with 95% or higher accuracy.

2.2.2. File Transfer and Storage – The system shall provide secure, encrypted file transfer protocols for transferring files to and from the State and ensure encryption and security while files are in transit and at rest. The system should have the ability to securely store the transcripts and recorded audio and video files until the State is ready to access them. The system must be government cloud compliant and any data must only be hosted in the continental United States.

2.2.3. Review – The system shall permit export of transcribed documents in Microsoft Word and PDF format to allow document manipulation as needed.

2.2.4. Searchability and Usability – The documents produced from the recorded audio and video files shall be key word searchable, identify the speakers, and be time stamped to correspond with the recorded audio and video files.
