

Tennessee's Education Transformation

In December 2017, Stanford University's Center for Education Policy Analysis released a data map demonstrating average test score growth rates in districts across the country. On the map, **Tennessee stands out for its progress in education growth.**

Average Test Score Growth Rates (Math and Reading Averaged),
US Public School Districts, 2009-2015

Under the leadership of Governor Bill Haslam, Tennessee has emerged as a national model for education reform and student success. **What was our path to success?**

Invested an additional \$1.3 billion in K-12 education, including \$450 million to teacher salaries

Improved student standards and developed assessments tied to accountability measures

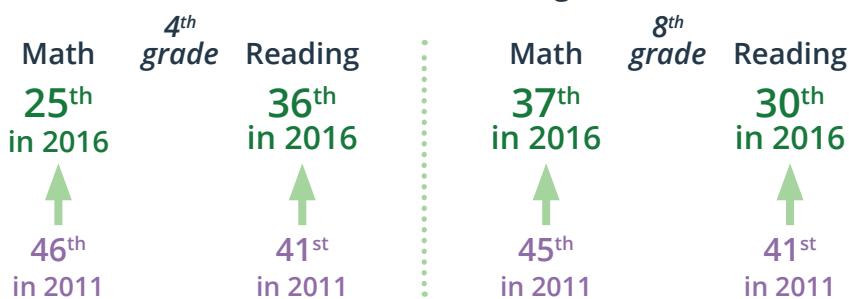

Implemented a robust educator evaluation system so teachers can receive the right support to improve

Provided every student with a path to college, tuition-free, through Tennessee Promise

Tennessee's National Ranking on NAEP

National Assessment for Educational Progress (NAEP)

Average ACT score

19.5 in 2011 → 20.1 in 2017

Community college freshmen requiring learning support

76.8% in 2011 → 62.4% in 2016

What's next? Stay the course on improvement and educational attainment.

Maintain and build on the K-12 foundation of strong standards, aligned assessments and robust accountability | Continue toward state goal of ranking in the top half of states on NAEP | Ensure every student is prepared and able to attend college and meet the goals of the Drive to 55
