

Tennessee Department of Health
Family Health & Wellness Division
Children & Youth with Special Health Care Needs
(CYSHCN)

The CYSCHN **Emergency Alert Child with Special Needs** decal and magnet will be distributed to families who have children and youth with special needs.

The purpose of the **Emergency Alert Child with Special Needs** decal and magnet is to:

- *Alert first responders, police officers and other emergency personnel that there is a child or youth with special needs in your home or car.*
- *Show the need for more help during an emergency if your child has medical conditions or other disabilities.*

You will be given a blank detail card to fill in important information about your child or youth with special needs. The detail card can be placed in the glove box of your vehicle or by the entry door of your home.

You should place the decal on the entry door or window of your home and the magnet on the back bumper of your car.

For more information about the CYSHCN Program go to <http://health.state.tn.us/MCH/CYSCHN.shtml>
