

PROCEDURES FOR APPLYING FOR INITIAL SERVICE LINE FOR HOSPITALS OR OUTPATIENT DIAGNOSTIC CENTERS

1. Beginning December 1, 2025, NICU, Burn Unit, MRI, and PET service lines must submit a licensure application to the Health Facilities Commission (HFC) followed by the designated fee.

A licensing fee schedule is listed at the end of the application.

2. Please complete the entire application responding to each applicable field. All applications must be signed by an authorized representative. Incomplete or unsigned applications will be returned which may delay the processing of the application.
3. All applications will need to be emailed to hfc.service@tn.gov. An email will be sent to the applicant within two (2) business days of receipt verifying that the application was received.
4. Any hospital seeking to initiate a new NICU/Burn service line that was previously not licensed, or seeks to modify NICU (Level II-IV) or Burn Unit services, must submit architectural plans to Plans review through the online portal at <https://apps.tn.gov/tnhcf/>

If a hospital is modifying an existing NICU/Burn service line (e.g. renovations, increasing a NICU level, or increasing bed capacity), the hospital must submit architectural plans to Plans Review as well.

5. If an initial service is being implemented, after Plans Review has been completed and approved, a Life Safety Inspector will be sent out within ten (10) days. Within thirty (30) to forty-five (45) days, a health licensure surveyor will be sent out to determine approval.
6. If the application is for a new Burn or NICU service, after the Plans Review approval, a HFC surveyor will conduct an on-site review for the initial occupancy approval.
7. If the application involves MRI and/or PET, please review HFC's Medical Equipment Registry to ensure information submitted on the licensure application is consistent with previously submitted data.
8. Upon receipt of the application, HFC staff will review the application for completeness. Once determined to be complete, a service license number will be assigned, and an invoice will be sent to the listed billing contact. The requested license fee will need to be submitted to Health Facilities Commission, following the invoice instructions, by listed due date on the invoice.

9. Once the license fees have been received, a provisional approval letter will be sent to the Administrator. When complete, the application will then be presented to the Commission at the next regularly scheduled Commission meeting for ratification.
 - a. If the Commission ratifies the application, the license certificate will then be created and mailed to the licensee. You should receive the physical license in ten (10) to fourteen (14) days.
 - b. If the Commission does not ratify the initial approval of your application, a letter will be mailed to you providing an explanation and specific instructions as to any actions you may take to have the decision reviewed, at which time this authorization shall cease to be effective.

All applicable laws, rules, policies, and guidelines are available for viewing at <https://www.tn.gov/hfc/division-of-licensure-and-regulation/hfc-licensure/licensure-applications.html>. Please check this website periodically for updates.

Please note the licensure application does not take the place of the HFC Medical Equipment Registry. Medical Equipment Yearly submissions are still required.
