# Sentinel Provider Influenza-Like Illness (ILI)<sup>1</sup> Surveillance Summary (health.state.tn.us/TNflu\_report\_archive.htm) For the Week of Oct. 23-29, 2011 (Week 43)

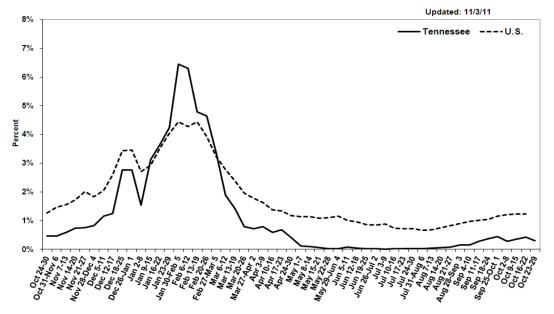

| Summary for                   | # Providers reporting | Total<br>Providers | Total<br>Regional<br>ILI | Total<br>Regional<br>Patients | % ILI | Comparison to State <sup>2</sup> |
|-------------------------------|-----------------------|--------------------|--------------------------|-------------------------------|-------|----------------------------------|
| Hamilton County (Chattanooga) | 4                     | 4                  | 3                        | 561                           | 0.5%  |                                  |
| East Tennessee Region         | 7                     | 8                  | 10                       | 2528                          | 0.4%  |                                  |
| Jackson-Madison County        | 0                     | 0                  | 0                        | 0                             | 0.0%  |                                  |
| Knoxville-Knox County         | 4                     | 4                  | 6                        | 1454                          | 0.4%  |                                  |
| Mid-Cumberland Region         | 5                     | 9                  | 1                        | 947                           | 0.1%  |                                  |
| Shelby County (Memphis)       | 2                     | 5                  | 1                        | 628                           | 0.2%  |                                  |
| Nashville-Davidson County     | 3                     | 6                  | 0                        | 411                           | 0.0%  |                                  |
| Northeast Region              | 1                     | 2                  | 0                        | 208                           | 0.0%  |                                  |
| South Central Region          | 3                     | 3                  | 0                        | 264                           | 0.0%  |                                  |
| Southeast Region              | 4                     | 4                  | 3                        | 757                           | 0.4%  |                                  |
| Sullivan County (Tri-Cities)  | 1                     | 1                  | 0                        | 171                           | 0.0%  |                                  |
| Upper Cumberland Region       | 4                     | 5                  | 1                        | 549                           | 0.2%  |                                  |
| West Tennessee Region         | 6                     | 6                  | 1                        | 337                           | 0.3%  |                                  |
| State of Tennessee            | 44                    | 57                 | 26                       | 8815                          | 0.29% |                                  |

The percentage (%) of patients with ILI reported in Week 43 was 0.29%, compared with 0.42% in Week 42. Twenty-three specimens collected from patients with ILI during Week 43 were received; all tested negative for influenza while 8 others tested positive for other respiratory viruses. The state map of positive influenza isolates will return to this weekly report in the fall when conditions warrant it. Please look at the MMWR published on August 6th by the CDC: it contains important updates on influenza, influenza vaccine coverage last season and recommendations for the 2011-2012 influenza vaccine. A link to the MMWR can be found at http://www.cdc.gov/flu/about/season/.

## State Public Health Laboratory Respiratory Viral Panel Number of Positive Specimens, by week

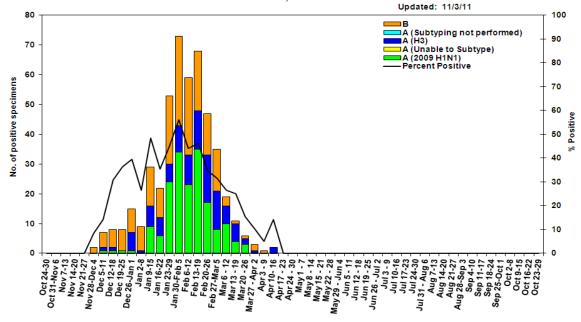

| Month                         | Oct.    |    |    |    | Sep. |
|-------------------------------|---------|----|----|----|------|
| Week                          | Current | 42 | 41 | 40 | 39   |
| Total specimens tested        | 19      | 15 | 15 | 9  | 14   |
| Influenza A 2009 H1N1         | 0       | 0  | 0  | 0  | 0    |
| Influenza A H3N2              | 0       | 0  | 0  | 0  | 0    |
| Influenza B                   | 0       | 0  | 0  | 0  | 0    |
| Respiratory Syncitial Virus A | 0       | 0  | 0  | 0  | 0    |
| Respiratory Syncitial Virus B | 0       | 0  | 0  | 0  | 0    |
| Parainfluenza 1               | 1       | 0  | 3  | 0  | 0    |
| Parainfluenza 2               | 1       | 0  | 0  | 0  | 0    |
| Parainfluenza 3               | 0       | 0  | 0  | 0  | 0    |
| Rhinovirus                    | 6       | 1  | 2  | 1  | 0    |
| Metapneumovirus               | 0       | 0  | 0  | 0  | 0    |
| Adenovirus                    | 0       | 0  | 0  | 0  | 0    |

# Percentage of Outpatient Visits Reported by the U.S. and Tennessee Outpatient Influenza-like Illness Surveillance Network (ILINet) as Influenza-like Illness, 2010-2011

Week (Oct. 24, 2010 - Oct. 29, 2011)

#### Influenza Positive Tests Submitted to TN Dept. of Health Laboratory Services, Tennessee, 2010-2011

#### Reference Information for Sentinel Provider Network

1 Influenza-like illness (ILI) is defined as fever > 100°F (37.8°C) plus cough and/or sore throat, in the absence of a known cause (other than influenza). Classification of ILI is based upon symptoms only and does not require any test.

2 The % of patients with ILI seen in each region is compared to the statewide average. Regions with % statistically-significantly different from the state average are noted as "higher" or "lower." The CDC reports that the percentage of patients visiting outpatient healthcare providers in the Sentinel Provider Network (SPN) with influenza-like-illness (ILI) when influenza viruses are not circulating is expected to fall at or below a specific SPN baseline [nationwide = 2.2%, East South Central region (AL, TN, MS, KY) = 2.3%]. When the percentage of patients with ILI exceeds this baseline, this suggests that influenza viruses may be circulating.

#### Important information for Sentinel Providers

Sentinel Providers report ILI by the end of Tuesday following the end of the reporting week (www2a.cdc.gov/ilinet) and collect and ship specimens from ILI cases Monday through Thursday (maximum 10/week per provider). All Sentinel Provider specimens MUST be accompanied by the Influenza and Respiratory Viral Panel Submission form or testing will not be done. The Respiratory Viral Panel is only validated for nasopharyngeal (NP) specimens. Specimens collected from other sites cannot be tested.

Additional laboratory supplies can be obtained by completing the lab order supply form. To ensure the order is filled, please include the CDC Provider ID Code.

### **Contact Information**

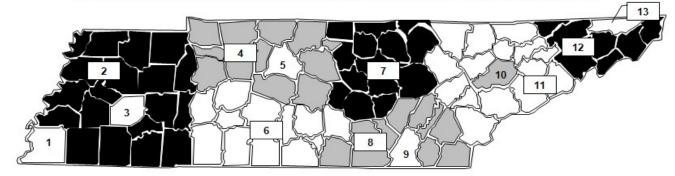

Submit weekly reports to: http://www2a.cdc.gov/ilinet/ OR Fax 888-232-1322

State Lab: Susan McCool 615-262-6351
