Legislative Updates

Public Chapter 122

EXPEDITED LICENSURE

Present law requires the health related boards to establish a procedure to expedite the issuance of a license, certification or permit to perform services regulated by each board to any person who is the spouse of a military service member who is licensed to perform professional services in another state and who left employment to accompany the person's spouse to Tennessee. The procedure includes:

- (1) Issuing the person a license, certificate or permit, if, in the opinion of the board, the requirements for certification or licensure of such other state are substantially equivalent to that required in Tennessee; or
- (2) Developing a method to authorize the person to perform professional services regulated by the board in Tennessee by issuing the person a temporary permit for a limited period of time.

This bill adds any military service member who is licensed to perform substantially similar professional services in another state and who applies for licensure in Tennessee within 180 days of retiring from the military, receiving an honorable discharge, or being released from active duty into the reserves, to the persons who are eligible to participate in the expedited licensure procedures.

MILITARY EDUCATION, TRAINING AND EXPERIENCE

This bill requires the health related boards to accept military education, training or experience completed by a person who applies for licensure in Tennessee within 180 days of retiring from the military, receiving an honorable discharge, or being released from active duty into the reserves toward the qualifications to receive the license or certification if the military education, training or experience is determined to be substantially equivalent to the state's standards.

TEMPORARY RENEWALS FOR ACTIVE DUTY MILITARY

This bill requires that the health related boards keep in good standing the license or certification of any person who is called to active military duty and who, at the time of such activation, was duly licensed or certified to perform a profession or occupation in Tennessee. A

license that is kept in good standing pursuant to this bill will be temporarily renewed without payment of renewal fees, compliance with continuing education requirements, or performing any other act typically required for renewal; provided, that the continuing education requirements will only be waived in circumstances where the person's military duty prevents obtaining the credits or the person performs the licensed or certified profession or occupation as part of the person's military duties. The continuance or renewal of a license or certificate pursuant to this bill will continue until no later than six months from the person's release from active duty.

Lapsed License

Statute prohibits an individual from working as an LPC, MFT or LCPT unless he/she has an active license.

1. Upon recognition that his/her license has expired, the individual must stop practicing immediately and contact the Board's administrative office and request a reinstatement application.
2. The individual must complete the reinstatement in its entirety along with a detailed work history from the date the license expired. The application must be signed and notarized and returned to the Board's administrative office along with proof of documentation of continuing education requirements taken within the previous twelve (12) months, as well as all applicable fees.
3. Once the completed reinstatement application and all required documentation is received, the Board administrator may immediately reinstate the license **only** if the license has been in an expired status for a period of three (3) months or less.
4. If the reinstatement application received indicates in the work history that the individual has worked more than three (3) months on an expired license, the licensee will be assessed a penalty for each month worked in excess of three (3) months.

Discipline for lapsed licenses will now be reportable to the national databanks as well as the Department's Disciplinary Action report and will be noted on the practitioner's licensure profile.
