II. DESIGNATION OF THE STATE AGENCY

A. Tennessee State Agency for Surplus Property

Under the provisions of TCA 4-3-1104 the Commissioner of the Department of General Services created and designated the Property Services Management Division, now called the Division of Warehousing & Distribution (hereinafter referred to as the TNSASP), as the agency responsible for administering the Federal surplus property program in the state of Tennessee. TCA 49-1-304 and 4-3-1105, (15), further provided that the Department of General Services has sufficient rule-making authority without additional legislation.

B. Organizational Structure

1. The Division is under the supervision of the Director, who reports to the Deputy Commissioner of the Department of General Services. The Director serves at the discretion of the appointing authority.

2. The Division, consisting of Federal Surplus Property, State Surplus Property, Law Enforcement Support Office (LESO), and the State Distribution Center, is organized with sufficient personnel to carry out the programs as needed. Each program carries its own program funding codes, and each program is charged payroll and operating expenses as required.

Note: See Appendix A.

C. Facilities

All office and warehouse facilities are owned by the State of Tennessee, and leased by the Division.

1. The TNSASP administrative office and central warehouse are located at 6500 Centennial Boulevard, Nashville, Tennessee. Total warehouse space consists of approximately 70,000 square feet with approximately 5 acres of fenced yard space.
a) As a result of operating almost exclusively utilizing the “direct transfer” concept, the TN SASP maintains a minimal amount of warehouse space for the Federal Surplus Program. Allocation requests from the TN SASP are for specific donees that must accommodate removal and transport if allocated.

III. INVENTORY CONTROL and ACCOUNTING SYSTEM

A. Inventory Control System
1. Direct Donation Program
   a) TN SASP operates under a direct transfer (virtual) business model.
   b) As an almost exclusively virtual program, TN SASP does not maintain Federal property inventory, except under exceptional circumstances. If a local acquisition opportunity arises that will be readily distributed based upon recent inventory trending, the allocation request may be submitted; with any allocated inventory being stored at the warehouse with a marketed push for distribution immediately upon receipt.
   c) Normally, TN SASP requests property and, if allocated, the requesting donee picks up the property from the holding Federal facility and reports receipt to TN SASP.

B. Property Accountability
1. Accountability records are maintained in an automated database system for all Federal program transactions.
2. All TN SASP requests for Federal property are at the specific request of a donee, unless an exceptional circumstance arises. Exceptions must be approved by program management prior to the allocation request.
3. Donee makes request to TN SASP
4. TN SASP establishes the service charge and requests allocation from GSA
5. TN SASP employee creates record in TN database to document request. This record includes:
   a) Property description
   b) Acquisition cost
   c) Disposing agency
   d) GSA allocation number
   e) Receiving agency with eligibility status and contact information
   f) Service charge
   g) Date and quantity of property received
   h) Payment information
6. If allocated, TN SASP sends donee an invoice and pickup authorization

C. Donee is required to notify TN SASP of date received and confirm quantity by returning copy of the transfer document (SF-123, Property Issue sheet) signed by the authorized donee representative.
1. If quantity is different than allocated; TN SASP creates and files an “Over/Short” Report with the allocating GSA region under the provisions of FMR §1-237.70 and §102-37.350.
a) In cases where overage of a line item acquisition cost is $500 or greater, a separate SF-123, Surplus Transfer will be submitted to GSA within thirty (30) days for donation approval.

b) The invoice is adjusted for the corrected amount if necessary.

c) If the quantity is less than reported by GSA or the acquisition cost is less than $500, GSA approving region will receive shortage report within thirty (30) days.

D. The acquisition cost of an item may be revised provided that the request is made in writing by the donee, and it is determined by the TN SASP that the listed acquisition cost is unrealistic in view of its research and development costs, its incompleteness due to missing parts, or its generally deteriorated condition.

1. TN SASP will request correction of the cost from GSA

E. Special attention is given to property with an original acquisition cost greater than $4999.00 along with all passenger motor vehicles. These items are designated as a compliance items and shall incur an eighteen (18) month compliance period.

F. A manual Standard Form 123 (SF-123) is prepared by the agency to request Federal property not located on the GSA Excess Property website. The GSA Excess Property website will provide a computer generated SF-123 via e-mail for items requested online.

G. The transportation for allocated property that is requested as a Direct Transfer to an eligible donee will be handled by the donee. Otherwise, any allocated property will be transported to the warehouse facility by either agency-owned vehicles or by contract carrier.

H. Retaining Property for Agency Use

1. In accordance with FMR 102-37.270, if any item of property received can be used by the TN SASP to facilitate the operation of the program, the TN SASP will forward written notification to the GSA regional office requesting that the item(s) be retained for use under cooperative agreement.

2. Upon approval of this request by GSA, the item(s) will be removed from active inventory and the approved letter will be maintained.

3. When the Agency no longer has a need for this item(s), the Agency will notify GSA via written notification that the item is being returned to active warehouse inventory for distribution to an eligible donee.

I. Periodic Physical Inventory and Reconciliation with Inventory Records

1. The TN SASP will perform a 100 percent physical inventory once a year under the direction of the Division of Audit, Department of General Services.

   a) Agency personnel will physically count each item, record the item counts, and turn the count sheets into administrative personnel.

   b) Administrative personnel will reconcile physical counts with the inventory data base.

   c) If discrepancies are found, recounts will be made, and the data base will be checked for receipt and distribution entry accuracy. If no reason for the discrepancy can be found, an adjustment to the inventory data base will be made under the authorization of the Director.

2. Copies of documents pertaining to any inventory performed, along with any adjustments to the inventory data base will be forwarded to the GSA regional
office for their review.

a) If inventory does not exist at the time the annual physical inventory is conducted, a memo stating the zero balance of inventory must be submitted to GSA stating such within thirty days of the inventory close.

J. The Tennessee Department of General Services, Office of Financial Management is responsible for maintaining all fiscal records for all department accounts including the TN SASP.

1. The electronic system used for all fiscal processing accounts for all revenues and expenses.
2. The TN SASP fiscal records are maintained as a separate fund in the system, and further segregated by program area.
3. The TN SASP will only accept payment for service charges drawn on or issued by and in the name of the approved donee.
4. This office also provides, on a monthly basis, a fiscal report which shows line item expenditures, total year-to-date expenditures, total revenue collected, total revenue generated, and fund balance.

IV. RETURN OF DONATED PROPERTY

A. Property is transferred in “as is-where is” condition and it is the donees’ responsibility to inspect it prior to requesting an allocation. Property may not be rejected or returned solely due to condition.

B. Property that is reported by the donee as serviceable but not placed into use or ceases to be used during the appropriate restriction period (12/18/60 months or perpetuity) shall be returned or redistributed to the Federal program through the TN SASP. All costs associated with the property return are solely the donee’s responsibility.

C. Requests to return property must be made in writing by the donee to the TN SASP explaining why the material does not conform to its needs or why restrictions cannot be adhered to. The TN SASP may confer with GSA when deciding to accept a return. The TN SASP decision is final.

D. Property return may be accomplished by:
   1. Transferring to another eligible donee, SASP or Federal agency
   2. With GSA approval and coordination, authorize sale, FMR§120-37.310
   3. Authorize cannibalization or secondary utilization
   4. Request authorization for abandonment or destruction, FMR §120-37.320
   5. Amend, modify, or grant release on terms and conditions in conformance with GSA regulations.

E. The Agency emphasizes the use requirements via the terms and conditions of the Application for Eligibility signed by the authorized representative of the donee as a condition of eligibility and also by the terms and conditions repeated on the reverse side of the distribution document.

Note: See Appendix B
V. **FINANCE AND SERVICE CHARGES**

A. The Agency is a service organization whose function is to acquire and distribute surplus property needed by eligible recipients in the state. The Agency does not receive any appropriated funds from either Federal or state sources for operation of the Agency. The total costs for operation must be covered by service charges and sale proceeds.

B. The assessment of service charges is related to the following direct and reasonable indirect costs to cover all costs of SASP operations:
   1. Administrative cost (includes salaries, professional services, printing and copier services, communications, rentals and insurance, and supplies).
   2. Screening costs (includes salaries, vehicle costs, and per diem expenses). These costs are very minimal due to the fact that the majority of acquisitions are handled via direct transfer.
   3. Transportation costs (includes salaries, vehicle costs, per diem expenses, contract carrier expenses, and all other shipping peripheral expenses).
   4. Logistical costs (includes salaries, rentals and insurance, and vehicle costs). These costs are very minimal due to the fact that the majority of acquisitions are handled via direct transfer.
   5. Compliance and utilization review costs (includes salaries, per Diem and vehicle costs).

C. The assessment of service charges shall be related to the following factors:
   1. Original government acquisition cost.
   2. Condition, obsolescence, and potential use of property.
   3. Costs for repair and rehabilitation of property as needed.

D. Due to the infinite variety of available property, varying condition, obsolescent factors, and potential use of an item, the following formula will be used to ensure a fair, equitable and reasonable service charge. However, the same service charges will be charged for like property with the same condition code regardless of the donee. A minimum of $100 will be charged for each transaction.

   1. The following chart for computing service charges will be used:

<table>
<thead>
<tr>
<th>OAC</th>
<th>Percent of OAC</th>
</tr>
</thead>
<tbody>
<tr>
<td>$ 0.01 - $ 4,999</td>
<td>1 - 50%</td>
</tr>
<tr>
<td>$ 5,000 - $ 19,999</td>
<td>1 - 30%</td>
</tr>
<tr>
<td>$ 20,000 - $ 39,999</td>
<td>1 - 25%</td>
</tr>
<tr>
<td>$ 40,000 and up</td>
<td>1 - 20%</td>
</tr>
</tbody>
</table>
2. Certain qualifying exceptions to the service charge formula will be used when establishing service charges for property. These exceptions are as follows:
   a. Rehabilitated property - direct costs for rehabilitating property will be added to the service charge if the Division rehabilitates in part or completely.
   b. Overseas property - additional costs for screening and transportation will be added.
   c. Extraordinary, unusual or special charges - additional charges may be added for packing, shipping, delivery, dismantling, and other extraordinary, unusual or special handling charges.
   d. Unrealistic acquisition cost - an adjustment will be made to conform with a realistic acquisition cost prior to the assessment of the service charge. Any change to an unrealistic acquisition cost will be notated on the receiving records.

E. Pursuant to the McKinney Act of 1987, which amended the Federal Property and Administrative Service Act of 1949, the Agency will make property available to eligible organizations that provide assistance to the homeless. This property will be distributed to these eligible organizations at a nominal cost for transportation and handling of the property.

F. The funds accumulated from service charges or any other source will be deposited with the State Treasury in a specific fund designated for this Agency, and are to be used solely to cover direct and indirect costs of the operation of this Agency, to purchase and/or lease necessary equipment, to rehabilitate donable property, to purchase replacement parts for donable property, and to maintain a reasonable working capital reserve not to exceed the total agency expenses for the State's two prior fiscal years.

G. The State of Tennessee does not permit the SASP to invest funds, including any reserve funds. However, any reserve funds will be deposited with the State Treasury, and will be used solely for the operation of the agency.

H. All facilities used by this SASP are owned by the State of Tennessee, and are leased by the SASP; thus any purchase or improvement expense is borne by the State of Tennessee and not the SASP. In the event of the sale or other disposal of the facility, all funds would revert to the State of Tennessee.

I. In the event that funds exceed the working capital reserve, these funds will be reduced by lowering the service charges to donees.

J. Charge terms are balance due, net 30 days. Any account past 90 days will result in suspension from program activities until the entire balance has been satisfied.
VI. TERMS AND CONDITIONS FOR DONATED PROPERTY

A. Property acquired through the program must be used by the donee for a public purpose (FMR 8102-37.435 through 475.) Furthermore, the donee must agree that the property may not be acquired with the intent to sell or trade for other assets or money.

B. Donees must certify that they meet all of the criteria and they will comply with all conditions and restrictions imposed by GSA and/or TN SASP listed on “Terms and Conditions” in Appendix B.

C. The TN SASP may amend, modify or grant releases of any term, condition, or restriction it has imposed on donated items in accordance with the standards prescribed in this plan provided that the conditions pertinent to each situation have been affirmatively demonstrated to the prior satisfaction of the TN SASP and made a matter of record.

D. The following additional conditions are applicable to items with a unit acquisition cost of $5,000 or more and passenger motor vehicles:
   1. The property shall be used only for purpose(s) for which acquired and for no other purpose(s).
   2. There shall be a period of restriction which expires after the property had been used for the purpose(s) for which acquired, for a period of eighteen (18) months, from the date the property is placed in use, except for such items of major equipment listed, on which the State agency designates a further period of restriction.

E. Additional restrictions and conditions apply to the donation of any fixed- or rotary-wing aircraft and donable vessels that are fifty (50) feet or more in length, having a unit acquisition cost of $5,000 or more, regardless of the purpose for which donated. Donees agree to these additional conditions when requesting the equipment and execute the conditional transfers in Appendix C for:
   1. Combat Aircraft Conditional Transfer
   2. Non-combat Aircraft Conditional Transfer
   3. Vessel Conditional Transfer

F. Provided an item of donated property is not in compliance status, a reduction in the period of restriction may be authorized when a revised standard covering the period of restriction is promulgated by the TN SASP. These provisions are not applicable to:
   1. Donated military-type aircraft, or other items of property on which GSA has imposed special handling condition or use limitations.
   2. Property which was not placed in use for the purposes for which acquired within one year from the date the property was placed in use, and continued in use for one year from the date the property was placed in use, except with
respect to secondary use or cannibalization as provided in FMR§102-37.290 through §102-37.320.

G. Pursuant to FMR §102-37.470 the TN SASP may grant approval to the donee to cannibalize or accomplish secondary utilization of an item which is subject to the terms, conditions, reservations, or restrictions as listed Terms and Conditions. The TN SASP may issue an item for the purposes of cannibalization or secondary utilization with approval for such action marked on the invoice. If a donee finds that it cannot use the donated item for the purposes for which acquired, and therefore wishes to cannibalize it or accomplish secondary utilization, a written request for an approval must be submitted to the TN SASP. The request shall give item identification, condition, and proposed use. The TN SASP will respond in writing and may grant approval when it is determined that such action appears to be the best utilization of the item. Secondary utilization or cannibalization may be accomplished provided that:

1. Disassembly of the item for use of its component parts for secondary use or repair and maintenance of a similar item has greater potential benefit than utilization of the item in its existing form;

2. Items approved for disassembly or cannibalization will remain under the period of restriction imposed by the transfer document pending completion of the proposed secondary use or cannibalization; and

3. A written report of such action is made by the donee to the TN SASP, including a list of all components resulting from the secondary utilization or cannibalization which have a single item acquisition cost of $5000 or more. These components will remain under the restrictions imposed by the transfer document. Components with a single item acquisition cost of less than $5000 will be released from the restrictions imposed by the transfer document. However, these components will continue to be used or be otherwise disposed of in accordance with applicable law and regulations.

H. Written approval is required from GSA for property under Federal restriction. An item of donated personal property may be traded in or used as whole or part payment for another like item of property provided:

1. The item being traded-in is not, when the request is made, in compliance status for violation of the terms, conditions, reservations or restrictions placed on it;

2. The item being traded in has been used by the donee for eligible purposes for at least six (6) months from the date of being placed in use, and it has been demonstrated that the trade-in will result in increased utilization value to the donee;

3. The trade-in is on a one-for-one basis only, i.e., one donated item being traded for one like item having similar use potential,

4. The item being acquired has an estimated market value at least equal to the estimated market value of the item being traded-in; and;

5. The item acquired is made subject to the period of restriction remaining on the item traded-in.
I. Except in cases involving the failure to use or the misuse of donated property, abrogation to restrictions imposed by the TN SASP in the transfer instrument may be authorized upon payment to the TN SASP of an amount representing the fair market value at the time of donation less a credit for the time the property was used for the purpose for which donated, during the period of restriction, and provided that the TN SASP determines that such action will not result in a windfall revenue to the donee, and provided further that the property has been used for at least twelve (12) months from the date of being placed in use or otherwise under Federal restriction.

J. The acquisition cost of an item may be revised provided that the request is made in writing by the donee, and it is determined by the TN SASP that the listed acquisition cost is unrealistic in view of its research and development costs, its incompleteness due to missing parts, or its generally deteriorated condition.

1. TN SASP will request correction of the cost from GSA

K. The enforcement of the terms and conditions, reservations and restrictions imposed by the TN SASP of donated property, or the remedy of breaches of such terms and conditions, may be satisfied:

1. When payment is made to the TN SASP of any and all fair rental values due and payable for any unauthorized use of donated property;

Your organization has obtained the item of Federal surplus property listed below for the purpose of cannibalization. Cannibalization is the disassembly of an item for the purpose of using the parts, components, or assemblies thereof for a purpose other than that for which the complete item was originally manufactured or the removal of serviceable parts, components, or assemblies from one item of equipment for installation on another item of equipment to serve the same basic function.

When cannibalization has been accomplished, complete the certification below and return one copy of this form to us. Retain one copy for your files. Cannibalization authority does not alter the certifications or other restrictions on the property obtained. The property must still be placed into use within twelve (12) months and used for an additional twelve (12) or eighteen (18) months if the original acquisition cost was more than $5,000. Any residue (remaining components) with an estimated fair market value of over $5000 must be reported to this agency. Upon receipt of this report, this agency will determine the final disposition of the residue. If an item is being used without cannibalization, you must notify this agency to that effect.
