

## Crushed Medication List

In an effort to standardize the crushed and do not crush medication list across all TDOC prisons, we have reviewed all of the medications available to us for consideration. Below is the list of how we are directing the management of medication administration for the prevention of abuse, overdose, and diversion of psychotropic medications as a means to keep our patient population safe. We will periodically update this list as medications are added to our formulary and non-formulary lists.

<b>FORMULARY MEDICATIONS</b>	
<b>Crushed</b>	<b>Do not Crush</b>
<b>Antidepressants:</b>	
Celexa	Cymbalta
Clomipramine
