## REPORTS

*Executive Director's Report* – Ms. Smith stated that from January 1, 2017-June 30, 2017, there were 184 Dentists, 180 Hygienists, and 705 Assistants that applied for licensure. There were 37 Dentists, 252 Hygienists, and 1,116 Assistants who received permits. There were 516 Dentists who renewed their license online giving a 60% renewal rate; there were 688 hygienists who renewed their license online giving a 67% renewal rate, and there were 1,197 assistants who renewed their license online giving a 67% renewal rate. During this time period, there were 32 dentists, 61 hygienists, and 514 assistants whose license expired. During this time period, there were 70 dentists, 44 hygienists, and 53 assistants who retired their license. As of June 30, 2017, there were 3,944 dentists, 4,886 hygienists, and 9,614 assistants, giving a total of 18,444 who held active licenses.

Office of Investigations Report - Ms. Luther stated there were 143 complaints with Investigations. There were 49 active complaints, and there were currently 111 people being monitored.

OGC Report – Ms. Putnam stated that Teledentistry Rules were in the internal review process.

Wellness Committee –The Wellness Committee is committed to confidently assist all members of the dental family who have become functionally and professionally impaired due to drug dependencies, mental, physical or aging problems. Dr. McElhiney and Dr. Sain met with several Dentists and Hygienists during this quarter. They discovered they needed to update their recordkeeping as well.

Legislative Update – Ms. Blair stated that there were seven public chapters that went into effect that would affect the board.

Public Chapter 40 - This sunset provision extends the board of dentistry until June 30, 2021.

Public Chapter 404 - Requires public water systems which have a monthly fluoride test confirmed by quarterly laboratory analysis to exceed 1.5 mg/L to have each monthly test analyzed by a laboratory until fluoride levels are below 1.5 mg/L for three consecutive months. The water system must also notify its customers that a water sample exceeded 1.5 mg/L. This act took effect on May 18, 2017.

Public Chapter 350 - Allows healthcare providers to satisfy one hour of continuing education requirements through the performance of one hour of voluntary provision of healthcare services. The maximum amount of annual hours of continuing education that a provider can receive through providing volunteer healthcare services is the lesser of 8 hours or 20% of the provider's annual continuing education requirement. The legislation allows for rulemaking by the division of health related boards in order to administer this section. This took effect on May 12, 2017.

Public Chapter 215 - Requires state governmental entities that establish or adopt guides to practice to do so through the promulgation of rules, rather than policy. The rules so promulgated must specify all provisions included in and relating to the guide to practice. Any changes to guides to practice made after the guides are adopted must also be promulgated by rule in order to be effective. For purposes of this part, guides to practice includes codes of ethics and other quality standards, but does not include tests, examinations, building codes, safety codes, or drug standards. This legislation took effect on April 28, 2017.

Public Chapter 240 - Insures the integrity of licensure examinations by making examination questions, answer sheets, scoring keys, and other examination data confidential and closed to public inspection. Allow the issuance of limited licenses to applicants who have been out of clinical practice or inactive, or who are engaged in administrative practice. Limited licenses may be of restricted scope, restricted duration, and have additional conditions placed upon them in order to obtain full licensure. Clarify that other documents prepared by or on behalf of the Department with regard to an investigation are confidential until such time as formal disciplinary charges are filed against the provider. Eliminate the "locality rule" for administrative law. Require the chief administrative official for each health care facility to report within 60 days any disciplinary action taken against an employee for matters related to ethics, incompetence or negligence, moral turpitude, or substance abuse, to the employee's respective licensing board. All records pertaining to the disciplinary action shall be made available for examination to the licensing board. This act became effective on May 2, 2017.

Public Chapter 481 - Creates a new violation of a healthcare practitioner's practice act if that practitioner refuses to submit to or tests positive for any drug the practitioner does not have a

lawful prescription for or a valid medical reason for using the drug. It is the duty of the employer to report any violation to the Department of Health. If the practitioner fails a drug test, the practitioner has 3 business days to either produce the requisite prescription or medical reason, or report to their board approved peer assistance program. If the practitioner does not comply with any of these measures, it is the duty of the employer to report this violation of the practice act to the employee's licensing board for investigation and action. If the practitioner reports to the peer assistance program and obtains and maintains advocacy of the program, the employer is not required to notify the board. As long as a practitioner obtains, maintains and complies with the terms of a peer assistance program, the board shall not take action on the licensee for the sole reason of a failed or refused drug test. If a practitioner fails to obtain or maintain advocacy from the peer assistance program, the program is required to report that information to the appropriate licensing board. The board SHALL suspend the license of a practitioner who fails to comply with the terms of the program. Employer drug testing must be compliant with the Drug-free Workplace requirements. This legislation allows a quality improvement committee to share information regarding substance abuse by a practitioner with other quality improvement committees. Additionally, this legislation specifies that the Department of Health is not required to obtain prior approval from the Attorney General in order to take any emergency action on a licensee. This legislation took effect on July 1, 2017.

Public Chapter 230 - Authorizes commissioners or supervising officials of departments to evaluate certain actions by a regulatory board to determine whether the action may constitute a potentially unreasonable restraint of trade. Supervising officials must ensure that the actions of regulatory boards that displace competition are consistent with a clearly articulated state policy. If a board action constitutes a potentially unreasonable restraint of free trade, the supervising official must conduct a further review of the action and either approve, remand or veto the action. The supervising official may not be licensed by, participate in, or have a financial interest in the occupation, business or trade regulated by the board who is subject to further review, nor be a voting or ex officio member of the board. The supervising official must provide written notice of any vetoed actions to the senate and house government operations committees. Prior to filing a regulatory board's rule with the secretary of state, the commissioner or chief executive officer of the administrative department under which a regulatory board operates or to which a regulatory board is administratively attached, or a designee to the extent a conflict of interest may exist with respect to the commissioner or chief executive officer, must remand a rule that may constitute a potentially unreasonable restraint of trade to the regulatory board for additional information, further proceedings, or modification, if the rule is not consistent with a clearly articulated state policy or law established by the general assembly with respect to the regulatory board. This act took effect on April 24, 2017.

Update from School of Dentistry – Dean Hottel was placed on indefinite suspension. There are discussions to increase the size of the classes for the restorative and prosthetic functions certification courses and improve the way waiting list is handled. Dr. Holifield may attend the October board meeting with Dr. Robbins to provide more information.

Update on SRTA – Annual meeting will take place in August. Dr. Jubran explained the committee and Board of Directors will need a board member to serve on the ADEX committee. SRTA has discussed rejoining ADEX.

**ORDER OF COMPLIANCE** - Dr. Bateman made a motion to remove the probation from the license of William Hunter, III, DDS. Second was given by Dr. Williams. Motion carried.
