The Tennessee Board of Pharmacy convened on Thursday, February 27, 2025, in the Iris Room, 655 Mainstream Dr, Nashville, TN. A quorum of the members being present, the meeting was called to order at 9:03 a.m. with Dr. Breeden presiding.

Public Comments

Anthony Pudlo, PharmD., Executive Director for the Tennessee Pharmacy Association.

Contested Case

**Samantha Johnson,
RT**

Ms. Johnson was not present nor represented by legal counsel. Mr. Peters represented the State. Ms. Elizabeth Cambron was the Administrative Law Judge. Mr. Peters asked to proceed in default. Dr. McCall made the motion to proceed in default. Ms. Foster seconded the motion. The motion carried. Mr. Peters passed out the Notice of Charges. Ms. Johnson is charged with violating T.C.A. §63-10-309 (3) (5) and (7). After discussion, Dr. McCall made the motion to revoke Ms. Johnson's registration as a pharmacy technician and assessed case cost. Dr. Blane seconded the motion. The motion carried. Dr. Leinart and Ms. Foster voted no. Dr. Blane made the motion that the action taken was to protect, promote and improve the health and prosperity of people in Tennessee. Dr. Leinart seconded the motion. The motion carried.

Rulemaking Hearing

Mr. Gibbs presented the Economic Impact Statement and the Regulatory Flexibility Analysis to the Board. After discussion, Dr. Blane made the motion to accept the Economic Impact Statement and the Regulatory Flexibility Analysis. Dr. McCall seconded the motion. The motion carried.

During the rulemaking hearing, both written and oral comments were considered by the Board. Those comments were as follows:

Written comments

Publix Pharmacy

Publix asked the Board to consider granting registered pharmacy technicians the authority to immunize, under the supervision of a licensed pharmacist.

After discussion, Ms. Foster made a motion to deny the request. Dr. Blane seconded. Dr. Breeden and Dr. Leinart voted no. The motion carried.

Additionally, Publix requested the Board to consider allowing basic CPR training for immunizing technicians, as opposed to CPR training designed specifically for health care providers.

After discussion, Ms. Foster made a motion to accept the request. Dr. Blane seconded. The motion carried.

CVS

CVS requested the Board consider modifying the proposed language that would require a technician to hold national certification to administer vaccines or tests.

The Board did not accept this recommendation as it had already been rejected.

CVS requested the Board be open to approving employer-based training programs and remove the continuing education requirements required during each Board registration renewal cycle for administration of tests cleared by the FDA for home use or those tests approved for a waiver under the Clinical Laboratory Improvement Amendments of 1988 (“CLIA”).

The Board stated the current rule text “or Board-approved” created a pathway for employer-based training programs to be submitted to the Board for approval.

After discussion, Ms. Foster made a motion to deny the request. Dr. Leinart seconded. The motion carried.

National Association of Chain Retail Pharmacies

The National Association of Chain Retail Pharmacies (“NACRP”) asked that the Board grant registered pharmacy technicians the authority to administer immunizations under the supervision of a licensed pharmacist.

The Board did not accept this recommendation as it had already been rejected.

Additionally, regarding training for registered immunizing technicians, NACRP requested that that Board consider allowing basic CPR training as opposed to CPR training designed for health care providers.

The Board has already accepted this recommendation.

National Association of Chain Drug Stores

The National Association of Chain Drug Stores (“NACDS”) urged the Board to revise the proposed rule to align pharmacy technician qualifications for administering vaccines and CLIA-waived tests with what is currently required for pharmacy technicians under the federal PREP Act. This includes allowing registered pharmacy technicians to administer vaccines and tests; removing the CPR for health care providers requirement and replacing the requirement with basic CPR; removing the practical training requirement to administer CLIA-waived tests; and removing the CE training requirement for administration of CLIA-waived tests.

The Board did not accept the recommendation on registered pharmacy technicians as it had already been rejected.

The Board had already accepted the comment regarding CPR certification.

Oral Comments

Jennifer Powell, CPhT, Gibbs Pharmacy

Ms. Powell spoke in favor of the Tennessee Board of Pharmacy’s (“Board”) desire to allow certified pharmacy technicians to administer vaccines and tests as it’s written in the Board’s Notice of Rulemaking. Ms. Powell’s comments did not require the Board to act as the comments were an affirmation of support for the rules.

Jim Gibbs, D.Ph, Gibbs Pharmacy

Dr. Gibbs spoke in favor of the Board’s desire to allow certified pharmacy technicians to administer vaccines and tests as it’s written in the Board’s Notice of Rulemaking. Dr. Gibbs’s comments did not require the Board to act as the comments were an affirmation of support for the rules.

Heather Hughes, D.Ph, Publix Pharmacy

Dr. Hughes asked the Board to consider allowing registered pharmacy technicians to administer a limited subset of vaccines and tests (i.e. for the flu and COVID).

After discussion, Ms. Foster made a motion to deny this request. Dr. Blane seconded. Dr. Leinart and Dr. Breeden voted no. The motion carried

Olivia Welter, D.Ph, Tennessee Pharmacist Association

Dr. Welter spoke on behalf of the Tennessee Pharmacist Association (“TPA”). Dr. Welter stated the Board’s vote to strike “designed for health care providers” as it pertains to the requirement of cardiopulmonary resuscitation (“CPR”) training is consistent with TPA’s suggested edits to the rules. Dr. Welter spoke in support of the certification requirement for pharmacy technicians to

administer vaccines and tests. Dr. Welter noted the Board's rules are broader than what is allowed under federal law for pharmacy technicians to administer which aligns with a certification requirement. Dr. Welter's comments did not illicit Board action.

Reggie Dilliard, D.Ph, Gladstone Consultants

Dr. Dilliard asked the Board to consider allowing registered pharmacy technicians to administer vaccines and tests.

The Board did not accept this recommendation as it had already been rejected.

As amended, Dr. McCall made a motion to accept the rules. Ms. Foster seconded. The motion carried.

Chapter 1140-01

(3) (e) The board shall consider a written notice requesting reinstatement of an inactive, delinquent, suspended or revoked license within six (6) months of the notice being received by the director.

Authority: T.C.A. §§ 63-10-101, 63-10-102, 63-10-204, 63-10-210, 63-10-304, 63-10-306, 63-10-404(17), and 63-10-504(b)(1).

Chapter 1140-02

Professional Conduct and Responsibilities

Amendments

Rule 1140-02-.02 Pharmacy Technicians is amended by deleting subparagraphs (1)(d), (5)(b), and (5)(c) and paragraphs (4) and (6) in their entirety and substituting instead the following language, and is further amended by adding new subparagraphs (5)(d) and (5)(e), including their parts, and (5)(f), so that as amended, the new paragraphs, subparagraphs, and parts shall read:

(1) (d) Any application submitted which lacks required information or reflects a failure to meet any of the requirements for registration will be returned to the applicant with written notification of the information that is lacking or the reason(s) the application does not meet the requirements for registration and will be held in "pending" status until satisfactorily completed within a reasonable period of time, not to exceed one (1) year from date of initial application.

(4) A registered pharmacy technician may, under the supervision of a pharmacist, perform those tasks associated with the preparation and dispensing process except those tasks identified in Rule 1140-02-.01(13) that must be personally performed by a pharmacist or pharmacy intern under the personal supervision and in the presence of a pharmacist, or those tasks identified in 1140-02-.02(5).

(5) (b) Receive and transfer copies of oral medical and prescription orders between pharmacy practice sites;

(c) Verify the contents of unit dose carts/automated dispensing systems prepared by other registered technicians when an additional verification by use of bar code technology or a licensed health care professional is performed prior to administration to the patient; and

(d) Under the supervision of a pharmacist licensed by the Board who has authorized the administration of a vaccine, administer United States Food and Drug Administration (“FDA”) authorized or FDA-licensed vaccines to patients pursuant to a valid medical or prescription order after the following qualifications are met by the certified pharmacy technician:

1. Complete a practical training program that is ACPE-approved or approved by the Board. This training program must include hands-on injection technique and the recognition and treatment of emergency reactions to vaccines;
2. Posses a current certificate in cardiopulmonary resuscitation; and
3. Complete a minimum of two hours of ACPE-approved or Board-approved immunization-related continuing pharmacy education during each Board registration renewal cycle; and

(e) Administer tests cleared by the FDA for home use or those tests approved for a waiver under the Clinical Laboratory Improvement Amendments of 1988 (“CLIA”) to patients at a pharmacy practice site and under the supervision of a pharmacist pursuant to a medical or prescription order, when required, after completion of the following qualifications by the certified pharmacy technician;

1. Complete a practical training program that is ACPE-approved or approved by the Board. This training must include hands-on training in point-of-care testing, including the following types of specimen collection: oral swab, nasal swab, throat swab, and finger stick; and
2. Complete a minimum of two hours of ACPE-approved or Board-approved point-of-care testing related continuing education during each Board registration renewal cycle.

(f) The supervising pharmacist at the pharmacy practice site where the vaccination is administered shall be readily and immediately available to the certified pharmacy technician who is administering the vaccine.

(6) No prescription drugs and devices and related materials may be released to a patient unless all of the functions performed by a pharmacy technician are verified by a pharmacist.

Authority: T.C.A. §§ 63-1-116, 63-10-204, 63-10-308, and 63-10-310.

Minutes

Dr. McCall made the motion to accept the minutes from the November 14, 2024, board meeting as presented. Ms. Foster seconded the motion. The motion carried.
