

RSWC# 337, Post Warranty IT Equip Maintenance

Contract Information and Usage Instructions

Contract Period: Five-year term.

Start Date: November 1, 2019

Final End Date: October 31, 2024

Summary/Background Information: This Contract will supply services (and necessary related parts, components, materials, etc.) to maintain the operational status of and/or repair the State's failed, out-of-warranty Information Technology (IT)-related equipment, including, but not necessarily limited to, desktops, notebooks, tablets, printers, apple products and Intel servers. These services must be provided on-site in all ninety-five (95) Tennessee counties under the terms, conditions, requirements, and specifications included in this Contract. Although the services to be provided under this Contract will be to repair/maintain hardware, these services may include loading necessary software drivers and providing materials, etc., needed to repair/maintain the equipment/return the equipment to operational status.

This Contract will not be used to maintain the operational status of and/or repair equipment covered under warranty (except as this warranty is associated with parts and/or components acquired under this Contract); this Contract will not be used to maintain the operational status of/repair mainframe computer-related equipment or network equipment, such as routers, switches, etc. This Contract will not be used as a source of supply of services, parts, and components used to upgrade equipment; only services, parts, components, and other items directly related to maintaining the operational status of/repairing failed out-of-warranty IT-related equipment may be acquired under this Contract. This Contract will not be used to acquire software.

This contract is **restricted** to STS for initial purchase, but is available for use by all agencies.
