Summary

Introduction

This supplement to the 2018-2019 Budget Document provides the detail of base budget reductions required to balance the state budget.

The “Summary” section contains two overviews of the reductions that compose the reduction proposal. The first overview is a summary of the base budget reductions for the proposed budget and the last seven fiscal years, highlighting the reductions made to the largest state programs during that period. The accumulated reductions are compared to the base fiscal years of 2010-2011 and 2011-2012 for perspective. The second overview is a departmental listing of the agency program reductions compared to the current-year recurring appropriations and the discretionary base appropriations for the upcoming budget year. Discretionary base appropriations exclude appropriations from dedicated taxes that are narrowly levied and earmarked for specific programs. It also excludes certain programs that are “held harmless” from reduction based on other statutory requirements or due to administration initiatives.

The “Base Budget Reductions” section presents the agency program reductions by funding source and position count. This section begins with a departmental summary of reductions, followed by a program summary of reductions, and is concluded with a detailed listing of the specific base budget reductions recommended.
