

TENNESSEE MEDICAL LABORATORY BOARD

POLICY STATEMENT

QUALIFICATIONS FOR MEDICAL LABORATORY SUPERVISOR OF A 30 BED OR LESS HOSPITAL

Applicants licensed as a medical laboratory director or supervisor pursuant to T.C.A. 68-29-135 shall have a modifier placed on the license to indicate that the license is a restricted medical laboratory director license or a restricted medical laboratory supervisor license.

Other than the qualifications listed in T.C.A. 68-29-135(b), an individual with a restricted supervisor license must, pursuant to Rule 1200-06-01-.21(1)(d), complete forty-five (45) contact hours in management continuing education within the first two (2) years after obtaining the license.

If an individual, with a restricted supervisor license, wants to obtain an unrestricted license, he or she will need to submit an application, previously documented proof of forty-five (45) contact hours in management continuing education, and provide proof of three (3) years of lab supervisory work experience.

This policy was adopted on October 22, 2020.
