Statement of Procurement Purpose

The FCC's Universal Service Schools and Libraries Support Mechanism, commonly known as the E-Rate Program, helps ensure that schools and libraries can obtain high-speed broadband products and services to and throughout eligible schools and libraries. The goal of the E-Rate Program, which is administered by the Universal Service Administrative Company ("USAC") is to provide its applicants with an opportunity to obtain the products and services necessary to deliver high-speed broadband access to the Internet all the way to the student in a classroom or the patron in a library. The E-Rate Program continues to be a critical component of schools', Local Education Agencies' ("LEAs"), and public libraries' technology budgets across the State of Tennessee as the only reliable technology funding available. This RFQ is to award contracts to provide E-Rate Category Two Internal Connections, Basic Maintenance of Internal Connections, and Managed Internal Broadband Services to Local Education Agencies ("LEAs") operating in the State of Tennessee. Through this RFQ, the State will award contracts to all qualified respondents that sell equipment (not manufacturer specific) and service solutions in accordance with the Category Two and Miscellaneous section of the FCC's Eligible Services List (<https://www.usac.org/e-rate/applicant-process/before-youbegin/eligible-services-list/>). Suppliers will be deemed qualified based on responses to the mandatory, general, and technical qualifications laid out in this document. Cost will not be evaluated under this RFQ; however, respondents must submit a product catalog that contains maximum/ceiling prices for goods/services for which the Contractor is authorized to provide in order to participate in the USAC mini-bid process (information below). LEAs throughout Tennessee will then conduct a "mini-bid" process as described by USAC amongst the awarded contractors. Any contracts awarded from this RFQ shall be available for use by any LEA in Tennessee; however, only those entities who have signed a Letter of Agency with the State will be authorized to use the contracts in conjunction with their E-Rate application(s). Suppliers that are awarded contracts are not expected to participate in mini-bid events that are outside of their service regions or for products areas that they do not supply. From USAC guidance on the mini-bid process: "If the state awards contracts to multiple service providers as a result of its posted FCC Form 470 and competitive bidding process - what we refer to as a multiple award schedule - the applicant must conduct a bid evaluation for all service providers able to provide services to the applicant under these contracts (a mini-bid process). To conduct a mini-bid process, the applicant determines the factors to use for its evaluation - with the price of the eligible products and services as the most heavily-weighted factor - scores the service providers appropriately, and chooses the most cost-effective solution. • The applicant does not need to post an FCC Form 470 to conduct a mini-bid. • The applicant does not need to conduct a mini-bid if only one service provider is able to provide service. For example, if three service providers sign contracts with the state pursuant to the state-filed FCC Form 470 but only one of the service providers can provide service in the applicant's geographic location, a mini-bid is not required" 02-20-20 RFQ RFQ # 33104-00420 2 (Source:<https://www.usac.org/e-rate/applicant-process/selecting-serviceproviders/state-master-contracts/>)

- The State's purchases of these services is estimated at \$235k for the life of the contract. This does not include the spend by non-State LEAs.

RFQ Section 3 – Response Requirements

- Section 3 details the response requirements:
 - Prescribes response format and forms
 - Delivery and organization of the response
 - Response and respondent Prohibitions
 - Other information pertaining to RFQ responses

- Response consists of two parts:
 - Technical Response – Completed using RFQ Attachment A., Technical Response & Evaluation. Includes Section A - Mandatory Requirement Items (Pass/Fail), Section B - General Qualifications & Experience Items, and Section C -Technical Qualifications, Experience & Approach Items, all of which must be addressed with a written response and, in some instances, additional documentation.

 - Catalog Submission - Catalog Submission will only be opened of Qualified Respondents. As a requirement of the RFQ, this Catalog submission will need to be signed and dated by the Contractor. Attachment D Catalog Submission Guide. Sealed separately from the Technical Response (as detailed in RFQ Sections 3.1.4., *et seq.*).

RFQ Section 4 – General Information & Requirements

- Contains information on RFQ process and actions that can be taken by the State of Tennessee to update the RFQ and associated documents
- Contracting requirements – Must provide Certificate of Insurance. Register with the Tennessee Department of Revenue for the collection of Tennessee sales and use tax or show proof of exemption.

RFQ Section 5 – Procurement Process and Contract Award

– Evaluation Categories & Maximum Points

The State will consider qualifications, experience, technical approach, and cost in the evaluation of responses and award points in each of the categories detailed below (up to the maximum evaluation points indicated) to each response deemed by the State to be responsive.

Evaluation Category	Maximum Points Possible
Mandatory Requirements (refer to RFQ Attachment A)	Pass/Fail
General Qualifications, Experience, Technical Qualifications, Experience & Approach (refer to RFQ Attachment B)	25 points
Technical Qualifications, Experience & Approach (refer to RFQ Attachment C)	75 points

RFQ Section 5 – Cont.

- Evaluation Process – The State of Tennessee will utilize a proposal evaluation team to evaluate each respondent's response.
- Scores are calculated by the RFQ Coordinator by calculating the sum of the Technical Response section scores. The Technical Response score must attain, at minimum, a combined score of 60. This minimum score threshold represents a score of 60% from RFQ Attachments B & C.

RFQ Attachments

- The Technical Response & Evaluation Guide can be categorized into three (3) sections:
 - A. Attachment A: Mandatory Requirement Items – Pass/Fail
 - B. Attachment B: General Qualifications & Experience Items – 25 points maximum score
 - C. Attachment C: Technical Qualifications, Experience & Approach - Items scored on 5 point scale. Section worth 75 maximum points

RFQ Attachment E

Statement of Certifications & Assurances

- The Respondent must sign and complete the Statement of Certifications and Assurances and it must be included in the Technical Response (as required by RFQ Attachment A., Technical Response & Evaluation Guide, Section A, Item A.1.).
