

It's Time For Your Covid-19 Booster.

The CDC recommends the COVID-19 Booster which:

- Are safe for Pfizer-BioNTech and Moderna recipients five months after their primary series. A second booster dose is recommended four months after your first booster.

- Are safe to be administered the same day you receive your Flu shot

- Help protect you and your community from infections

If you have a disability, you and your adult family members or caregivers may qualify for a FREE in-home vaccine.

Call Disability Rights TN at 1-800-342-1660 to schedule your appointment. (No proof of disability or citizenship needed. Hablamos Español.)
