# Who we are and what we do:

The mission of the Tennessee Department of Health is to protect, promote and improve the health and prosperity of people in Tennessee.

Our vision is to be a recognized and trusted leader, partnering and engaging to accelerate Tennessee to one of the nation's ten healthiest states.

The Division of Laboratory Services' mission is to provide quality testing services through innovation, collaboration, and education that protects and improves the health of all.

Pursuant to the State of TN's policy of non-discrimination, the State of Tennessee does not discriminate on the basis of race, sex, religion, color, national or ethnic origin, sexual orientation, age, disability, or military services in its policies, or in the admission of, access to, treatment, or employment in its programs, services, or activates.

**TDH Laboratory Services** 

## Public Health Laboratory Scientist 2, Clinical

Department of Health, Division of Laboratory Services (DLS) Salary Range: \$47,496 - \$71,400

### **Position Overview:**

- Responsible for routine laboratory testing and work of moderate difficulty as it relates to microbiological and/or molecular areas.
- Duties may include first level troubleshooting, guidance to entry level staff and work of moderate difficulty.
- Performs other tasks as required.

#### **Distinguishing Features:**

- This is a working level class in the Public Health Laboratory Scientist series.
- This class differs from Public Health Laboratory Scientist 1 in that an incumbent of the latter functions at the entry level. This class differs from the Public Health Scientist 3 in that an incumbent of the latter performs work of moderate to complex difficulty and possesses a minimum of three years of laboratory experience.

#### **Minimum Qualifications:**

A PH Lab Scientist 2 performing clinical duties the majority of their time **must**:

- Have successfully completed a Medical Laboratory Scientist or Medical Laboratory Technician training program.
- Have graduated from an accredited college or university with a bachelor's degree in life sciences (e.g. biology, microbiology, or biochemistry), Medical Laboratory Science, pre-medicine, or other acceptable science.
  OR
- Meet CLIA Testing Personnel Qualification Category set forth in federal CMS regulations 42 CFR, 493.1489.

#### A transcript with <u>ALL</u> credits is required to be uploaded with an employment application in order to properly evaluate a candidate's eligibility for a position in this classification. Microbiology coursework strongly preferred.

#### **Required Experience:**

- Have **one year of full-time professional work experience** in the Clinical Laboratory field.
- Substitution of Education for Experience:
  - Graduate course work received from an accredited college or university in a related field may substitute for the required experience on a year-toyear basis to a maximum of one year (e.g. 24 graduate semester hours or 36 graduate quarter hours in a related field may substitute for one year of the required experience).
     OR
  - Successful completion of an accredited, 4-year medical laboratory scientist program, and one year of full-time professional work in the related field.
