

Alzheimer's Dementia & Related Dementias:
An Evidence Based Update on Research, Early Detection, Caregiving, & More
A high level continuing education curriculum for health care providers & their staff

Curriculum Objectives:

1. Present current standards of best practice related to the evaluation and treatment of Alzheimer's Disease and other related dementias (ADRD) from an interprofessional approach.
2. Review the framework, tools, and resources for early detection and diagnosis of ADRD.
3. Analyze guidelines for completing death certificates for those with ADRD.
4. Collaborate with participants to identify opportunities to further engage primary care providers.

Closing Remarks

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Tennessee Medical Association and Tennessee Department of Health. The Tennessee Medical Association is accredited by the ACCME to provide continuing medical education for physicians. The Tennessee Medical Association designates this for a maximum of 6 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

"Funding for this ad was made possible [in part] by the Building Out Largest Dementia (BOLD) Infrastructure for Alzheimer's Act, Public Law 115-306, for Public Health Programs to Address Alzheimer's Disease and Related Dementias (CDC-RFA-20-2004 award number 6 NU58DP006957-01-01) from the Centers for Disease Control and Prevention (CDC) or the Tennessee Department of Health . The views expressed do not necessarily reflect the official policies of the Department of Health and Human Services; nor does mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government."
