

# Tennessee CARETag

Crisis Assistance, Response, Emergency Tag

## PROGRAM GOALS

- Create a universal identification system.
- Develop clear response protocols for first responders.
- Promote crisis and emergency planning.
- Ensure proper documentation and accessibility.
- Enhance training and competency for all stakeholders.

## LEARN MORE !

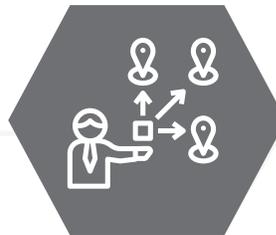

tn.gov/health/healthyaging

Families work with community partners to collect personal medical information and place them in a secure location where first responders can easily access needed information during emergency situations.

## HOW TO ENGAGE

### BECOME A CARETAG COORDINATOR

An organizations can serve as a CARETag coordinator in their respective counties. These organizations work directly with families and report back key information to TDH.

[Click Here To Register as a Coordinator!](#)

### RAISE AWARENESS ABOUT THE PROGRAM

Share information about the program with community organizations and encourage families to participate by sharing benefits of pre-crisis planning.
