New Continuing Education Rules: Overlapping Audit Cycles

The board cannot overlook an individual failing to obtain continuing education (CE). Acknowledgement is given to the fact that the adoption of new CE rules creates two continuing education cycles where both the old and new rules were in effect. With this in mind, the Board has adopted the following:

2022 License renewal

- CE in 2020 and 2021
- Licensee can continue to follow old rules

2023 License renewal

- CE in 2021 and 2022
- Licensee must follow new rules.

Adopted by the Board of Examiners in Psychology on the 16 day of June 2021.
