COVID 19: Member & Provider Response

Overriding Priority = Access to Care

- Flexibilities extended
 - Telehealth
 - Pharmacy
 - Primary care
 - Hospital administrative requirements
 - Long-Term Services and Supports
- Financial relief provided
 - Accelerated payments to hospitals and other primary care providers
 - Targeted relief to providers who serve a higher proportion of Medicaid members (HCBS, Behavioral Health, Dental, Primary Care)
- COVID Skilled Care Centers/Units established

COVID 19: Utilization & Care Coordination

Health Care Utilization During COVID-19 *

Utilization Category	2019 vs. 2020 (Mar – May)	2019 vs. 2020 (Jun – Jul)	△
Adult Inpatient Services	-30%	-25%	+5%
Pediatric Inpatient Services	-20%	-10%	+10%
Adult Outpatient Services	-17%	-13%	+4%
Pediatric Outpatient Services	-21%	-13%	+8%
Pediatric Well Child Visits	-24%	+2%	+26%
Vaccinations	-23%	-12%	+11%
Dental Services	-60%	-12%	+48%
Pediatric Pharmacy Rx Fills	-17%	-2%	+15%

* Based on preliminary TennCare Claims data March to July 2020. Subject to change due to claims lag.

Key Observations:

Health care utilization for TennCare members decreased significantly early in the pandemic and is beginning to return to pre-COVID utilization in some areas.

Telehealth use increased significantly to bridge the gap on outpatient services and continues to be used as an important tool.

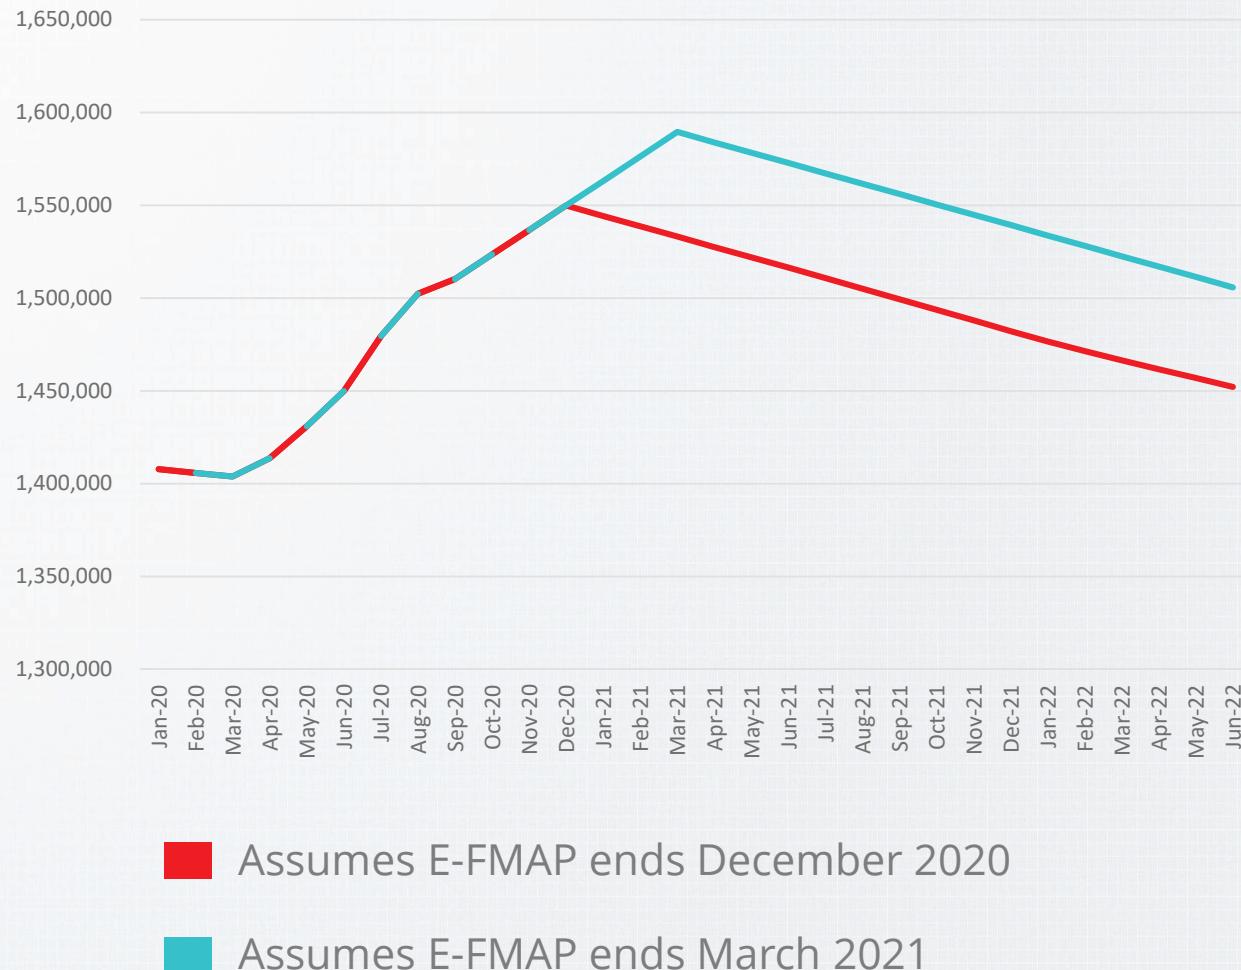

Potential care gaps still exist, such as childhood immunization and preventive care. These remain a heavy focus area for TennCare.

TennCare has significantly increased supports and care coordination to members to help them get care during COVID

- MCOs partnered with TennCare, TDH, and local community groups to support public messaging around COVID safety and testing opportunities
- TennCare and MCOs outreached to members through text messages to educate on benefit flexibilities and services during COVID
- MCOs proactively contacted members with chronic conditions or complex needs to ensure needs were met
- Heavily invested in well child visits efforts to narrow the gap of missed screenings and immunizations
- Identified opportunities to support comprehensive needs such as transportation and food for members needing support due to COVID

COVID 19: Impact on Enrollment

Enrollment Projections – Federal E-FMAP Impacts

COVID 19: Impact on Revenue

Projected Enhanced Federal Matching Assistance Percentage Impact

CY2020 Q1 & Q2 E-FMAP	\$243 million
CY2020 Q3 E-FMAP	\$171 million
CY2020 Q4 E-FMAP	\$140 million
TOTAL	\$554 million

Reductions to CY2020 MCO capitation rates

- Assure appropriate revenues
- Reduction of 5.3%

FY21 Vacancy Reductions
