

TNHAN April 13, 2021

Pause Administration of Janssen/Johnson & Johnson Vaccines Effective Immediately

Please see [Joint CDC and FDA Statement on Johnson & Johnson COVID-19 Vaccine | FDA](#)

Providers with current inventory of the Janssen/Johnson & Johnson vaccine should label the vaccine “Do Not Use” and keep the vaccine in their approved and temperature-monitored refrigerator until further guidance is provided. The vaccine should not be discarded.

TDH will work with providers of Janssen/Johnson & Johnson vaccine to provide an alternative product so vaccination efforts may continue.

Questions regarding the Tennessee COVID-19 vaccination efforts may be directed to VPDIP.pandemic@tn.gov
