HOW CLIMATE CHANGE AFFECTS YOUR HEALTH

EXTREME WEATHER

Increased Flooding & Storms

More Intense Wildfires

Water Contamination

Property Loss

Infrastructure Damage

Extreme weather events led to OVER 200 DEATHS in the last two years. ³

Water Borne Illness

Injury & Death

RESPIRATORY SYNDROME increases by 25% during wildfires. ¹

51% of WATER-BORNE OUTBREAKS followed extreme precipitation events. ⁴

159 DEATHS from Superstorm Sandy in October 2012. ⁵
