Nashville, TN 37243

Waiver Request:

Jacob Holloway is currently the Director of Nursing at Park Rest Health Center. We are requesting a waiver to allow him to be able to provide care as the Director of Nursing for Hardin Home Nursing Home in addition to Park Rest Health Center.

We request this waiver under the following basis:

Our two facilities combine for a total of 101 beds. The facilities are situated in joint lots that share the same parking area. Park Rest provides dietary for both places and laundry is supplied for both facilities by Hardin Home. The administrator and social worker currently perform duties for both facilities.

Also, both facilities are Medicaid only so the level of care of our residents is much lower than most facilities.

We are located in an area without a substantial number of qualified registered nurses.

More evidence that our residents have received adequate care can be seen through the lack of complaints made to the state. We have had no substantiated complaints made to the state in the past 4 years at either facility.

I feel that one qualified and competent RN could perform the duties of Director of Nursing at each of our facilities without any decrease to the great care we give to our residents. For the reasons mentioned above, we are asking that a waiver be granted.

For Your Consideration,

Michael Reeves, Administrator
