It is recommended to seek out a free Initial Assessment through Canon. This assessment will provide a detailed analysis of the agency's current print status and an estimated savings with a phased implementation recommendation. If an agency elects to not utilize this assessment, their IT group should be contacted for assistance. The contract administrator is also available to provide guidance.

NOTE: There have been issues with Agencies ordering 6000 and 5000 series devices which require a NEMA plug. When ordering, please discuss any special needs with Canon. **The Initial Assessment would bring any unusual requirements to the Agency's attention and is highly recommended.**
