

Maximizing Use of Progesterone to Prevent Preterm Birth

FREE WEBINAR

Presenter:

Elizabeth Stringer, MD, MSc

Dr. Stringer is a practicing obstetrician and gynecologist in Chapel Hill, North Carolina. Dr. Stringer graduated from the University of Alabama School of Medicine and has been in practice for 19 years. After finishing her residency in Obstetrics and Gynecology she moved to Lusaka, Zambia where she spent the next ten years engaged in clinical and operational research that focused on improving the lives of pregnant women infected with HIV. Dr. Stringer has applied her experience in Zambia to address ways to improve the utilization of different progesterone formulations in prevention of preterm births.

Follow the link to view the presentation on [Maximizing Use of Progesterone to Prevent Preterm Birth](https://www.surveygizmo.com/s3/3553214/Maximizing-Use-of-Progesterone-to-Prevent-Preterm-Birth). Listen as Dr. Stringer discusses using Progesterone to reduce the incidence, severity and disparity of preterm births.

Learning Objectives:

- Understand evidence for use of Progesterone
- Identify candidates for Progesterone use
- Improve utilization of Progesterone
- Discuss ways to measure implementation of Progesterone

This webinar is intended for healthcare professionals and others interested in reducing premature births.
